Poverty And Welfare In Hapsburg Spain The Example Of Toledo:

Poverty and Welfare in Habsburg Spain Linda Martz, 1983 Linda Martz explores the major developments in the theory and practice of poor relief in sixteenth and seventeenth century Spain

Poverty and welfare in Habsburg Spain Linda Marlene Martz, Poverty and Welfare in Habsburg Spain Linda Martz, 2009 Mozarabs in Medieval and Early Modern Spain Richard Hitchcock, 2016-04-22 The setting of this volume is the Iberian Peninsula during the Middle Ages where Christianity and Islam co existed side by side as the official religions of Muslim al Andalus on the one hand and the Christian kingdoms in the north of the peninsula on the other Its purpose is to examine the meaning of the word Mozarab and the history and nature of the people called by that name it represents a synthesis of the author s many years of research and publication in this field Richard Hitchcock first sets out to explain what being a non Muslim meant in al Andalus both in the higher echelons of society and at a humbler level The terms used by Arab chroniclers when examined carefully suggest a lesser preoccupation with purely religious values than hitherto appreciated Mozarabism in Le n and Toledo two notably distinct phenomena are then considered at length and there are two chapters exploring the issues that arose firstly when Mozarabs were relocated in twelfth century Arag n and secondly in sixteenth century Toledo when they were striving to retain their identity

The Picaresque Giancarlo Maiorino, 1996 **Europe's Welfare Traditions Since 1500, Volume 1** Thomas McStay Adams, 2023-01-26 Tracing the interwoven traditions of modern welfare states in Europe over five centuries Thomas McStay Adams explores social welfare from Portugal France and Italy to Britain Belgium and Germany He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional

framework for European economic cooperation came to fruition The Krausist Movement and Ideological Change in Spain, 1854-1874 Juan López-Morillas, 1981-04-09 This is a definitive study of a major intellectual movement of nineteenth century Spain the harmonic rationalism of Karl Christian Friedrich Krause 1781 1832 Professor L pez Morillas clearly outlines the Krausist philosophy dedicated to an ideal of universal brotherhood and its relevance to Spain where it had an unexpectedly powerful influence **Charity and Religion in Medieval Europe** James Brodman, 2009 Introduction religious charity The pious and the practical an ideology of charity A cascade of hospitals To shelter the pilgrim military orders hospices and bridges The Hospitaller orders Lay piety Charity that sanctifies The religious dimensions of care Conclusion between two worlds an elusive paradigm **The Reformation of Community** Charles H. Parker, 1998-11-28 By the time of the Calvinist Reformation the cities of Holland had established a very long tradition of social provision for the poor in the civic community Calvinists however intended to care for their own church members who were by definition within the household of faith through the deaconate a confessional relief agency This book examines the relationship between municipal and ecclesiastical relief agencies in the six chief cities of Holland Dordrecht Haarlem Delft Leiden Amsterdam and Gouda from the public establishment of the Reformed Church in 1572 to the aftermath of the Synod of Dort The author argues that the conflict between charitable organizations reveal competing conceptions of Christian community that came to the fore as a result of the Dutch Reformation This is the first comparative study of poor relief in Holland which contributes to our understanding of the Reformation throughout Europe Poor Relief and Protestantism Timothy G. Fehler, 2018-04-17 This is a study of the organisation and practical operation of the system of poor relief in Emden from the late 15th century to the end of the 16th The city went through dramatic economic confessional and constitutional changes during this period and so offers an ideal setting for the study of the emergence and development of a highly organised multi jurisdictional system of social welfare in the early modern period Utilising account books church council minutes wills contracts correspondence and guild records it focuses on the day to day operation of poor relief how the many diverse institutions actually functioned As elsewhere in Europe the Reformation did not immediately result in swift changes in poor relief the Roman Catholic components of the administration of social welfare were dissolved and replaced gradually It was only when the vast changes in religious social and economic life which occurred at the middle of the 16th century forced matters that the methods of relief for the needy were revolutionised The city was flooded with refugees from the Dutch revolt there were widespread and severe economic difficulties caused by bad harvests and skyrocketing prices and the church underwent a period of intense Calvinisation only then were Reformed institutions and methods introduced At times religious arguments dominated the poor relief debate while at others the social welfare system was barely affected the effectiveness of the new systems and institutions is illuminated by an analysis of the recipients of relief during the second half of the 16th century *Beyond Charity* Carter Lindberg, 1993-07-01 The common stereotype is that the Reformers separated public and private morality and were

indifferent to the ethical import of social structures and institutions Beyond Charity calls this understanding into question by providing an analysis of the historical situation and translations of primary documents The medieval point of view formed by piety of achievement idealized poverty either as voluntary renunciation or as almsgiving In either case the material effects on actual poverty were slight and the religious endorsement of poverty precluded urban efforts to address this growing problem The Reformers impelled by their theology developed and passed new legislative structures for addressing social welfare needs The key to their undertakings was the conviction that social ethics is the continuation of community worship In the first half this book sets forth the medieval context details Luther's critique of the profit economy of his day and analyzes the actual social welfare programs that issued from his theology The second half provides translations of selected legislative programs from the church orders of the Reformation

Beggary and Theatre in Early Modern England Paola Pugliatti, 2017-11-22 This title was first published in 2003 In this new socio cultural study of the history of the theatre in early modern England author Paola Pugliatti investigates the question of why in the Tudor and early Stuart period unregulated and unlicensed theatrical activities were equated by the English law to unregulated and unlicensed begging Starting with English vagrancy statutes and in particular from the fact that from 1545 on players were listed as vagrants the book discusses from an entirely new perspective the reasons for the equation in the early modern mind of beggary with performing Pugliatti identifies in players aptitude for disguise and in the fear raised by their proteiform skills the issues which encouraged the assimilation of beggars and players she argues that at the core of provisions against vagrancy was an attempt to marginalize people who because of their instability in location and role that is in their theatrical quintessence were seen as embodying potential for subversion Placing the topic in a European context and relying on the reading of primary documents in several languages Pugliatti discusses efforts to control beggary from Justinian's Codex to seventeenth century statutes locates the origin of anti vagrancy and antitheatrical writings in anxieties about idleness and disguise and analyzes the ways in which various kinds of representation demonized both beggars and

players Finally by carefully distinguishing between the traditions of rogue pamphlets conny catching pamphlets and the picaresque she offers fresh readings of a number of texts which appear to have been entirely disregarded by recent scholarship such as pamphlets by Walker Harman Greene and Dekker
