Rapture Arts Seduction By Fashion Since 1970 To 2002:

Fashion Lars Svendsen, 2006-10-30 Fashion is at once a familiar yet mysteriously elite world that we all experience whether we're buying a new pair of jeans reading Vogue or watching the latest episode of Project Runway Lars Svendsen dives into that world in *Fashion* exploring the myths ideas and history that make up haute couture the must have trends over the centuries and the very concept of fashion itself *Fashion* opens with an exploration of all the possible meanings encompassed by the word fashion as Svendsen probes its elusive place in art politics and history Ultimately however he focuses on the most common use of the term clothing With his trademark dry wit he deftly dismantles many of the axioms of the industry and its supporters For example he points out that some of the latest fashions shown on runways aren't actually fashionable in any sense of the word arguing that they're more akin to modern art works and he argues against the increasingly prevalent idea that plastic surgery and body modification are part of a new wave of consumerism Svendsen draws upon the writings of thinkers from Adam Smith to Roland Barthes to analyze fashion as both a historical phenomenon and a philosophy of aesthetics He also traces the connections between the concepts of fashion and modernity and ultimately considers the importance of evolving fashions to such fields as art politics and philosophy Whether critiquing a relentless media culture that promotes perfect bodies or parsing the never ending debate over the merits of conformity versus individual style Lars Svendsen offers an engaging and intriguing analysis of fashion and the motivations behind its constant pursuit of the new

Fashion and Art Adam Geczy, Vicki Karaminas, 2013-08-15 For at least two centuries fashion and art have maintained a competitive love hate relationship Both fashion and art construct imaginary worlds and use a language of style to invigorate beliefs perceptions and ideas Until now the crossovers of fashion and art have received only scattered treatment and suffered from a dearth of theorization As an attempt to theorize the area this collection of new and updated essays is the most well

Identity, Otherness and Empire in Shakespeare's Rome Maria Del Sapio Garbero, 2016-12-14 Contributors to this collection delve into the relationship between Rome and Shakespeare They view the presence of Rome in Shakespeare's plays not simply as an unquestioned model of imperial culture or a routine chapter in the history of literary influence but rather as the problematic link with a distant and foreign ancestry which is both revered and ravaged in its translation into the terms of the Bard's own cultural moment During a time when England was engaged in constructing a rhetoric of imperial nationhood the contributors demonstrate that Englishmen used Roman history and the classical heritage to mediate a complex range of issues from notions of cultural identity and gender to the representation of systems of exchange with Otherness in the expanding ethnic space of the nation This volume addresses matters of concern not only for Shakespeare scholars but also for students interested in issues connected with gender postcolonialism and globalization Drawing implicitly or explicitly on recent criticism intertextual studies postcolonial theory Derrida's conceptualization of hospitality gender studies global studies the essayists explore how the Roman Shakespeare of an emerging early modern empire asks questions of our present as well as of our past

A Gust of Photo-Philia Alexandra Moschovi, 2020-12-15 The first transnational history of photography's accommodation in the art museum Photography was long regarded as a middle brow art by the art institution Yet at the turn of the millennium it became the hot global art of our time In this book part institutional history part account of shifting photographic theories and practices Alexandra Moschovi tells the story of photography's accommodation in and as contemporary art in the art museum Archival research of key exhibitions and the contrasting collecting policies of MoMA Tate the Guggenheim the V&A and the Centre Pompidou offer new insights into how art as photography and photography as art have been collected and exhibited since the 1930s Moschovi argues that this accommodation not only changed photography's status in art culture and society but also played a significant role in the rebranding of the art museum as a
