## **Randolph Bourne Legend And Reality:**

*Randolph Bourne* John Moreau, 1943      **Randolph Bourne** John Adam Moreau, 1966      Beloved Community Casey Nelson Blake, 2000-11-09

The Young American critics Randolph Bourne, Van Wyck Brooks, Waldo Frank, and Lewis Mumford are well known as central figures in the Greenwich Village Little Renaissance of the 1910s and in the postwar debates about American culture and politics. In *Beloved Community*, Casey Blake considers these intellectuals as a coherent group and assesses the connection between their cultural criticisms and their attempts to forge a communitarian alternative to liberal and socialist politics. Blake draws on biography to emphasize the intersection of questions of self, culture, and society in their calls for a culture of personality and self fulfillment. In contrast to the tendency of previous analyses to separate these critics' cultural and autobiographical writings from their politics, Blake argues that their cultural criticism grew out of a radical vision of self realization through participation in a democratic culture and polity. He also examines the Young American writers' interpretations of such turn of the century radicals as William Morris, Henry George, John Dewey, and Patrick Geddes, and shows that this adversary tradition still offers important insights into contemporary issues in American politics and culture. *Beloved Community* reestablishes the democratic content of the Young Americans' ideal of personality and argues against viewing a monolithic therapeutic culture as the sole successor to a Victorian culture of character. The politics of selfhood that was so critical to the Young Americans' project has remained a contested terrain throughout the twentieth century.

Randolph Bourne and the Politics of Cultural Radicalism Leslie J. Vaughan, 2021-10-08

In the little rebellion that swept New York's Greenwich Village before World War I, few figures stood out more than Randolph Bourne. Hunchbacked and caped, the little sparrowlike man of Dos Passos' *U.S.A.* Bourne was an essayist and critic most remembered today for his opposition to U.S. military involvement in Europe and his assertion that war is the health of the state. A frequent contributor to *The New Republic*, he died in 1918 at the age of 32, arguing that a military industrial complex would continue to shape the policies of the modern liberal state. Bourne is also recognized as one of the founders of American cultural radicalism, revered in turn by Marxists, anti-fascists, and the New Left. Through his writings, he debated issues that were cultural as well as political from a position he described as below the battle, rejecting the either/or political options of his day in favor of a viewpoint that argued outside the terms set by the establishment. In her new study of Bourne's political thought, Leslie Vaughan maintains that this position was not, as others have contended, a retreat from politics, but rather a different form of political engagement freed from the suppositions that impede genuine debate and democratic change. Her analysis challenges previous readings of Bourne's politics, showing that he offered non-statist, neighborhood-based politics in America's modern cities as a practical alternative to involvement in the national state and its militarism. By demonstrating Bourne's emphasis on politics as local, multi-ethnic, and intergenerational, Vaughan shows that his thought offered a new political discourse and set of cultural possibilities for American society in an era he was the first to label as post-modern. Returning to

the influence of Nietzsche on his thought she also explores the role Bourne played in the creation of his own myth Eighty years later Bourne can be seen to stand at the cusp of the modern and the post modern worlds as he speaks to today's multiculturalist movement In reexamining Bourne's writings Vaughan has located the roots of twentieth century radical thought while repositioning Bourne at the center of debates about the nature and limits of American liberalism *The Challenge of Our Time* Iris Dorreboom,1991 Randolph Bourne James R. Vitelli,1981 **Why I Burned My Book** Paul Longmore,2003-04 Personal inclination made me a historian Personal encounter with public policy made me an activist

**Forgotten Prophet** Bruce Clayton,1998 Rarely has an individual's life been so inseparable from his writing as was Randolph Bourne's His work reveals not only his political viewpoints but also his humanistic personality and the tumultuous era during which he lived *Forgotten Prophet* carefully examines the intellect and personality of the born essayist who saw clearly both his century's potential for harmony and the danger that it faced from the lingering tides of nineteenth century European nationalism Disfigured and hunchbacked Bourne reacted to his disability not with bitterness or self pity but rather with an exuberant love for beauty and a compassion for humanity that created in him a longing for a truly cosmopolitan society a trans national America that would draw its strength from ethnic diversity and political pluralism Nearly alone among American intellectuals Bourne actively denounced involvement in World War I He foresaw that beyond the horrible cost in young lives the war would bring in its wake the spiritual impoverishment of the nation and the disillusionment of its youth it would strangle reform and social tolerance exacerbate racism and nativism and plant the seeds for further international instability Although derided and largely ignored at the time they were written Bourne's fearful predictions would all too quickly be confirmed in the dissolute frenzy of the jazz age the turmoil of the 1930s and the social chaos that brought about the rise of fascism in Europe and soon an even more destructive war Bourne did not live to witness this terrifying unfolding of events His career as a social critic was brief but prolific When he died in 1918 at the age of thirty two a victim of the flu epidemic he had completed three books and more than a hundred essays His first book *Youth and Life* is considered by some to be the original manifesto of the counterculture From his earliest years as a writer Bourne was identified as a voice for youth idealism and progress in human relations *Forgotten Prophet* characterizes Bourne not just as a foreseer of this century's bloodshed but equally important as an apostle of hope a champion of what was best most truthful in the arts in politics and in the conduct of our daily lives *Promise and Peril* Christopher McKnight Nichols,2011-08-11 Spreading democracy abroad or taking care of business at home is a tension as current as the war in Afghanistan and as old as America itself Tracing the history of isolationist and internationalist ideas from the 1890s through the 1930s Nichols reveals unexpected connections among individuals and groups from across the political spectrum who developed new visions for America's place in the world From Henry Cabot Lodge and William James to W E B Du Bois and Jane Addams to Randolph Bourne William Borah and Emily Balch Nichols shows how reformers thinkers and politicians confronted the challenges of

modern society and then grappled with urgent pressures to balance domestic priorities and foreign commitments Each articulated a distinct strain of thought and each was part of a sprawling national debate over America's global role Through these individuals Nichols conducts us into the larger community as it strove to reconcile America's founding ideals and ideas about isolation with the realities of the nation's burgeoning affluence rising global commerce and new opportunities for worldwide cultural exchange The resulting interrelated set of isolationist and internationalist principles provided the basis not just for many foreign policy arguments of the era but also for the vibrant as well as negative connotations that isolationism still possesses Nichols offers a bold way of understanding the isolationist and internationalist impulses that shaped the heated debates of the early twentieth century and that continue to influence thinking about America in the world today

The Education of Randolph Bourne Leslie Jane Vaughan, 1989

Emancipating Slaves, Enslaving Free Men Jeffrey Hummel, 2013-11-18 This book combines a sweeping narrative of the Civil War with a bold new look at the war's significance for American society Professor Hummel sees the Civil War as America's turning point simultaneously the culmination and repudiation of the American revolution While the chapters tell the story of the Civil War and discuss the issues raised in readable prose each chapter is followed by a detailed bibliographical essay looking at all the different major works on the subject with their varying ideological viewpoints and conclusions In his economic analysis of slavery Professor Hummel takes a different view than the two major poles which have determined past discussions of the topic While some writers claim that slavery was unprofitable and harmful to the Southern economy and others maintain it was profitable and efficient for the South Hummel uses the economic concept of Deadweight Loss to show that slavery was both highly profitable for slave owners and harmful to Southern economic development While highly critical of Confederate policy Hummel argues that the war was fought to prevent secession not to end slavery and that preservation of the Union was not necessary to end slavery the North could have let the South secede peacefully and slavery would still have been quickly terminated Part of Hummel's argument is that the South crucially relied on the Northern states to return runaway slaves to their owners This new edition has a substantial new introduction by the author correcting and supplementing the account given in the first edition the major revision is an increase in the estimate of total casualties and a foreword by John Majewski a rising star of Civil War studies

**Twentieth-Century America** Douglas Tallack, 2014-07-22 The multi volume Longman literature in English series aims to provide students of literature with a critical introduction to the major genres in their historical and cultural context This book looks at cinema painting and architecture in 20th century America as well as the culture of politics

*American Labyrinth* Raymond Haberski, Jr., Andrew Hartman, 2018-12-15 American Labyrinth contains a stimulating and useful collection of essays by historians reflecting on American intellectual history As a whole the book convinces the reader that the field of intellectual history is enjoying a renaissance The book will be especially prized by intellectual historians but historians of many different persuasions will find these essays rewarding too Choice Intellectual history has never been more

relevant and more important to public life in the United States In complicated and confounding times people look for the principles that drive action and the foundations that support national ideals American Labyrinth demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest Raymond Haberski Jr and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question How might the resources of intellectual history help shed light on contemporary issues with historical resonance The answers all rigorous original and challenging are as eclectic in approach and temperament as the authors are different in their interests and methods Taken together the essays of American Labyrinth illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize enliven and define our lives Ultimately as Haberski and Hartman show in this volume the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas
