Nightmare Envy and Other Stories George Blaustein, 2018-01-05

What has it meant to be an Americanist What did it mean to be an Americanist through fascism war and occupation

Nightmare Envy and Other Stories is a study of Americanist writing and institutions in the 20th century Four chapters trace four routes through the mid twentieth century The first chapter is the hidden history of American Studies in the United States Europe and Japan The second is the strange career of national character in anthropology The third is a contest between military occupation and cultural diplomacy in Europe The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F O Matthiessen carried a canon of radical literature across the Iron Curtain Each chapter culminates in the postwar period when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways Many of our modern myths of the United States and Europe were formed in this moment Some saw the United States assume the mantle of cultural redeemer Others saw a stereotypical America rich in civilization but poor in culture overtake a stereotypical Europe rich in culture and equally rich in disaster Drawing on American and European archives the book weaves cultural intellectual and diplomatic history with portraits of Matthiessen Margaret Mead Ruth Benedict David Riesman Alfred Kazin and Ralph Ellison It excavates the history of the Salzburg Seminar in American Civilization where displaced persons former Nazis budding Communists and glad handing Americans met on the common ground of American culture Others found keys to their own contexts in American books reading Moby Dick in the ruins **Nightmare Envy and Other Stories** chronicles American encounters with European disaster European encounters with American fiction and the chasms over which culture had to reach

Patience and Fortitude Scott Sherman, 2017-09-26

A riveting investigation of a beloved library caught in the crosshairs of real estate power and the people's interests by the reporter who broke the story In a series of cover stories for The Nation magazine journalist Scott Sherman uncovered the ways in which Wall Street logic almost took down one of New York City's most beloved and iconic institutions the New York Public Library In the years preceding the 2008 financial crisis the library's leaders forged an audacious plan to sell off multiple branch libraries mutilate a historic building and send millions of books to a storage facility in New Jersey Scholars researchers and readers would be out of luck but real estate developers and New York's Mayor Bloomberg would get what they wanted But when the story broke the people fought back as famous writers professors and citizens groups came together to defend a national treasure Rich with revealing interviews with key figures **Patience and Fortitude** is at once a hugely readable history of the library's secret plans and a stirring account of a rare triumph against the forces of money and power

The Protection of the Library and Archive Martin Howard Sable, 1984 This comprehensive international bibliography spanning the years 1830-1983 covers over a dozen areas of concern to librarians and archivists including earthquakes fire flood and water damage warfare vandalism and much more For all individuals and institutions concerned

with the protection of their collections this bibliography is an excellent source of information

The New Woman as Librarian Clare Beck, 2006-08-31 At the time of her death it seemed that Adelaide Hasse would simply pass from memory and be forgotten However by the turn of the century American Libraries would sanctify her as one of its hundred library leaders of the twentieth century one of only thirty women given this honor Thus the unsinkable Adelaide Hasse has risen to the status of a giant of the profession and has been established as a sort of patron saint of documents librarians The Government Printing Office even named a room in her honor in 1985 Though much of her career has remained obscure Hasse did leave records that could provide a more balanced understanding of her life and work Besides the extensive print record in periodicals and The Compensations of Librarianship there were the long submerged archival records awaiting discovery in the New York Public Library Archives the Library of Congress the National Archives and the files of the FBI as well as in the papers of various contemporaries Hasse spoke and wrote about issues that are as relevant today as they were a century ago How should librarians be recruited and educated What is the nature of their professional expertise How do libraries function as organizations What services do they provide How do they provide access to government information What are the dynamics of a feminized profession Hasse tried to stir such discussion but her ideas were often submerged in allegations that she was a difficult disloyal woman This biography brings to light Hasse's achievements setting aside enigmas of personality and examines the impact of her work her values and her experience in a gendered system

Double Fold Nicholson Baker, 2002-08-13 The ostensible purpose of a library is to preserve the printed word But for fifty years our country's libraries including the Library of Congress have been doing just the opposite destroying hundreds of thousands of historic newspapers and replacing them with microfilm copies that are difficult to read lack all the color and quality of the original paper and illustrations and deteriorate with age With meticulous detective work and Baker's well known explanatory power Double Fold reveals a secret history of microfilm lobbyists former CIA agents and warehouses where priceless archives are destroyed with a machine called a guillotine Baker argues passionately for preservation even cashing in his own retirement account to save one important archive all twenty tons of it Written the brilliant narrative style that Nicholson Baker fans have come to expect Double Fold is a persuasive and often devastating book that may turn out to be The Jungle of the American library system

Bibliography of the History of Medicine, **A True Politician** Barry W. Seaver, 2014-11-18 Rebecca Browning Rankin was a politician in the best sense of the word She supervised the New York Municipal Reference Library for 32 years until her retirement in 1952 Serving in many key policy making positions both on mayoral committees and in professional organizations Rankin was an excellent lobbyist for the role of information in educating the electorate She published over fifty articles and books on aspects of city government and libraries and delivered

weekly radio speeches on WNYC from 1928 to 1938 Her career as a librarian author and radio commentator demonstrates the use of research in the formation of public policy decisions and provides a unique perspective on politics in New York Rankin also served as president of several library organizations including the Special Libraries Association which she led to national status during her tenure During the Depression she established the Association's employment service and worked with Mayor Fiorello La Guardia and other library officials to provide pensions for public librarians in New York City Rankin and La Guardia shared the belief that government should carry out the will of the people and care for their needs and the two worked together to make this a reality Quotations from primary sources in the archives of the New York Public Library and the City of New York give the book a strong narrative style Focusing on Rankin's efforts to document New York City's past as its unofficial historian the book examines the city's political history during the first half of the twentieth century and illuminates the relationship of the local government with one of its great cultural institutions the New York Public Library

Constructing Black Education at Oberlin College Roland M. Baumann, 2014-07-31 In 1835 Oberlin became the first institute of higher education to make a cause of racial egalitarianism when it decided to educate students irrespective of color Yet the visionary college's implementation of this admissions policy was uneven In *Constructing Black Education at Oberlin College A Documentary History* Roland M Baumann presents a comprehensive documentary history of the education of African American students at Oberlin College Following the Reconstruction era Oberlin College mirrored the rest of society as it reduced its commitment to black students by treating them as less than equals of their white counterparts By the middle of the twentieth century black and white student activists partially reclaimed the Oberlin legacy by refusing to be defined by race Generations of Oberlin students plus a minority of faculty and staff rekindled the college's commitment to racial equality by 1970 In time black separatism in its many forms replaced the integrationist ethic on campus as African Americans sought to chart their own destiny and advance curricular change Oberlin's is not a story of unbroken progress but rather of irony of contradictions and integrity of myth and reality and of imperfections Baumann takes readers directly to the original sources by including thirty complete documents from the Oberlin College Archives This richly illustrated volume is an important contribution to the college's 175th anniversary celebration of its distinguished history for it convincingly documents how Oberlin wrestled over the meaning of race and the destiny of black people in American society
