Pour Qui Sonne Le Glas 1st Edition:

Paratexts Gerard Genette, 1997-03-13 Paratexts are those liminal devices and conventions both within and outside the book that form part of the complex mediation between book author publisher and reader titles forewords epigraphs and publishers jacket copy are part of a book's private and public history In this first English translation of Paratexts Gerard Genette shows how the special pragmatic status of paratextual declaration requires a carefully calibrated analysis of their illocutionary force With clarity precision and an extraordinary range of reference Paratexts constitutes an encyclopedic survey of the customs and institutions as revealed in the borderlands of the text Genette presents a global view of these liminal mediations and the logic of their relation to the reading public by studying each element as a literary function Richard Macksey's foreword describes how the poetics of paratexts interact with more general questions of literature as a cultural institution and situates Genette's work in contemporary literary theory Translation and Paratexts Kathryn Batchelor, 2018-05-16 As the thresholds through which readers and viewers access texts paratexts have already sparked important scholarship in literary theory digital studies and media studies Translation and Paratexts explores the relevance of paratexts for translation studies and provides a framework for further research Writing in three parts Kathryn Batchelor first offers a critical overview of recent scholarship and in the second part introduces three original case studies to demonstrate the importance of paratextual theory Batchelor interrogates English versions of Nietzsche Chinese editions of Western translation theory and examples of subtitled drama in the UK before concluding with a final part outlining a theory of paratextuality for translation research addressing questions of terminology and methodology Translation and Paratexts is essential reading for students and researchers in translation studies interpreting studies and literary translation *Ernest Hemingway* Audre Hanneman, 2015-12-08 This bibliography of Hemingway's writings and related materials includes for the first time all of his books pamphlets stories articles newspaper contributions juvenilia library holdings of his letters and manuscripts items written about Hemingway between 1918 and 1965 and short excerpts from reviews of each of Hemingway's novels It is the first bibliography of Hemingway published since 1931 and includes much material never before assembled thirty eight contributions to his high school newspaper Trapeze twenty eight Spanish Civil War dispatches and first editions published in some thirty foreign languages First editions of books and pamphlets both American and English with bibliographic descriptions are given Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Georges Bataille* Michel Surya, 2020-05-05 Georges Bataille was a philosopher writer librarian pornographer and a founder of the

influential journals Critique and Acphale He has had an enormous impact on contemporary thought influencing such writers as Barthes Baudrillard Derrida Foucault and Sontag Many of his books including the notorious Story of the Eye and the fascinating The Accursed Share are modern classics In this acclaimed intellectual biography Michel Surya gives a detailed and insightful account of Bataille's work against the backdrop of his life his troubled childhood his difficult relationship with Andr Breton and the surrealists and his curious position as a thinker of excess potlatch sexual extremes and religious sacrifice one who nonetheless remains at the heart of twentieth century French thought all of it drawn here in rich and allusive prose While exploring the source of the violent eroticism that laces Bataille's novels the book is also an acute guide to the development of Bataille's philosophical thought Enriched by testimonies from Bataille's closest acquaintances and revealing the context in which he worked Surya sheds light on a figure Foucault described as one of the most important writers of the century

The Care of the Witness Michal Givoni, 2016-10-31 During the twentieth century witnessing grew to be not just a widespread solution for coping with political atrocities but also an intricate problem As the personal experience of victims soldiers and aid workers acquired unparalleled authority as a source of moral and political truth the capacity to generate adequate testimonies based on this experience was repeatedly called into question Michal Givoni's book follows the trail of the problems torments and crises that became commingled with witnessing to genocide disaster and war over the course of the twentieth century By juxtaposing episodes of reflexive witnessing to the Great War the Jewish Holocaust and third world emergencies *The Care of the Witness* explores the shifting roles and responsibilities of witnesses in history and the contribution that the troubles of witnessing made to the ethical consolidation of the witness as the leading figure of nongovernmental politics

The Inner Scar Andrew Hussey, 2022-05-16 Since his death in 1962 Georges Bataille has acquired the status of one of the most influential thinkers of the age The fact that this reputation has been established by the likes of Michel Foucault Jacques Derrida Julia Kristeva and Philippe Sollers appears to confirm Bataille as a precursor of the postmodernist condition Few contemporary accounts of Bataille's thought have however engaged with those aspects of his thinking which are influenced by his interest in mysticism This is an omission which is all the more striking given that Bataille considered his thought to be not only opposite to all philosophical traditions originating in the Enlightenment but also a form of speculation intricately related to the religious exigencies of the Christian Medieval period This book presents the first major study in English of how Bataille's mystical practices and texts interact with the outer worlds of politics social relations and externalised discourse which Bataille sets up as the antipodes of his inner experience From this starting point Andrew Hussey argues that the inner experience of limits in Bataille's work the movement which he terms transgression is unlike the textual drams cherished by his postmodernist admirers a non metaphorical even visceral event
