Jeffrey S. Gurock

Power Powerlessness In Jewish History:

Power & Powerlessness in Jewish History David Biale, 1986-11-10 WINNER OF THE 1987 JWB NATIONAL JEWISH BOOK AWARD FOR HISTORY In this radical reinterpretation of Jewish history David Biale tackles the myth of Jewish political passivity between the fall of an independent Jewish Commonwealth in 70 C E and the rebirth of the state of Israel in 1948 He argues that Jews throughout history demonstrated a savvy understanding of political life they were neither as powerless as the memory of the Holocaust years would suggest nor as powerful as the contemporary state of Israel would imply

Power & Powerlessness in Jewish History David Biale, 2010-12-22 To shed light on the tensions he observed between Jewish perceptions of power versus political realities which are often the cause of misguided political decisions like Israel's Lebanese War Biale analyzes Jewish history from the point of view of politics and power The author of *Gershom Scholem Kabbalah and Counter History* here challenges the conventions of what he terms the Jewish mythical past the anachronistic interpretation that the Diaspora which occurred between the fall of an independent Jewish commonwealth in A D 70 and the rebirth of the State of Israel in 1948 was politically impotent and conversely that the First and Second Temple periods were eras of full Jewish national sovereignty

Studies in Contemporary Jewry Jonathan Frankel,1998-02-05 Was the Holocaust a natural product of a long German history of Anti Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed Studies in Contemporary Jewry series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject **Shalom**

Ghazi-Bouillon,2009-01-30 Asima Ghazi Bouillon examines the Middle East peace process since Oslo and how Israel s sense of national identity has changed and been interpreted In particular the book analyzes the highly contentious academic debates between the New Historians post Zionists and neo Zionists *Jewish Culture between Canon and Heresy* David Biale,2023-02-07 This career spanning anthology from prominent Jewish historian David Biale brings over a dozen of his key essays together for the first time These pieces written between 1974 and 2016 are all representative of a method Biale calls

counter history the discovery of vital forces precisely in what others considered marginal disreputable and irrational The themes that have preoccupied Biale throughout the course of his distinguished career in particular power sexuality blood and secular Jewish thought span the periods of the Bible late antiquity and the Middle Ages to the twentieth century Exemplary essays in this volume argue for the dialectical relationship between modernity and its precursors in the older tradition working together to brush history against the grain in order to provide a sweeping look at the history of the Jewish people This volume of work by one of the boldest and most intellectually omnivorous Jewish thinkers of our time will be essential reading for scholars and students of Jewish studies

Jews and the Sporting Life Ezra Mendelsohn, 2009-03-31 Volume XXIII of the distinguished annual *Studies in Contemporary Jewry* explores the role of sports in modern Jewish history The centrality of sports in modern life in popular and even in high culture in economic life in the media in international and national politics and in forging ethnic identities can hardly be exaggerated but in the field of Jewish studies this subject has been somewhat neglected at least until recently Students of American Jewish history for example often emphasize the role of sports in the Americanization of the immigrants while students of Jewish nationalism pay closer attention to its appeal for the regeneration of the Jewish nation as well as the creation of a new healthy Jewish body The essays brought together in *Jews and the Sporting Life* expand the body of knowledge about the place sports occupied and continue to occupy in Jewish life They examine the connection between sports and Jewish nationalism particularly Zionism and how organized Jewish sports have been an agent of nation building They consider the role of Jews as owners of sports teams as amateur and professional athletes and as fans and bettors Other themes include sports and Jewish literature and boxing as a sport that enabled Jewish men to prove their masculinity in a world that often stereotyped them as weak and feminine This volume concentrates on twentieth century developments in Israel Europe and the United States

Religion and the Politics of Peace and Conflict Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The Connections Between Religion And Violence are Complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism

within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition's engagement with the politics of gender The essays in this collection suggest that the tasks of ameliorating irrational fears and encouraging the recognition of irreducible interreligious complementarity are tasks that can and should be shared by Christianity Judaism and Islam Moreover these traditions are replete with exemplars both historical and contemporary who witness to the possibilities for interreligious dialogue and understanding For religious persons undoubtedly these issues are particularly challenging since they require us to confront the complexities and limitations of our own traditions while also responding to their often radical demands Yet in these complexities lie the possibilities for the religions to develop a greater sense of mutual understanding since it is in these complexities that the commonalities between the religions on the matter of political violence are found from the Introduction

The Cambridge History of Judaism: Volume 8, The Modern World, 1815–2000 Mitchell B. Hart, Tony Michels, 2017-09-28 The eighth and final volume of The Cambridge History of Judaism covers the period from roughly 1815–2000 Exploring the breadth and depth of Jewish societies and their manifold engagements with aspects of the modern world it offers overviews of modern Jewish history as well as more focused essays on political social economic intellectual and cultural developments The first part presents a series of interlocking surveys that address the history of diverse areas of Jewish settlement The second part is organized around the emancipation Here chapter themes are grouped around the challenges posed by and to this elemental feature of Jewish life in the modern period The third part adopts a thematic approach organized around the category culture with the goal of casting a wide net in terms of perspectives concepts and topics The final part then focuses on the twentieth century offering readers a sense of the dynamic nature of Judaism and Jewish identities and affiliations

History, Metahistory, and Evil Barbara Krawcowicz, 2021-01-26 Much post Holocaust Jewish thought published in North America has assumed that the Holocaust shattered traditional religious categories that had been used by Jews to account for historical catastrophes But most traditional Jewish thinkers during the war saw no such overwhelming of tradition in the death and suffering delivered to Jews by Nazis Through a comparative reading of postwar North American and wartime Orthodox Jewish texts about the Holocaust Barbara Krawcowicz shows that these sources differ in the paradigms modern and historicist for North American thinkers traditional and covenantal for Orthodox thinkers in which they emplot historical events
