Rambutan Cultivation H. D. Tindall, Food and Agriculture Organization of the United Nations, 1994-01-01 **FAO Plant Production and Protection Papers** Food and Agriculture Organization of the United Nations, 1976 **The pollination of cultivated plants: A compendium for practitioners** Food and Agriculture Organization of the United Nations, 2018-10-15 More than twenty years ago the Food and Agriculture Organization of the United Nations contributed to the growing recognition of the role of pollination in agricultural production with the publication of The Pollination of Cultivated Plants in the Tropics Since that time the appreciation of pollinators has grown alongside the realization that we stand to lose them But our knowledge and understanding of crop pollination pollinator biology and best management practices has also expanded over this time This volume is the first of two compendiums for practitioners sharing expert knowledge on all dimensions of crop pollination in both temperate and tropical zones The focus in this first volume is on applied crop and system specific pollination

Sustainable Utilization and Conservation of Plant Genetic Diversity Jameel M Al-Khayri, Shri Mohan Jain, Suprasanna Penna, 2024-03-28 This book collates a wide spectrum of topics relevant to contemporary research achievement in sustainable utilization of plant genetic resources and conservation of plant genetic diversity within the framework of different crop systems It introduces the status of crop genetic diversity and provides prospects for conservation of crop genetic diversity for sustainable agriculture Plant genetic diversity is crucial for food security and agro ecosystem maintenance paving ways to achieve sustainable agriculture development This necessitates consciously and judiciously the conservation of all existing plant genetic resources for sustainable use in a variety of applications for human welfare The wild and traditional landraces have generated an increased interest as a repertoire of valuable traits for breeding and improvement of cultivated germplasm Internationally concerted actions and policies toward for the conservation and management of plant genetic diversity are mounting from the organization levels to national policies as deemed appropriate for the sustainable development goals This needs an understanding of genetic diversity of different crops ecological drivers and the structural changes within genetic diversity due to climate change It is also equally important to evolve knowledge on what how and where to conserve the existing plant genetic resources for present and future use Assessment of the genetic diversity presents in a wild and traditional agro ecosystem is another step towards effective utilization In the past few years advanced breeding tools have been developed which have offered great promise for efficient modification of targeted traits This book consolidates current knowledge in the above core areas of plant genetic diversity and conservation It is an essential reference for professionals researchers policy makers and commercial entrepreneurs concerned with plant genetic diversity and breeding to achieve enhanced agricultural productivity and sustainability of food resources to ensure food security The book is also invaluable for graduate students involved in agriculture research

Tropical Fruits, Volume 1, 3rd Edition Robert E. Paull, Odilo Duarte, 2025-05-28 Over the past few years there has

been an increase in the variety of tropical fruits available for consumption due to improved breeding postharvest management and distribution systems The production and world trade of fresh tropical fruits is expected to expand further aided by consumer demand for healthy diets and for trying new foods The third edition of this book covers major tropical fruits such as avocado banana litchi mango papaya and pineapple The first five chapters describe general aspects of the tropical climate and its soils fruit production techniques tree management and postharvest handling Following these are self contained chapters on single fruits that provide in depth studies of botany taxonomy varieties propagation orchard management biotic and abiotic problems and utilization The ancient and modern propagation and cultural practices are described to show the regional differences that environmental and biological pressures exert on fruit production and fruit quality Tropical Fruits 3rd edition is essential reading for students and teachers of horticulture and tropical agriculture as well as for horticultural industry personnel

The Encyclopedia of Fruit and Nuts Jules Janick, Robert E. Paull, 2008 Ever wanted to know the genus name for a coconut Intended for all your research needs this encyclopedia is a comprehensive collection of information on temperate and tropical fruit and nut crops Entries are grouped alphabetically by family and then by species making it easy to find the information you need Coverage includes palms and cacti as well as vegetable fruits of Solanaceae and Curcubitaceae This book not only deals with the horticulture of the fruit and nut crops but also discusses the botany making it a useful tool for anyone from scientists to gardeners and fruit hobbyists

Exotic Fruits Reference Guide Sueli Rodrigues, Ebenezer de Oliveira Silva, Edy Sousa de Brito, 2018-01-05 Exotic Fruits Reference Guide is the ultimate most complete reference work on exotic fruits from around the world The book focuses on exotic fruit origin botanical aspects cultivation and harvest physiology and biochemistry chemical composition and nutritional value including phenolics and antioxidant compounds This guide is in four color and contains images of the fruits in addition to their regional names and geographical locations Harvest and post harvest conservation as well as the potential for industrialization are also presented as a way of stimulating interest in consumption and large scale production Covers exotic fruits found all over the world described by a team of global contributors Provides quick and easy access to botanical information biochemistry fruit processing and nutritional value Features four color images throughout for each fruit along with its regional name and geographical location Serves as a useful reference for researchers industrial practitioners and students

Tropical Fruits Robert E. Paull, Odilio Duarte, 2012 Volume 2 of this revised edition of Tropical Fruits examines the more specialist tropical fruits such as guava durian mangosteen passion fruits and palm fruits With growing interest in the cultivation production study sales and marketability of these specialist fruits this is a timely and informative book Topics like botany soil and climate requirements cultivar development world production and harvesting and postharvest handling are covered in depth for each crop This practical and accessible book is an ideal text for horticulture academics researchers extension workers st

Tropical Fruits Henry Y. Nakasone, Robert E. Paull, 1998 A wide variety of fruits is grown in the tropics under a range of climatic conditions and soil types Some have been widely used both within the tropics and also exported to temperate countries for many years whereas others are currently grown almost exclusively for local or regional use However consumer demands and improvements in postharvest treatment have meant that the number of species available in temperate markets is increasing This book provides a broad survey of all aspects of tropical fruit production and usage It begins by defining the climate and soils of the tropics and outlining the general principles of cultivation and postharvest handling Each type of fruit is then examined in terms of botany origin and distribution ecology genetics and cultivar development culturing practices pests and diseases harvest and postharvest handling and utilization Finally fruits which have potential for future development are considered The book is essential reading for students and professionals in horticulture agronomy and food science

Rambutan Cultivation Fao Plant Production Protection Papers: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have captivated audiences this year. Rambutan Cultivation Fao Plant Production Protection Papers : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Rambutan Cultivation Fao Plant Production Protection Papers : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
