Raising The Devil Satanism New Religions And The Media:

Raising the Devil Bill Ellis, Animating Space explores how animation has evolved in line with changing cultural attitudes as well as examining the innovations that have helped raise the medium from a novelty to a fully fledged art form

Controversial New Religions James R. Lewis, Jesper Aa. Petersen, 2014-07-16 In terms of public opinion new religious movements are considered controversial for a variety of reasons Their social organization often runs counter to popular expectations by experimenting with communal living alternative leadership roles unusual economic dispositions and new political and ethical values As a result the general public views new religions with a mixture of curiosity amusement and anxiety sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience This updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at those groups that have generated the most attention including some very well known classical groups like The Family Unification Church Scientology and Jim Jones s People s Temple some relative newcomers such as the Kabbalah Centre the Order of the Solar Temple Branch Davidians Heaven s Gate and the Falun Gong and some interesting cases like contemporary Satanism the Raelians Black nationalism and various Pagan groups Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories

Abusive Policies Mical Raz, 2020-10-12 In the early 1970s a new wave of public service announcements urged parents to help end an American tradition of child abuse The message relayed repeatedly over television and radio urged abusive parents to seek help Support groups for parents including Parents Anonymous proliferated across the country to deal with the seemingly burgeoning crisis At the same time an ever increasing number of abused children were reported to child welfare agencies due in part to an expansion of mandatory reporting laws and the creation of reporting hotlines across the nation Here Mical Raz examines this history of child abuse policy and charts how it changed since the late 1960s specifically taking into account the frequency with which agencies removed African American children from their homes and placed them in foster care Highlighting the rise of Parents Anonymous and connecting their activism to the sexual abuse moral panic that swept the country in the 1980s Raz argues that these panics and policies as well as biased viewpoints regarding race class and gender played a powerful role shaping perceptions of child abuse These perceptions were often directly at odds with the available data and disproportionately targeted poor African American families above others

The Routledge History of the Devil in the Western Tradition Richard Raiswell, Michelle D. Brock, David R. Winter, 2025-05-29 Covering a period of 2000 years this book offers an interdisciplinary exploration of the devil s role in the Western tradition and draws from history religion art literature media studies and anthropology to provide a multifaceted view of the devil over

time The Routledge History of the Devil in the Western Tradition examines topics such as the devil's scriptural origins medieval development and role in witch hunting and possession cases as well as the influence of the demonic on contemporary issues like terrorism political polarisation and digital culture Collectively this volume demonstrates that the demonological imagination has served as part of the glue holding Western societies together While contexts misfortunes and anxieties have shifted according to time and place many of the dynamics that underlie the devil's construction and detection have important continuities This book then provides an innovative history of the anti West the West as seen through its anxieties fears and attempts to define and police itself and its boundaries With contributions from 28 leading scholars in the field this volume is of interest to all students and scholars of the devil in the Western world *Contemporary Religious Satanism* Jesper Aagaard Petersen, 2016-12-05 The Church of Satan was founded by Anton LaVey on April 30 1966 In his hands Satan became a provocative symbol for indulgence vital existence natural wisdom and the human being's true animal nature At present religious Satanism exists primarily as a decentralized subculture with a strong internet presence within a larger Satanic milieu in Western culture Though most are inspired by LaVey the majority of contemporary Satanists are not members of the Church of Satan The various expressions of modern Satanism all navigate in today's detraditionalized religious market through the creative appropriation of popular culture philosophy literature and religion The concrete solutions are varied but they all understand the power of transgression allying oneself with a most powerful symbol of resistance namely Satan Thus contemporary religious Satanism could be understood as a complex negotiation of atheism secularism esotericism and self A self religion in the modern age Despite the fascinating nature of religious Satanism it has attracted little scholarship until relatively recently This book brings together a group of international scholars to produce the first serious book length study of religious Satanism presenting a collection that will have wide appeal to specialists and non specialists alike The first part contains broader studies of influential groups and important aspects of the Satanic milieu especially regarding historical developments the construction of tradition and issues of legitimacy The second part narrows the view to regional variations especially with studies on Northern and Eastern Europe The third part consists of primary documents selected for their representational and informational value **Children of Lucifer** Ruben van Luijk, 2016 Satanism adopts Satan the Judeo Christian representative of evil as an object of veneration This work explores the historical origins of this extraordinary antireligion **Vampires Today** Joseph P. Laycock, 2009-05-14 This book about real vampires and the communities they have formed explores the modern world of vampirism in all its amazing variety Long before Dracula people were fascinated by vampires The interest has continued in more recent times with Anne Rice's Lestat novels Buffy the Vampire Slayer the HBO series True Blood and the immensely popular Twilight But vampires are not just the stuff of folklore and fiction Based upon extensive interviews with members of the Atlanta Vampire Alliance and others within vampire communities throughout the United States this fascinating book looks at the details of real vampire life and the

many expressions of vampirism as it now exists In Vampires Today The Truth about Modern Vampirism Joseph Laycock argues that today s vampires are best understood as an identity group and that vampirism has caused a profound change in how individuals choose to define themselves As vampires come out of the coffin as followers of a religion or lifestyle or as people biologically distinct from other humans their confrontation with mainstream society will raise questions as it does here about how we define normal and what it means to be human Sociology of Religion Kevin J. Christiano, William H. Swatos, Jr., Peter Kivisto, 2008-05-29 By way of introduction Studying religion The religion of secularization and the history of religions Religion in the United States denominationalism and beyond Social class religion and power a classic field of inquiry Religion and ethnicity a complex relationship Gender sexuality and religion spirituality in different voices Religious change the case of Catholicism in the United States The globalization dynamic historic animosities or postmodern politics Mediating meaning religion in and as contemporary culture Boundary issues church state and new religions **Encyclopedia of Death and the Human Experience** Clifton D. Bryant, Dennis L. Peck, 2009-07-15 Death and dying and death related behavior involve the causes of death and the nature of the actions and emotions surrounding death among the living Interest in the varied dimensions of death and dying has led to the development of death studies that move beyond medical research to include behavioral science disciplines and practitioner oriented fields As a result of this interdisciplinary interest the literature in the field has proliferated This two volume resource addresses the traditional death and dying related topics but also presents a unique focus on the human experience to create a new dimension to the study of death and dying With more than 300 entries the Encyclopedia of Death and the Human Experience includes the complex cultural beliefs and traditions and the institutionalized social rituals that surround dying and death as well as the array of emotional responses relating to bereavement grieving and mourning The Encyclopedia is enriched through important multidisciplinary contributions and perspectives as it arranges organizes defines and clarifies a comprehensive list of death related perspectives concepts and theories Key Features Imparts significant insight into the process of dying and the phenomenon of death Includes contributors from Asia Africa Australia Canada China eastern southern and western Europe Iceland Scandinavia South America and the United States who offer important interdisciplinary and cross cultural perspectives Provides a special focus on the cultural artifacts and social institutions and practices that constitute the human experience Addresses death related terms and concepts such as angel makers equivocal death end of life decision making near death experiences cemeteries ghost photography halo nurses caregiver stress cyberfunerals global religious beliefs and traditions and death denial Presents a selective use of figures tables and images Key Themes Arts Media and Popular Culture Perspectives Causes of Death Conceptualization of Death Dying and the Human Experience Coping With Loss and Grief The Human Experience Cross Cultural Perspectives Cultural Determined Social Oriented and Violent Forms of Death Developmental and Demographic Perspectives Funerals and Death Related Activities Legal Matters Process of Dying Symbolic Rituals

Ceremonies and Celebrations of Life Theories and Concepts Unworldly Entities and Events With an array of topics that include traditional subjects and important emerging ideas the Encyclopedia of Death and the Human Experience is the ultimate resource for students researchers academics and others interested in this intriguing area of study *The Oxford Handbook of Music and Medievalism* Stephen C. Meyer, Kirsten Yri, 2020-03-02 The Oxford Handbook of Music and Medievalism provides a snapshot of the diverse ways in which medievalism the retrospective immersion in the images sounds narratives and ideologies of the European Middle Ages powerfully transforms many of the varied musical traditions of the last two centuries Thirty three chapters from an international group of scholars explore topics ranging from the representation of the Middle Ages in nineteenth century opera to medievalism in contemporary video game music thereby connecting disparate musical forms across typical musicological boundaries of chronology and geography While some chapters focus on key medievalist works such as Orff's Carmina Burana or Peter Jackson's Lord of the Rings films others explore medievalism in the oeuvre of a single composer e.g. Richard Wagner or Arvo Pärt or musical group e.g. Led Zeppelin The topics of the individual chapters include both well known works such as John Boorman's film Excalibur and also less familiar examples such as Eduard Lalo's Le Roi d'Ys The authors of the chapters approach their material from a wide array of disciplinary perspectives including historical musicology popular music studies music theory and film studies examining the intersections of medievalism with nationalism romanticism ideology nature feminism or spiritualism Taken together the contents of the Handbook develop new critical insights that venture outside traditional methodological constraints and provide a capstone and point of departure for future scholarship on music and medievalism *Religion, Culture, and the Monstrous* Joseph P. Laycock, Natasha L. Mikles, 2021-02-15 Religion Culture and the Monstrous Of Gods and Monsters explores the intersection of the emerging field of monster theory within religious studies With case studies from ancient Mesopotamia to contemporary valleys of the Himalayas to ghost tours in Savannah Georgia the volume examines the variegated nature of the monstrous as well as the cultural functions of monsters in shaping how we see the world and ourselves In this the authors constructively assess the state of the two fields of monster theory and religious studies and propose new directions in how these fields can inform each other The case studies included illuminate the ways in which monsters reinforce the categories through which a given culture sees the world At the same time the volume points to how monsters appear to question disrupt or challenge those categories creating an unsettling or surplus of meaning *Religion in Today's World* Melissa M. Wilcox, 2013-12-19 Religion is a major force in contemporary society It is also one of the least understood social and political influences on individuals and communities In this innovative collection of original essays and classic readings experts explore the significance of contemporary religiosity as a source of meaning and motivation how it unites and divides us and how it is used politically and culturally Readers will be introduced to the broad debates in ways that will equip them to analyze discuss and make their own judgments about religion and society This book should be read by

anyone interested in understanding religion as a central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective *The Sociology of Religion* George Lundskow, 2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow's approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today Satanism: A Social History Massimo Introvigne, 2016-08-29 A 17th century French haberdasher invented the Black Mass An 18th century English Cabinet Minister administered the Eucharist to a baboon High ranking Catholic authorities in the 19th century believed that Satan appeared in Masonic lodges in the shape of a crocodile and played the piano there A well known scientist from the 20th century established a cult of the Antichrist and exploded in a laboratory experiment Three Italian girls in 2000 sacrificed a nun to the Devil A Black Metal band honored Satan in Krakow Poland in 2004 by exhibiting on stage 120 decapitated sheep heads Some of these stories as absurd as they might sound were real Others which might appear to be equally well reported are false But even false stories have generated real societal reactions For the first time Massimo Introvigne proposes a general social history of Satanism and anti Satanism from the French Court of Louis XIV to the Satanic scares of the late 20th century satanic themes in Black Metal music the Church of Satan and beyond **Encyclopedia of Satanism** James Lewis,

A Concise Companion to American Studies John Carlos Rowe, 2010-02-12 A Companion to American Studies is an essential volume that brings together voices and scholarship from across the spectrum of American experience A collection of 22 original essays which provides an unprecedented introduction to the new American Studies a comparative transnational postcolonial and polylingual discipline Addresses a variety of subjects from foundations and backgrounds to the field to different theories of the new American Studies and issues from globalization and technology to transnationalism and post

colonialism Explores the relationship between American Studies and allied fields such as Ethnic Studies Feminist Queer and Latin American Studies Designed to provoke discussion and help students and scholars at all levels develop their own approaches to contemporary American Studies

Religion of Fear Jason C Bivins, 2008-08-29 Conservative evangelicalism has transformed American politics disseminating a sometimes fearful message not just through conventional channels but through subcultures and alternate modes of communication Within this world is a Religion of Fear a critical impulse that dramatizes cultural and political conflicts and issues in frightening ways that serve to contrast orthodox behaviors and beliefs with those linked to darkness fear and demonology Jason Bivins offers close examinations of several popular evangelical cultural creations including the Left Behind novels church sponsored Halloween Hell Houses sensational comic books especially those disseminated by Jack Chick and anti rock and rap rhetoric and censorship Bivins depicts these fascinating and often troubling phenomena in vivid sometimes lurid detail and shows how they seek to shape evangelical cultural identity As the Religion of Fear has developed since the 1960s Bivins sees its message moving from a place of relative marginality to one of prominence What does it say about American public life that such ideas of fearful religion and violent politics have become normalized Addressing this question Bivins establishes links and resonances between the cultural politics of evangelical pop the activism of the New Christian Right and the political exhaustion facing American democracy Religion of Fear is a significant contribution to our understanding of the new shapes of political religion in the United States of American evangelicalism of the relation of religion and the media and the link between religious pop culture and politics

They Say in Harlan County Alessandro Portelli, 2010-11-04 Made famous in the 1976 documentary Harlan County USA this pocket of Appalachian coal country has been home to generations of miners and to some of the most bitter labor battles of the 20th century It has also produced a rich tradition of protest songs and a wealth of fascinating culture and custom that has remained largely undiscovered by outsiders until now They Say in Harlan County is not a book about coal miners so much as a dialogue in which more than 150 Harlan County women and men tell the story of their region from pioneer times through the dramatic strikes of the 1930s and 70s up to the present Alessandro Portelli draws on 25 years of original interviews to take readers into the mines and inside the lives of those who work suffer and often die in them from black lung falling rock suffocation or simply from work that can be literally backbreaking The book is structured as a vivid montage of all these voices stoic outraged grief stricken defiant skillfully interwoven with documents from archives newspapers literary works and the author's own participating and critical voice Portelli uncovers the whole history and memory of the United States in this one symbolic place through settlement civil war slavery industrialization immigration labor conflict technological change migration strip mining environmental and social crises and resistance And as hot button issues like mountain top removal and the use of clean coal continue to hit the news the history of Harlan County especially as seen through the eyes of those who lived it is becoming increasingly important With rare emotional immediacy gripping narratives and unforgettable

characters They Say in Harlan County tells the real story of a culture the resilience of its people and the human costs of coal mining

Seeing the Supernatural Lee Strobel, 2015-03-18 Now a New York Times bestseller discover solid answers to the provocative questions you've been asking about the supernatural world through the investigative work of a former spiritual skeptic We hear stories all the time about the supernatural miraculous healings unexplained sightings near death experiences but how do we know what is real Are rumors of spiritual beings healings and prophetic dreams dangerous deceptions or is there something important for us to explore Join investigative journalist and former atheist Lee Strobel as he examines the evidence and considers how we should think about the unseen world and the God who made and rules over it As the bestselling author of the popular Case For series which has sold millions of copies Lee Strobel has interviewed some of the most brilliant scientists and philosophical thinkers in the world on topics of apologetics and faith In *Seeing the Supernatural* Lee weaves together his best material from several previous books with dynamic new and never published interviews to investigate what the Bible really teaches about the unseen world As he asks scholars the very questions you have about otherworldly experiences Lee will help you Better understand how God chooses to work in the fascinating supernatural realm and why it is important Avoid common mistakes people make including both ignoring the supernatural and becoming obsessed with it Have answers ready for when you face objections or deceptions that are common in a world of supernatural counterfeits Draw closer to God as you catch glimpses of his power and glory in ways you don't typically experience Written for skeptics and believers alike *Seeing the Supernatural* is a transformative exploration of how the supernatural can shape our understanding of God's character and our own faith

Folklore and the Internet Trevor J. Blank, 2009-09-07 A pioneering examination of the folkloric qualities of the World Wide Web e mail and related digital media These studies show that folk culture sustained by a new and evolving vernacular has been a key since the Internet's beginnings to language practice and interaction online Users of many sorts continue to develop the Internet as a significant medium for generating transmitting documenting and preserving folklore In a set of new insightful essays contributors Trevor J Blank Simon J Bronner Robert Dobler Russell Frank Gregory Hansen Robert Glenn Howard Lynne S McNeill Elizabeth Tucker and William Westerman showcase ways the Internet both shapes and is shaped by folklore
