Carter,2010-04 In this book Charles Carter 1887 1968 seeks a method of astrological forecasting that produces accurate

results without the complicated calculations of Primary Directions To quote Carter an ideal directional system should fulfil four criteria 1 No important event should pass without a direction 2 No direction should pass without an event 3 Events and directions should correspond narrowly in time 4 Events and directions should correspond in character from page 10 To achieve these goals Carter examined a number of symbolic systems Symbolic because they were not based on any actual planetary movement but rather were arcs arbitrarily chosen and then uniformly applied to all factors in the natal chart In this book he presents the best of his research Among the systems of exceptional merit are the One degree the Naibod 59 8 the Duodenary 20 30 the Sub duodenary 12 30 the Septenary 4 2 7 0 Novenary 30 20 and the Fractional Measure which is based on natal aspects Along the way Carter's restless mind tackled the subject of death Here he discovered what he termed the Measure of Death He says while it does not always forecast death the Measure of Death is always present at death Carter found symbolic directions to have real value in astrological forecasting His work remains unique This book was first published in 1929 *Bulletin of the New York Public Library* New York Public Library, 1903 Includes its Report 1896 19
