American Architect ,1908 **Bibliographic Guide to Art and Architecture** New York Public Library. Art and Architecture Division,1980 The American Architect and Building News ,1908 Tracing the Visual Language of Raphael's Circle to 1527 Alexis R. Culotta,2020-06-22 In Tracing the Visual Language of Raphael's Circle to 1527 Alexis Culotta examines how the Renaissance master's style one infused with borrowed visual quotations from other artists both past and present proved influential in his relationship with associate Baldassare Peruzzi and in the development of the artists within his thriving workshop Shedding new light on the important yet often overshadowed figures within this network this book calls upon key case studies to convincingly illustrate how this visual language and its recombination evolved during Raphael's Roman career and subsequently served as a springboard for artistic innovation for these close associates as they collaborated in the years following Raphael's death *American Architect and Building News* ,1908 **The Architect and Building News** ,1927 **American Architect and the Architectural Review** ,1908 Space, Image, and Reform in Early Modern Art Arthur J. DiFuria,Ian Verstegen,2021-11-08 The essays in Space Image and Reform in Early Modern Art build on Marcia Hall's seminal contributions in several categories crucial for Renaissance studies especially the spatiality of the church interior the altarpiece's facture and affectivity the notion of artistic style and the controversy over images in the era of Counter Reform Accruing the advantage of critical engagement with a single paradigm this volume better assesses its applicability and range The book works cumulatively to provide blocks of theoretical and empirical research on issues spanning the function and role of images in their contexts over two centuries Relating Hall's investigations of Renaissance art to new fields Space Image and Reform expands the ideas at the center of her work further back in time further afield and deeper into familiar topics thus achieving a cohesion not usually seen in edited volumes honoring a single scholar

Renaissance Papers 2022 James M. Pearce,Ward J. Risvold,2023-11-28 Examines the sacred and the profane in the early modern period **Avery Index to Architectural Periodicals** Avery Library,1973 1977 to present Citations to articles from more than 1 000 periodicals in all Western languages including all major architectural journals published in the U S and Great Britain as well as most South American European and Japanese architecture related periodicals **The Architecture of Empire** Gauvin Alexander Bailey,2022-09-23 Most monumental buildings of France's global empire such as the famous Saigon and Hanoi Opera Houses were built in South and Southeast Asia Much of this architecture and the history of who built it and how has been overlooked The Architecture of Empire considers the large scale public architecture associated with French imperialism in seventeenth and eighteenth century India Siam and Vietnam and nineteenth and twentieth century Indochina the largest colony France ever administered in Asia Offering a sweeping panorama of the buildings of France's colonial project this is the first study to encompass the architecture of both the ancien r gime and modern empires from the founding of the French trading company in the seventeenth century to the independence and nationalist movements

of the mid twentieth century Gauvin Bailey places particular emphasis on the human factor the people who commissioned built and lived in these buildings Almost all of these architects both Europeans and non Europeans have remained unknown beyond at best their surnames Through extensive archival research this book reconstructs their lives providing vital background for the buildings themselves Much more than in the French empire of the Western Hemisphere the buildings in this book adapt to indigenous styles regardless of whether they were designed and built by European or non European architects The Architecture of Empire provides a unique comprehensive study of structures that rank among the most fascinating examples of intercultural exchange in the history of global empires *Handlist of Books in the Library of the Bibliographical Society.
