Pour Comprendre La Constitution Europeenne:

Pour comprendre la constitution européenne Bastien François, 2005 Comprendre Simplement L'Union Europeenne Economique Et Financiere Depuis La Guy Rimbault, 2002 , The Rise and Fall of the EU's Constitutional Treaty Finn Laursen, 2008-07-31 This book analyses the EU's Constitutional Treaty which emerged in draft form from the European Convention in the summer of 2003 and which was finalised by an Intergovernmental Conference IGC in June 2004. It describes the main novelties of the treaty and looks at policies of important actors: Member States and Community actors, the Commission and European Parliament and the roles played by the Convention and the Italian and Irish Presidencies during the process of deliberation and negotiation that produced the treaty. It further studies the failure of ratification in France and the Netherlands and the implications for the process of European integration of this failure. It finally touches on the question whether a constitutional equilibrium has been reached. Since the new Lisbon Treaty negotiated in 2007 contains much of what was in the Constitutional Treaty, the analyses of the book remain pertinent for this latest EU treaty. 100 fiches pour comprendre le droit Ludovic Lestideau, 2023-12-22 En 100 fiches cet ouvrage propose une présentation pédagogique des divers champs d'application et d'étude du droit: présentation du droit des autres pays, histoire du droit, comment rendre justice, droits individuels et familiaux, état et administration, politique et droit pénal et criminologie, droit des entreprises et des travailleurs, droit des minorités et discriminations, Internet et le droit, droit des animaux, droit européen, droit international, droit de la guerre et droit de la paix. Ces fiches rédigées dans un langage simple et clair ont été conçues dans une optique accessible et actualisées intégrant les dernières statistiques afin de clarifier tous les aspects juridiques vus. Cet ouvrage crit par un auteur référent sera utile aux étudiants s'orientant en droit ou préparant des concours et plus largement tous ceux souhaitant s'initier à cette matière. *Ordoliberalism, Law and the Rule of Economics* Josef Hien, Christian Joerges, 2017-12-28 Ordoliberalism is a theoretical and cultural tradition of significant societal and political impact in post-war Germany. For a long time the theory was only known outside Germany by a handful of experts but ordoliberalism has now moved centre stage after the advent of the financial crisis and has become widely perceived as the ideational source of Germany's crisis politics. In this collection the contributors engage in a multifaceted exploration of the conceptual history of ordoliberalism, the premises of its founding fathers in law and economics, its religious underpinnings, the debates over its theoretical assumptions and political commitments and its formative vision of societal ordering based upon a synthesis of economic theories and legal concepts. The renewal of that vision through the ordoliberal conceptualisation of the European integration project, the challenges of the current European crisis and the divergent perceptions of ordoliberalism within Germany and by its northern and southern EU neighbours are a common concern of all these endeavours. They unfold interdisciplinary affinities and misunderstandings, cultural predispositions and prejudices and political preferences and cleavages. By examining European traditions through the lens of ordoliberalism, the book illustrates the diversity of European

economic cultures and the difficulty of transnational political exchanges in a time of European crisis **Concours Sciences**

European Integration as an Elite Process Max Haller, 2008-05-05 Max Haller's impressive book presents an analysis of

the process of European integration which keeps the relation between elites and citizens at the forefront It is shown on the basis of new empirical data surveys interviews analyses of documents and biographies that European integration has been led since the beginning by the elites and that today there exists a considerable split between elites and citizens this split is becoming more profound in the course of time The book covers the following themes the structure interests and behaviour of the different elites political economic bureaucratic the expectations and perceptions of the populations concerning the integration process and the elites the strategies of the elites to win the consent of the people in view of widespread scepticism proposals for reform of the EU especially with regard to a strengthening of democratic elements which could reduce the split between elites and citizens A timely and original read this book will be a useful addition to the library of any political sociologist political scientist or scholar of European integration

Politicisation, Democratisation and EU Identity Claudia Wiesner, 2024-02-02 What is it that unites the European Union as a polity Why is it necessary to democratise the EU Can EU politicisation help democratising the EU Why do EU citizens in referenda seemingly vote against the EU And how can a European identity develop To tackle these questions this book makes a theoretical conceptual and empirical contribution to the study of EU politicisation democratisation identity formation and the ways these three are related to one another The results of a thorough comparative analysis of two prototypical cases namely French and German national EU discourses and in particular the discourses on the Treaty on a Constitution for Europe TCE in 2005 are discussed in relation to more current events such as Brexit and the French elections of 2022 The book thus develops key concepts and theoretical models and delivers profound findings on EU democratisation identity politicisation and contestation and their interrelations This book will be of key interest to scholars and students of European Union studies politics democratic theory discourse analysis and more broadly to comparative politics The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Le patrimoine constitutionnel européen Université de Montpellier. Faculté de Droit. Centre d'études et de recherches comparatives constitutionnelles et politiques, 1997-01-01 *Manuel de droit comparé des administrations européennes* Karine Abderemane, Antoine Claeys, Elise Langelier, Yseult Marique, Thomas Perroud, 2019-12-11 En prenant pour repère le droit administratif français cet ouvrage propose une approche comparative des droits des administrations de cinq États européens l'Allemagne l'Espagne l'Italie les Pays Bas et le Royaume Uni Une telle exploration horizontale a paru nécessaire l'heure où la doctrine européenne reconnaît la convergence d'un droit administratif européen et que l'influence croissante des droits de l'Union européenne et du Conseil de l'Europe sur le droit de leurs États membres semble bien identifiée L'intensité des changes notamment économiques sociaux et culturels se renforce entre ceux-ci et impose une meilleure connaissance et compréhension ciproque C'est particulièrement vrai pour le droit administratif dont l'intelligence interne pour reprendre l'expression de Jean Rivero se comprend à l'aune des influences croisées européennes transnationales etc comme celles des sp

cificités de l'histoire et des traditions juridiques nationales. C'est afin de rendre compte de la richesse de cette construction que ce manuel offre une présentation claire des concepts, des techniques et des régimes juridiques qui articulent le droit des administrations dans les cinq États étudiés. Il donne aux étudiants praticiens et universitaires les outils pédagogiques et analytiques afin de mieux comprendre les mutations actuelles des droits publics nationaux et européens. Les auteurs de cet ouvrage, tous enseignants-chercheurs en droit public interne et en droits européens, partagent une passion commune pour le droit comparé.

Ils veulent défaire la France Raphaël Dargent, 2007 *Les rebelles de la politique* Sylvie Guillaume, 2022-02-02. Ni révolutionnaires, ni révoltés, les rebelles de De Gaulle à Macron transgressent les normes du système politique sans pour autant vouloir sa destruction. La rébellion paradoxalement constructive devient le moteur de grandes réformes comme la galgation de l'IVG ou l'abolition de la peine de mort. Enfants terribles dans leur famille politique, tels Rocard, Sguin, Chevènement, Sarkozy retardant toute adhésion, un parti tels Pompidou et Barre ou la refusant tels Badinter, Veil ou Macron, ils ont tous un tempérament frondeur qui ne dessert pas leur ambition de rénover le gouvernement. Héritiers de De Gaulle, ils ont une certaine idée de la France. Héritiers de Mendès France, ils savent que gouverner, c'est choisir la veille des élections présidentielles du printemps 2022 qui du président sortant, le jupitérien Emmanuel Macron, ayant fait exploser l'organisation des partis ou de ses adversaires, réuniront une France divisée entre le rural et l'urbain, entre les nantis diplômés et les Gilets jaunes. Tout ceci sur un fond de crise sanitaire, économique et écologique.

Philosophia reformata, 2005 *Droit institutionnel de l'Union européenne* Antoine Bailleux, Hugues Dumont, 2015-09-24. Cet ouvrage constitue le premier volume d'un triptyque consacrant une analyse critique et contextuelle du droit institutionnel de l'Union européenne. Ce sont les racines mêmes de l'Union européenne qui forment l'objet de ce premier tome : la faveur de larges chapitres soigneusement articulés sur l'histoire, la théorie du droit et la théorie politique, et sans rien sacrifier de la rigueur juridique, on y examine tour à tour les fondements historiques, constitutionnels, structurels et idéologiques de l'Union. Si ce premier tome brasse un grand nombre de sujets : Europe, des régions, droits fondamentaux, citoyenneté, gouvernance, économique, etc., il est tout entier sous-tendu par une thèse forte : ni traité fondamental, ni constitution d'un État, l'Union européenne est une fédération plurinationale fondée sur un pacte constitutionnel. Ce titre, elle ne peut se penser sans les outils du pluralisme juridique et ne saurait prospérer sans les ressources d'une éthique que les auteurs trouvent dans un modèle approprié au sujet : celui de la traduction. Deux autres volumes paraîtront, venant compléter ce premier tome. L'un porte sur la laboration et le fonctionnement du droit de l'Union, décortiquant les rouages de la fabrique des règles européennes et faisant le point sur l'état actuel des rapports de force entre institutions. L'autre brosse un panorama de l'ordre juridique de l'Union et de son système juridictionnel, dressant l'inventaire de ses sources et examinant son autorité, le gard des droits nationaux. Cet ouvrage, et en particulier ce premier volume, s'adresse à toute personne curieuse d'en apprendre davantage sur l'Union européenne. Il intéressera au premier chef les étudiants en droit, en sciences politiques et en affaires européennes, ainsi que les avocats, les magistrats et les autres praticiens des institutions.
