## **Rapa Nu Easter Island:**

**EASTER ISLAND** JoAnne Van Tilburg, 1994 Since Easter Island Rapa Nui was first contacted by the Dutchman Jacob Roggeveen nearly three centuries ago the people culture and most of all the monolithic statues of this remarkable island have been seen by Westerners as an incredible puzzle a riddle with no solution At the heart of the so called mystery of Easter Island stand the gigantic moai the supreme sculptural achievement of the Rapa Nui people and indeed of all Polynesia Re erected upon their rectangular stone platforms lying along ancient transport roads hidden deep in seaside caves or standing upon the slopes of Rano Raraku where they were hewn from the living rock the statues are palpable evidence of the genius and obsession of a people How were they moved What do they mean Nearly 1 000 statues have been meticulously measured drawn mapped and photographed by archaeologist Jo Anne Van Tilburg and her Chilean and Rapa Nui colleagues over more than twelve years of dedicated research Drawing on the insights that have been gained into sculptural techniques design attributes and formal variation the author examines Rapa Nui prehistory in the context of new understandings of ecology and culture Detailed drawings of statues by one of Rapa Nui's most talented artists many published for the first time reveal the fluidity of line and complexity of meaning encoded within these stone figures Historical photographs from museum collections illustrate the vital role played by many Rapa Nui people in the documentation and preservation of their own culture The latest methods of statistical analysis computer imaging and robotics programs are brought to bear upon the perplexing question of statue transport and the author offers an exciting yet compellingly logical model of how a near fourteen ton statue could have been moved almost the entire length of the island Written by the foremost authority on the subject this fascinating book is another important step toward unravelling the mystery of Easter Island **BOOK JACKET Title Summary** field provided by Blackwell North America Inc All Rights Reserved     **Rapa Nui - Easter Island** Ian Conrich, Hermann Mückler, 2016-05-06 Easter Island or Rapa Nui has long captivated travellers and explorers since it was first encountered by European voyagers in 1722 The island's colossal stone carvings moai have been the primary attraction yet these have overshadowed the broader culture of the Rapanui people This significant edited collection brings together thirteen specialists from eight countries in a series of studies that address the pre history history contemporary society and popular culture of Easter Island Consideration is given to both the Rapanui and western cultures with topics covered including archaeology anthropology linguistics tourism literature comic books and music This is a multidisciplinary book with subjects ranging from fact to fiction and from Thor Heyerdahl and Katherine Routledge to Indiana Jones and Lara Croft

their society and belief system until contacted by the outside world in 1722 It is still unknown if the social collapse that followed was from a natural disaster forced by the human contact or more than likely as a result of a combination of the two In the center of the South Pacific Ocean Rapa Nui is located 2 191 miles west of the coast of Chile South America in the center of the Pacific Ocean Some 2 704 miles northeast of Tahiti the island remains even today the most isolated inhabited land on the planet Today 7 750 people live on Easter Island A territory of Chile many who live on the Island consider themselves Rapanui before Chilean Spanish is the language spoken by most but the almost lost language of the island is taught in schools and families to bring the pride of the native islanders to the front Note that the island and native language is Rapa Nui and the people of the island are Rapanui Denis O Leary has been an educator for nearly three decades and long served in civil rights organizations as well as been an elected school Trustee for sixteen of those years Denis O Leary has authored fascinating books that reflect respect for diverse Latin American cultures such as Alba Walking in the Shadows Esteban s Caravan children s books about C sar Ch vez and Grandpa s Short Handled Hoe It is no wonder that when Mr O Leary traveled to the most remote location on Earth Easter Island with his wife and son he wanted to relate what he saw and learned to students and community Through Denis O Leary s photography interactions with Rapanui and research we are shown a whole story of the mysteries and culture that developed over the centuries at the navel of our planet the island of Rapa Nui or Easter Island    Easter Island--the Mystery Solved Thor Heyerdahl,1989 Discusses the mysteries of Easter Island including how the statues were made and moved and where the Easter Islanders themselves came from    Easter Island Studies Steven R.
