fast changing worlds of the bibliophile John Lewis Rare Tongues Lorna Gibb, 2025-04-22 An enthralling tour of the world
s rarest and most endangered languages Languages and cultures are becoming increasingly homogenous with the resulting
loss of a rich linguistic tapestry reflecting unique perspectives and ways of life Rare Tongues tells the stories of the world s
rare and vanishing languages revealing how each is a living testament to human resilience adaptability and the perennial
quest for identity Taking readers on a captivating journey of discovery Lorna Gibb explores the histories of languages under
threat or already extinct as well as those in resurgence shedding light on their origins development and distinctive voices
She travels the globe from Australia and Finland to India the Canary Islands Namibia Scotland and Paraguay showing how
these languages are not mere words and syntax but keepers of diverse worldviews sites of ethnic conflict and a means for
finding surprising commonalities Readers learn the basics of how various language systems work with vowels and consonants
whistles and clicks tonal inflections or hand signs and how this kaleidoscope of self expression carries vital information about
our planet indigenous cultures and tradition and the history and evolution of humankind Rare Tongues is essential reading
for anyone concerned about the preservation of endangered languages and an eloquent and disarmingly personal meditation
on why the world s linguistic heritage is so fundamental to our shared experience and why its loss should worry us all

Delusions and the Madness of the Masses Lawrie Reznick, 2010-11-16 We all think that we can tell the difference between
someone who is mad or whom psychiatrists call psychotic and someone who is sane But can we really tell who is mad and
who is not Do we really know what madness is and how it should be recognized Have psychiatrists made a sensible
distinction between the patient who believes that aliens are beaming messages to him from a foreign planet and the religious

fanatic who believes God communicates to him via automatic writing Is there a difference between the paranoid patient who believes that the FBI is after him and the sizeable proportion of our normal population that believe that the US government orchestrated the 9 11 bombings Here Reznek hopes to shed light on the delusions of the masses those delusions that are common to everyday people living so called ordinary lives He provides an understanding of madness and the psychological processes that drive us to adopt delusions arguing that it is a mistake to view only schizophrenic patients as delusional while excluding large groups of society from such an analysis If we abandon the idea that whole communities cannot share a delusion we can come to a better understanding about why the world is such a dangerous place **Uncovering Rare**

Mathematical Elegance Steven Goldberg,2017-09-08 The heart of mathematics is its elegance the way it all fits together Unfortunately its beauty often eludes the vast majority of people who are intimidated by fear of the difficulty of numbers Mathematical Elegance remedies this Using hundreds of examples the author presents a view of the mathematical landscape that is both accessible and fascinating At a time of concern that American youth are bored by math there is renewed interest in improving math skills Mathematical Elegance stimulates students along with those already experienced in the discipline to explore some of the unexpected pleasures of quantitative thinking Invoking mathematical proofs famous for their simplicity and brainteasers that are fun and illuminating the author leaves readers feeling exuberant as well as convinced that their IQs have been raised by ten points A host of anecdotes about well known mathematicians humanize and provide new insights into their lofty subjects Recalling such classic works as Lewis Carroll s Introduction to Logic and A Mathematician Reads the Newspaper by John Allen Paulos Mathematical Elegance will energize and delight a wide audience ranging from intellectually curious students to the enthusiastic general reader RARE II Wilderness Proposals United States. Congress. Senate. Committee on Agriculture, Nutrition, and Forestry,1979 Social Deviance Tim Delaney,2017-06-16 The topic of social deviance is inherently intriguing People in general and college students in particular find the topic of deviant behavior fascinating This can be explained at least in part by a combination of the subject matter itself our own past deviant behaviors and our willingness and desire to evaluate and comment on the behaviors of others While the topic of deviant behavior seems

straightforward at the surface the study of social deviance reveals how complicated it really is Although Social Deviance utilizes a textbook style approach in its coverage of deviant behavior this comprehensive straightforward and student friendly book maintains student interest because of the author s use of real life phenomena and current examples Each chapter includes chapter objectives an introductory story a glossary of key terms discussion questions and boxed material The boxed materials include A Closer Look box that zooms in on topics that warrant deeper explanation and a Connecting Social Deviance and Popular Culture box that shows how contemporary forms of popular culture illustrate deviant behavior

Pisces Ascendant Secrets Saket Shah,2020-01-05 There are times when people just can t identify with the attributes of their Sun or Moon sign In fact they may feel that they are an antithesis of their zodiac sign You may also have observed it Your Leo friend may not seek attention may be because he or she has a Capricorn ascendant Your Sagittarius friend is very possessive may be because he or she has a Scorpio Ascendant It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth When seen from Earth the sky seems to move so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs People tend to associate their physical emotional and spiritual attributes more with rising sign at times *Ten Arguments for Deleting Your Social Media Accounts Right Now* Jaron
