Raising Spiritual Children In A Material:

The Soul of the Child Michael Gurian, 2002-11-01 With *The Wonder of Girls* and *The Wonder of Boys* bestselling author Michael Gurian presented his groundbreaking views of parenting. Now with the same breadth of vision and depth of commitment he combines accessible analysis of cutting edge science with the study of spiritual texts to explore the divine side of childhood and to put forth a practical design for the care of our children's souls. A revolutionary vision for parents and educators alike indeed for all who love children. *The Soul of the Child* is a deft blend of inspiring stories, common sense and scientific observations that demonstrates what the soul is and how it works. This insightful and groundbreaking book urges its readers to become aware of our children's divine inheritance and learn how to nurture that divinity. Sensible and informed it shows how to protect childhood from the complexities of our age and provides as no book ever has the means for bestowing upon our children the gifts of compassion, security, discipline, humility and enlightenment. *The Soul of the Child* is a passionate and practical book that puts forth a finely wrought argument for greater attention to the spiritual side of childhood to the very life of the human soul. And it couldn't have come at a better time.

Raising Spiritual Children in a Material World Phil Catalfo, 1997 A help for parents in providing spiritual guidance to their children drawn on but not limited to their own religious heritage.

The Secret Life of Kids James W. Peterson, 2000-10-29 It all began when James Peterson was a camp counselor and two children watching him meditate described the colors they saw around his form: we saw colors coming out of his stomach. And the outside was purple then it was blue then it was yellow then reddish and light yellow in the middle. Studies indicate that almost seven percent of young children have such psychic experiences. For the most part they don't tell anybody about them for fear of being ridiculed. But the author believes it would be psychologically healthy for them to relate such occurrences to adults if they feel the need. In this book Peterson has put together a charming collection of case histories about such psychic episodes. He believes they should be accepted as factual that frequently they emanate from the wisdom of innocence present in youngsters. The question of the secret life of kids is examined by Peterson from the point of view of philosophy, occultism and child psychology. He suggests why and how such experiences manifest and their potential value to the child's growth pattern.

Beginnings & Beyond Ann Miles Gordon, Kathryn Williams Browne, 2004 *Beginnings Beyond* is the tool students need to develop vital skills necessary to become successful teachers and caregivers. They will come to thoroughly understand the fundamentals of early childhood education through a discussion of the topic from an historical perspective, present day issues and future trends. In this sixth edition the authors have emphasized multiculturalism and NAEYC's developmentally appropriate practice to support the viewpoint that there is more than one correct way to care for and educate young children.

In the Midst of Chaos Bonnie J. Miller-McLemore,2019-03-01 How the daily practices of life with children can shape our faith In the Midst of Chaos explores parenting as spiritual practice building on Bonnie J Miller McLemore's fresh conceptions of children from her book Let the Children Come She questions conventional perceptions that spiritual practices require silence solitude and uninterrupted prayer and that assume a life unburdened by care of others She is both honest about the difficulties and attentive to the blessings present in everyday life and demonstrates that the life of faith encompasses children and the adults who care for them Miller McLemore explores how parents might use seven daily practices such as play reading chores and saying goodbye or goodnight as rich opportunities to shape both parent and child morally and spiritually Through these experiences she shows how the very care of children forms and reforms the faith of adults themselves contrary to the belief that adults must form children In the Midst of Chaos also goes beyond the typical focus on individual self fulfillment by tackling difficult questions of social justice and mutuality in the ways families live together Readers will find in this book an invitation to love those around them in the midst of life's craziness and to live more deeply in grace
