*Poverty and Welfare in Scotland 1890-1948* Ian Levitt, 1988      *Poverty and Welfare in Scotland, 1890-1948* Ian Levitt, 1990-07-01      **The Scottish Economy** Kenneth Gibb, Duncan MacLennan, Des McNulty, Michael Comerford, 2017-07-06

The Scottish economy is at the heart of contemporary constitutional and public policy debates. This substantial new edited collection, the first comprehensive and authoritative analysis for more than 60 years, is a timely update on the classic volume of the same name edited by Sir Alec Cairncross in 1954. It is data rich and offers links to updatable data and leading indicators of the Scottish economy including measures of public finances, distributional evidence and growth. Readers will find a series of easy to follow chapters covering the Scottish economy from every angle: oil and gas, health, education, finance, rural Scotland, inequality, climate change, gender and work, housing, infrastructure and cities. Each sector based chapter explores the main issues, draws out key empirical facts and considers policy challenges that lie ahead. This book includes an historical account of the development of the Scottish economy, the trajectory of economic policy in Scotland, reviews of the current fiscal position and the wider economic landscape, and also an intriguing insight into the emerging distinctive approach to Scottish public policy. This book brings together evidence and high quality research by experts on the Scottish economy in a politically neutral, accessible and non technical way. The volume will assist readers in navigating their way through the many political debates about constitutional and economic futures that are underway in modern Scotland and the UK. A website also exists to accompany *The Scottish Economy* [www.scottisheconomy.scot](http://www.scottisheconomy.scot). In today's interconnected world, it makes sense to have a book on the Scottish economy supplemented by online access to important data, information and evidence as a means of keeping material current.

*Health Care and Poor Relief in 18th and 19th Century Northern Europe* Ole Peter Grell, Andrew Cunningham, 2017-07-05

Throughout history, governments have had to confront the problem of how to deal with the poorer parts of their population. During the medieval and early modern period, this responsibility was largely borne by religious institutions, civic institutions and individual charity. By the eighteenth century, however, the rapid social and economic changes brought about by industrialisation put these systems under intolerable strain, forcing radical new solutions to be sought to address both old and new problems of health care and poor relief. This volume looks at how northern European governments of the eighteenth and nineteenth centuries coped with the needs of the poor whilst balancing any new measures against the perceived negative effects of relief upon the moral wellbeing of the poor and issues of social stability. Taken together, the essays in this volume chart the varying responses of states, social classes and political theorists towards the great social and economic issue of the age: industrialisation. Its demands and effects undermined the capacity of the old poor relief arrangements to look after those people that the fits and starts of the industrialisation cycle itself turned into paupers. The result was a response that replaced the traditional principle of outdoor relief with a generally repressive system of indoor relief that lasted until the rise of organised labour forced a more benign approach to the

problems of poverty Although complete in itself this volume also forms the third of a four volume survey of health care and poor relief provision between 1500 and 1900 edited by Ole Peter Grell and Andrew Cunningham **Public Attitudes to Poverty, Inequality and Welfare in Scotland and Britain** Scotland.
