Poverty Growth And Institutions In Developing Asia:

Poverty, Growth and Institutions in Developing Asia E. Pernia, A. Deolalikar, 2003-10-07 The theme of this book is that economic growth is key but institutions and other national and subnational attributes matter as well. They are critical to explaining differences in social development and poverty reduction across countries and subnational areas that cannot be accounted for by growth alone. The book concludes that a more complete strategy needs to consider various institutional factors at the national and subnational levels to achieve rapid and sustained poverty reduction. Indeed, paying attention to these factors will benefit both growth and poverty reduction.

Poverty Reduction and the Role of Institutions in Developing Asia Anil B. Deolalikar, 2002 Based on research covering eight Asian countries. Explores developments in analytical approaches to poverty reduction and examines the main political, social, and cultural institutions that have an impact on poverty reduction. Explores how institutions may inhibit or promote poverty reduction efforts and discusses the impact of institutional reform on poverty reduction.

Whither the Philippines in the 21st Century? Rodolfo C. Severino, Lorraine Carlos Salazar, 2007 Examines contradictory economic and political trends occurring in the Philippines in order to gain a sense of the country's prospects.

Labor Market Distortions, Rural-Urban Inequality, and the Opening of the People's Republic of China Economy Thomas Hertel, 2008-05 Evaluates the impact of some key factor market reforms on rural-urban inequality, income distribution, using a household disaggregated recursive dynamic computable general equilibrium model of the People's Republic of China. It also explores how these factor market reforms interact with product market reforms currently under way as part of the country's World Trade Organization (WTO) accession process. The simulation results show that reforms in the rural land rental market, hukou system, as well as increasing off-farm labor mobility would reduce the urban-rural income ratio dramatically. Furthermore, the combination of WTO accession, factor market reforms, improves both efficiency and equality significantly. Charts, tables, graphs.

Poverty Reduction for Inclusive Sustainable Growth in Developing Asia Farhad Taghizadeh-Hesary, Nisit Panthamit, Naoyuki Yoshino, 2021-05-15 This book provides practical policy recommendations that are useful for developing Asia and for accelerating poverty reduction plans in the rest of the world. Poverty reduction in all its forms remains one of the greatest challenges facing humanity. In developing Asia, rapid growth in countries and subregions such as China, India, and Southeast Asia has lifted millions out of poverty, but progress has been uneven. On the other hand, the current coronavirus (COVID-19) pandemic and the global economic recession that it has caused are pushing millions of people back into poverty. Poverty reduction, inclusive growth, and sustainable development are inseparable, and poverty reduction is the premise for sustainable development. The Sustainable Development Goals (SDGs) are a bold commitment to finish what we started and end poverty in all forms and dimensions by 2030. However, because of the current global recession, the world is not on track to end poverty by 2030. Given the aforementioned situation, if we plan to achieve the no poverty target in line with the SDGs, governments need to reconsider their policies, and economies need to

allocate their resources for this aim Owing to the importance of the topic this book provides several thematic and empirical studies on the roles of small and medium sized enterprises local businesses and trusts international remittances and microfinance energy security and energy efficiency in poverty reduction and inclusive growth **Roadmap to an ASEAN Economic Community** Denis Hew Wei-Yen,2005 At the Ninth ASEAN Summit in Bali on 7 October 2003 the leaders of the Association of Southeast Asian Nations agreed to establish an ASEAN Economic Community AEC by 2020 It is envisaged that the AEC would be a single market and production base with a free flow of goods and services investments capital and skilled labour An integrated ASEAN with a sizeable market of over 500 million people could become an alternative to China as a regional production base for MNCs Although there are roadmaps for the fast track integration of eleven priority sectors an overall longer term roadmap needs to be formulated to realize the AEC This book addresses the main issues **Measuring Competitiveness in the World's Smallest Economies** Ganeshan Wignaraja,2008-05 Attempts to measure competitiveness CP across countries have typically neglected the world s smallest economies Hence a simple composite index the Small State Manufactured Export CP Index or SSMECI was developed to benchmark industrial CP The SSMECI represents the first attempt to provide a comprehensive picture of the CP performance of small states The performance of small states varies across geographical regions income groups country size classes High performing small states had better macroeconomic conditions higher levels of foreign invest more trade openness better levels of educ modern infrastructure A coherent market oriented CP strategy in small states is vital to success on international markets Tables **Poverty Reduction Policies and Practices in Developing Asia** Almas Heshmati,Esfandiar Maasoumi,Guanghua Wan,2015-03-31 This book looks at the major policy challenges facing developing Asia and how the region sustains rapid economic growth to reduce multidimensional poverty through socially inclusive and environmentally sustainable measures Asia is facing many challenges arising from population growth rapid urbanization provision of services climate change and the need to redress declining growth after the global financial crisis This book examines poverty and related issues and aims to advance the development of new tools and measurement of multidimensional poverty and poverty reduction policy analysis The book covers a wide range of issues including determinants and causes of poverty and its changes consequences and impacts of poverty on human capital formation growth and consumption assessment of poverty strategies and policies the role of government NGOs and other institutions in poverty reduction rural urban migration and poverty vulnerability to poverty breakdown of poverty into chronic and transitory components and a comparative study on poverty issues in Asia and other regions The book will appeal to all those interested in economic development resources policies and economic welfare and growth **Skills Development for Inclusive and Sustainable Growth in Developing Asia-Pacific** Rupert Maclean,Shanti Jagannathan,Jouko Sarvi,2012-12-09 Focusing on the Asia Pacific region which in recent years has been the engine of global economic growth this volume surveys trends and prospects in technical and vocational education and training TVET with

particular reference to achieving inclusive growth and the greening of economies Underlying the increasing pressure for new models of TVET provision is the rapid pace of technological change demand for a work force which is highly responsive to evolving needs and a transforming market place that calls for higher order skills and lifelong learning The book proposes a re engineered modernized TVET system that fosters an innovative approach which enhances the employability of workers as well as the sustainability of their livelihoods The book includes contributions from leading policy makers researchers and practitioners including those in the private sector in analyzing and forecasting the most urgent priorities in skills development The book argues for creative approaches to TVET design and delivery particularly with a view to improve job prospects and meeting the goals of inclusion sustainable development and social cohesion Addressing issues such as the chronic mismatches between skills acquired and actual skills required in the work place the volume proposes diversified approaches towards workforce development and partnerships with the private sector to improve the quality and relevance of skills development The new imperatives created by greening economies and responses required in skills development and training are addressed Developing TVET is a high priority for governments in the Asia Pacific region as they seek to achieve long term sustainable growth since the continued success of their economic destinies depend on it The volume also includes an emerging framework for skills development for inclusive and sustainable growth in the Asia and Pacific region

Narrowing the Development Gap in ASEAN Mark McGillivray, David Carpenter, 2013-04-12 An important part of the vision of the Association of Southeast Asian Nations ASEAN is to ensure that the benefits of development and economic integration are equitably shared by all member states and their citizens ASEAN s work therefore aims to narrow the development gap between ASEAN member states Indonesia Malaysia the Philippines Singapore Thailand Brunei Darussalam Myanmar Cambodia Laos and Vietnam and between sub regions within ASEAN Written by a team of internationally recognised experts in development economics this book communicates the latest findings on narrowing the development gap in a practical policy relevant way in a format that can influence decision makers within ASEAN member states and international donors There have been significant development achievements in many ASEAN countries over the last 20 years but the ASEAN region continues to be characterised by significant development gaps particularly in income Gaps in development achievement are also seen at the regional and sub national levels This book offers a better understanding of development gaps as they exist in 2012 and provides important context that can inform the strategic needs of decision makers in the ASEAN region Due to improvements in conceptualising and measuring well being including through the use of multidimensional indicators this book gives policy makers and scholars in development economics development policy and Asian studies well grounded insights into the nature of the development gaps within and between ASEAN countries as well as high level policy advice on those interventions that can contribute to a narrowing of the development gap *Developing an Interregional Input-output Table for Cross-border Economies* Benson Sim, Francisco Secretario, Eric Suan, 2007 **How Can**

Cambodia, Lao PDR, Myanmar, and Viet Nam Cope with Revenue Lost Due to AFTA Tariff Reductions? Kanokpan Lao-Araya, 2008-12 In joining the Assoc of Southeast Asian Nations ASEAN and ASEAN Free Trade Area Cambodia Lao PDR Myanmar and Viet Nam have agreed to comply with the Common Effective Preferential Tariff CEPT Scheme which reduces intra ASEAN tariff rates on certain imports and may reduce gov t revenue This study proposes tax structure and tax admin reforms and other policies that can be introduced to enhance revenue collection They can Strategically allocate goods among the four CEPT scheme lists Improve their tax systems by replacing traditional general sales taxes with Value Added Tax Reduce inefficiencies that impede tax collection and Discourage tax avoidance and evasion and reduce corruption among tax officials The Economies of Southeast Asia Jose L. Tongzon, 2002-01-01 This updated and revised edition provides an examination of issues of paramount importance for Southeast Asian economies such as the economic implications of the 1997 Asian crisis for both older and newer members of ASEAN Abstracts of Public Administration, Development, and Environment , 2003 **Role of Infrastructure in Land-Use Dynamics and Rice Production in Viet Nam's Mekong River Delta** Christopher Edmonds, 2008-06 Examines the role of infrastructure development and technical change in explaining increases in agricultural production and changes in land use in the Mekong Delta Region of Viet Nam during the mid 1990s The transportation costs involved in moving agricultural input and output between farms and markets significantly effect farm land use and production decisions Greater transport costs reduce the likelihood that farms adopt intensive cropping patterns or cultivate non rice crops Results suggest that the quality of local water management infrastructure is much more important than transport costs in explaining the increased intensity of land use and level of production observed in the Mekong Delta during the 1990s Illustrations *Inequality in Asia and the Pacific* Ravi Kanbur, Changyong Rhee, Juzhong Zhuang, 2014-02-24 Asia s rapid economic growth has led to a significant reduction in extreme poverty but accompanied by rising inequality This book deals with three questions What have been the trends of inequality in Asia and the Pacific What are the key drivers of rising inequality in the region How should Asian countries respond to the rising inequality Technological change globalization and market oriented reform have been the key drivers of Asia s remarkable growth and poverty reduction but they have also had significant distribution consequences These three drivers of growth cannot be hindered because they are the sources of productivity improvement and betterment of quality of life This book will be useful to those interested in policy options that could be deployed by Asian countries in confronting rising inequality Banks and Corporate Debt Market Development Paul M.
