often put local economies in a permanent hole Plus contrary to popular belief local businesses are competitive with the multinationals and gaining ground every day Shuman highlights numerous trends that are making the old bigger is better economies of scale argument obsolete and he describes a variety of innovative strategies these businesses are using to successfully compete with their over sized competitors He also shows how consumers investors and policymakers can support their own communities by going local The Small Mart Revolution offers a robust alternative to go go globalization one that nurtures the creative capacities of local businesses and enables communities everywhere to thrive SR
