Poverty And Revolution In Iran The Migrant Poor Urban Marginality And Politics:

Poverty and Revolution in Iran Farhad Kazemi, 1980 Iran's Political Economy since the Revolution Suzanne Maloney, 2015-08-20 This book provides a comprehensive overview of Iran's political economy since the 1979 revolution and examines the country's energy sector *Shi'i Sectarianism in the Middle East* Elisheva Machlis, 2014-09-17 The eruption of violent sectarianism in Iraq following the US invasion in 2003 brought the question of Sunni Shi'i relations in the country to the forefront of the international public agenda. It also strengthened the popular belief that contemporary Shi'ism is inherently sectarian. Yet several decades earlier Ayatollah Khomeini had declared an Islamic revolution and downplayed its Shi'i origins and links. So what is the true orientation of Shi'i Islam in the contemporary era and how did modernisation alter its sectarian affiliation? This book contends that early Shi'i reformist thought set the foundations for a more universal-oriented Shi'ism. Prominent reformists in the first half of the twentieth century from the holy cities of Karbala and Najaf in Iraq and from the Shi'i centres in Southern Lebanon played a significant role in the renewal of Shi'ism and laid the groundwork for its reinvention in the modern era. Exploring this shift towards a more ecumenical perception of Islam, Elisheva Machlis here provides a fresh perspective on inter-sectarian relations in contemporary Iraq and illuminates the intellectual roots of the Islamic revolution by examining networks of Shi'i scholars such as Mu'ammad usayn K shif al Ghi and Mu sin al Am n al mil operating within a more globalised Muslim world. Drawing on the experiences of early Shi'i reformists such as Abd al usayn Sharaf al D n al M saw in Lebanon and Mu'ammad Jaw d Mughniyya in Damascus, this book gives new insight on the future of inter-Muslim relations at a time of growing inter-sectarian contention from the Iran-Iraq war to the post-2003 Sunni Shi'i conflict in Iraq and al-Qa'ida's anti-Shi'i message, taking into account questions of theology, historiography, jurisprudence and politics which all played a vital role in the transition to the contemporary era. The author here analyses the broad scholarly connections between Iran, Iraq and Lebanon in the twentieth century while debating paramount questions of leadership, identity and group membership in the development of modern Shi'ism. Examining the relationship between intellectual thought and socio-political development in the region, this book provides a new perspective concerning the future of an increasingly globalised Muslim world and will prove essential reading for students and specialists. A Century of Revolution John Foran, 1994 Provides insight into the political currents that led to the Iranian revolution. Before late 1978 Iran did not occupy a large place in the public mind, mass media or academic pursuits. With the massive upheaval of the next few months, all this changed and the world is still trying to catch up with the dramatic events that brought Iran to its attention. This volume offers a much-needed look into the historical, social and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century. Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger theoretical and comparative context. The topics

they take up include the Tobacco Rebellion of 1890-91, the Constitutional Revolution of 1905-11, the rise of Reza Khan between 1921 and 1925, the autonomy movement in Azerbaijan and Kurdistan after World War II, the oil nationalization movement under Musaddiq between 1951 and 1953, the unrest of the 1960-63 period, the Iranian revolution of 1977-79, the state of Iran since the revolution. Throughout, common themes emerge, especially the heterogeneous bases of Iranian social movements with respect to class, gender, and ethnicity, as well as the diverse discourses: nationalist, Islamic, socialist, populist, and radical, that have animated these movements. Representing a wide variety of perspectives and approaches, this volume provides crucial insight into the widely watched but poorly understood phenomenon of present-day Iran. Contributors: Janet Afary, Purdue University; John Foran, University of California, Santa Barbara; Amir Hassanpour, Uppsala University; Mansoor Moaddel, Eastern Michigan University; Val Moghadam, United Nations University; Misgah Parsa, Dartmouth College; Sussan Siavoshi, Trinity University; Michael Zirinsky, Boise State University. Cronin, 2010-10-27. Against conventional views of the unchallenged hegemony of a modernizing monarchy, this book argues that power was continuously contested in Riza Shah's Iran. Cronin excavates the successive challenges to Riza Shah's regime posed by a range of subaltern social groups and seeks to restore to these groups a sense of their historical agency. The essays discuss topics such as the links between U.S. foreign relations and the study of ideology, race, gender, and religion; Native American history; expansion and imperialism; industrialization and modernization; domestic and international politics; and the United States' role in decolonization, globalization, and the Cold War. A comprehensive approach to understanding the history, influences, and drivers of U.S. foreign relations, this indispensable resource examines significant foreign policy events and their subsequent interpretations, places key figures and policies in their historical, national, and international contexts, provides background on recent and current debates in U.S. foreign policy, explores the historiography and primary sources for each topic, covers the development of diverse themes and methodologies in histories of U.S. foreign policy, offering scholars, teachers, and students unmatched chronological breadth and analytical

Triangle Hazem Kandil, 2016-08-18 Revolution reform and resilience comprise the respective fortunes of modern Iran Turkey and Egypt Although the countries all experienced coups with remarkably similar ambitions each followed a very different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt turned into a police state In The Power Triangle Hazem Kandil attributes the different outcomes to the power struggle between the political military and security institutions Coups establish a division of labor with one group of officers running government another overseeing the military and a third handling security But their interests begin to vary as each group identifies with its own institution Politicians wish to rule indefinitely military officers prefer to return to barracks after implementing the needed reforms and security men scramble to maintain the privileges they acquired in the post coup emergency Driven by conflicting agendas these partners in domination struggle over regime control Using comparative historical sociology Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle The Power Triangle s realist approach to regime change shows that a clear explanation of pivotal events in Iran Turkey and Egypt is impossible without a firm grasp of the power relations within each country s ruling bloc *Iranian Intellectuals in the Twentieth Century* Ali Gheissari, 2010-01-01 Since the middle of the nineteenth century Iranian intellectuals have been preoccupied by issues of political and social reform Iran s relation with the modern West and autocracy or arbitrary rule Drawing from a close reading of a broad array of primary sources this book offers a thematic account of the Iranian intelligentsia from the Constitutional movement of 1905 to the post 1979 revolution Ali Gheissari shows how in Iran as in many other countries intellectuals have been the prime mediators between the forces of tradition and modernity and have contributed significantly to the formation of the modern Iranian self image His analysis of intellectuals response to a number of fundamental questions such as nationalism identity and the relation between Islam and modern politics sheds new light on the factors that led to the Iranian Revolution the twentieth century s first major departure from Western political ideals and helps explain the complexities surrounding the reception of Western ideologies in the Middle East *Town and Country in the Middle East* Mohammad A. Chaichian, 2009-01-01 This book examines urbanization in Iran and Egypt related to each nation s unique colonial history based on extraction and production of oil in Iran and cultivation of cotton in Egypt for world markets Using Tehran and Cairo as the two hyper urbanized cities Chaichian documents development of divergent patterns of rural urban migration urban hierarchies and employment structures from the early nineteenth century up to the 1970s when a global economy based on flexible production of consumer goods started to take shape Eternal Iran P. Clawson, M. academia and in contemporary political debates However this association can be misleading Islamism has much deeper roots than jihadi terrorism and it stands as a powerful and complex ideology inspiring thoughts actions and groups all over the world Emerging as a protest for justice ideology claiming freedom against Western colonisation of the Muslim world Islamism has triggered both individuals and groups worldwide since the early 1900s Almost as a sacred ideology based on the need to revive Islam as the only saving grace for Muslims around the world Islamism started to be widely associated with jihadism after 9 11 Before then Islamism was not automatically related to terrorism but to resistance Given that terrorists are only a small and definite portion of Islamists this volume aims to re focus research on Islamism beyond jihadism by collecting relevant contributions on Islamist but non violent organisations More precisely this volume innovatively contributes to current academic debates by exploring the origins of Islamism and the differences between jihadism the evolution of Islamism over time and places and the role played by the most influential non jihadist Islamist organisations active today as powerful non state actors
