Giraffe Edgar Williams, 2011-01-15 Their extraordinary long necks distinctive camouflage graceful movements and friendly nature have made giraffes one of the most fascinating and beloved animals on the planet But while giraffes once roamed the Great Plains of Africa in huge herds their numbers have greatly diminished and they are now entirely dependent on humanity for their survival In *Giraffe* Edgar Williams explores not only the biology of the tallest animals on earth but also their impact on human history including in ancient Egypt where giraffes were kept as exotic pets the Middle Ages when giraffes were considered mythical beasts as improbable and mysterious as the dragon and the Victorian era in which giraffe hunting was considered an exhilarating sport *Giraffe* is the first book to provide a comprehensive twenty first century view of the giraffe in art literature film and popular culture as well as its natural history from prehistory to modern times With new insights into the giraffe s genetics and evolution this book will appeal to those interested in the giraffe s unique biology and to anyone who admires the majestic giraffe **Africana** , 1981 **Cross the Waves and Climb the Steeps** Nancy Meyer Schafner, 2021-05-23 Join the Meyer family as they uproot their lives and heed God s call to serve in a variety of stimulating overseas mission fields Your heart will be warmed by the powerful challenges they encounter Get to know each family member as they experience exciting adventures in both difficult and delightful circumstances while learning to place steadfast trust in God s providence The story begins in Africa transitions to Lebanon and back to Africa with other countries in between Encounter the desolation of war but enjoy the natural beauty beyond Soar with the summiting of two of Africa s highest peaks and sigh with the tragedies Savor the safaris Cry with the heartbreaks Each character travels undulating paths packed with trials but filled with surprises Learn of intriguing cultures customs and cuisines interwoven with history geography ornithology and zoology Numerous Biblical passages lace this book and are set to practical heart felt applications
