Raising Lifelong Learners Lucy Calkins, 1998-08-21 Here the nationally acclaimed educator who transformed the way our children learn to read and write in school shows us how to nurture our children's imagination at home from the earliest days of babytalk to the time when we see them off to school Drawing upon her influential philosophy of active learning as well as her personal experience as a parent Calkins shows parents how to stimulate curiosity and spark creative thinking in children Having an open and creative approach to conversations chores and games can matter just as much as reading writing and math And even in traditional skills like reading and writing we need to encourage our children to read for meaning and write for expression rather than focus only on mechanics like phonics and spelling By giving parents new and imaginative techniques for educating children and by providing them with an insider's view of what goes on in the early grades Raising Lifelong Learners creates the ultimate partnership in learning between home and school parents and teachers **The**

The Literacy Principal, 2nd Edition David Booth, Jennifer Rowsell, 2007. As the education community struggles with literacy achievement, skillful leadership has emerged as a distinguishing feature of successful schools. Since *The Literacy Principal* was first published, it has helped shape the discussion around accountability and successful practices that support both teachers and students. This revised and expanded second edition challenges principals to become even more involved in championing literacy in their schools. It examines the role of school leaders at both the elementary and secondary levels. Commentaries from teachers, principals, and consultants who have been involved in developing strong school-wide and district-wide literacy programs are included to demonstrate the strides that many schools have made in the last few years. The increasingly important role of school literacy coaches and mentoring teams are presented as models of the power of cooperative approaches to successful literacy programs. David Booth and Jennifer Rowsell offer an overview of the most successful strategies for creating a support network that will nurture and build a powerful reading environment. They help administrators introduce and support cooperative approaches to literacy that involve coaches and mentoring teams, understand exemplary reading and writing programs, and school-wide strategies for promoting literacy growth among students. Demonstrating a commitment to literacy among teachers, parents, students, and the community, appreciate the many forms of assessment and evaluation, including intervention programs for improving student performance. Rooted in the latest research and real-world experience, this new edition provides tried and true frameworks that principals can use in their quest to create schools where literacy thrives.
