**Jokey Horse-Jockey North-South Rapport** Mhango, Nkwazi,2018-06-08 No doubt North South relationship involving poor and rich countries is very convoluted based and built

on exploitative unequal and unfair equilibria It is purely jockey horse like connubium that serves one party as it disserves the other This is why deconstructing and detoxifying this relationship is sine qua non The author argues that the parties in this relationship must revisit it to make sure it equally benefits both for the benefit of the whole world Importantly the major question posed is Why did the two global halves maintain and tolerate such toxic rapport while knowingly it is but colonial and unjust The question is answered in this academic treatise which asks the parties to hark back and thereby do justice to each other by viewing themselves as humans with shared needs and future whose lesson from the past may buttress them to be major thespians in realising world peace This is because their parasitic relationship has fueled many conflicts revolving around the struggle for controlling resources in the South in order to sell to the North

**How To Get Instant Trust, Belief, Influence and Rapport!** Tom "Big Al" Schreiter, 2019-12-05 Why can't we convince others And why won't people listen We say great things to people We offer great products to prospects We share our vision and passion with others And they don't believe us they

don't buy and they don't share our vision and passion. We say great things but people don't believe us or act on our message. Why? Well, we don't need more good things to say. Instead, we need to learn how to get people to believe and trust the good things we are saying already. It's not about the price. It's not about the salesman's breath. It is not about the leader's PowerPoint presentation. It is all about the magical first few seconds when we meet people. What happens? In the first few seconds, people make an instant decision to 1. Trust us. Believe us. Or in the first few seconds, people make an instant decision to 2. Turn on the salesman alarm. Put on the "too good to be true" filter. Be skeptical. Look for the catch. This decision is immediate and unfortunately usually final. Tom Big Al Schreiter shows us exactly how to build a bond of trust and belief with prospects in seconds. How? By talking directly to the decision-making part of the brain, the subconscious mind. In this book, *How To Get Instant Trust, Belief, Influence And Rapport: 13 Ways To Create Open Minds By Talking To The Subconscious Mind*, we will learn easy four and five word micro phrases and simple natural techniques that you can master within seconds. Yes, this is easy to do. Our message should be inside of other people's heads, not bouncing off their foreheads. Our obligation is to get our message inside of their heads so they will have options and choices in their lives. Now, if we can't get people to trust and believe our message, then we will effectively be withholding our message from them. Use these short, easy, tested, clear techniques to build that instant rapport with other people. Then everything else is easy. If you are a leader, a salesman, a network marketer, an influencer, a teacher, or someone who needs to communicate quickly and efficiently, this book is for you. Order your copy now.

**Suggestion and Suggestibility** Vladimir A. Gheorghiu, Petra Netter, Hans J. Eysenck, Robert Rosenthal, 2012-12-06. This book contains the proceedings of the First International Symposium on Suggestion and Suggestibility held at the University of Giessen in the Federal Republic of Germany, July 7-11, 1987, upon the initiative of and organized by Dr. V. A. Gheorghiu and Dr. P. Netter. I regret that for personal reasons I was unable to accept his kind invitation to attend. Dr. Gheorghiu and I are old friends. I am pleased, however, to have this opportunity to call attention to the significance of this volume. Most of the chapters were presented in approximately their present form at the symposium, though some have been extensively revised for publication. It was a wise choice to divide the papers into four major sections: I. Theoretical and Historical Perspectives; II. Assessment and Individual Differences of Suggestibility; III. Psychophysiological Aspects of Suggestibility; and IV. Social and Cognitive Aspects of Suggestive Processes, each with a summarizing commentary.

In view of the variety and difficulty of the individual papers it is a help to have the integration provided by these commentaries on Part I by Sheehan Chap 7 on Part II by Lundy Chap 13 on Part III by Edmonston Chap 19 and on Part IV by Fiedler Chap 30      Rapport Sur Les Échanges Internationaux Entrepris Par M.
