Rassegna Di Studi Etiopici Volume 4:

RSE, 1971 **The Cambridge History of Christianity: Volume 5, Eastern Christianity** Michael Angold, 2006-08-17

This volume encompasses the whole Christian Orthodox tradition from 1200 to the present Its central theme is the survival of Orthodoxy against the odds into the modern era It celebrates the resilience shown in the face of hostile regimes and social pressures in this often neglected period of Orthodox history **One-Volume Libraries: Composite and Multiple-Text**

Manuscripts Michael Friedrich, Cosima Schwarke, 2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i e they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used

Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses *Etymological Dictionary of Egyptian, Volume 1* Gábor Takács, 2022-05-16 This is the introductory

volume to the first dictionary on the etymological relations between ancient Egyptian and other Afro Asiatic languages G bor Tak cs new multi volume Etymological Dictionary of Egyptian now to appear at regular intervals of about 12 18 months will be a hallmark in Egyptian and Afro Asiatic linguistics The amount of material offered the extensive treatment of scholarly discussions on each item and the insights into the connections of Egyptian with its related Afro Asiatic languages including many new lexical parallels will make it an indispensable tool for comparative and interpretative purposes and the unchallenged starting point for every linguist in the field Volume 1 the opening volume of the dictionary can rightly be called the key to the work it not only provides the users with a comprehensive analysis of the Afro Asiatic background of the Egyptian consonant system but also offers a critical appraisal of linguistic theories on Egyptian historical phonology the problems surrounding the origins of the Egyptian language and an extensive bibliography to the dictionary volumes to appear

Snakes, People, and Spirits, Volume One Robert Hazel, 2019-11-05 This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past

civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This first volume deals with snakes as a zoological category snake symbolism as perceived by encyclopaedists and psychologists and ophidian symbolism as it occurred in ancient civilisations It explores the traditional African scene in general with a view to set the scene for a more proximate baseline for comparison The divide between animals and humans was porous and snakes had a more or less equal footing in both the animal realm and the spiritual world Key features of snake symbolism in traditional Eastern Africa are then examined in detail especially phantasmagorical snakes the rainbow serpent snake totems and snake related witches and ritual leaders among others In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations The widely acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally

Snakes, People, and Spirits, Volume Two Robert Hazel, 2020-05-07 This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This second volume focuses on southern Abyssinia an area of Eastern Africa *latu senso* where the connection between snakes and paramount religious leaders was especially far reaching Their clans were said to be the outcome of sexual encounters between a young woman and an ophidian These leaders bred and fed snakes Some of them buried dead snakes in their compounds Their curse was likened to the bite of a deadly serpent This volume is devoted to a few communities of southern Abyssinia notably the Oromo an important group that has fascinated European travellers missionaries and social science specialists over a period of 150 years The rich Oromo ethnographic record lends itself to full circle analysis This volume represents a significant contribution to the study of the mysterious snake priests of the Oromo Hoor Konso and Burji peoples In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations The widely

acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally

Dynamics of Identification and Conflict Markus Virgil Hoehne, Echi Christina Gabbert, John R. Eidson, 2025-03-01
Dealing with the dynamics of identification and conflict this book uses theoretical orientations ranging from political ecology to rational choice theory interpretive approaches Marxism and multiscalar analysis Case studies set in Africa Europe and Central Asia are grouped in three sections devoted to pastoralism identity and migration What connects all of these anthropological explorations is a close focus on processes of identification and conflict at the level of particular actors in relation to the behaviour of large aggregates of people and to systemic conditions

Colonialism in Africa 1870-1960: Volume 5, A Bibliographic Guide to Colonialism in Sub-Saharan Africa L. H. Gann, Peter Duignan, 1969 A comprehensive study of recent African history examining the political social and economic effects of colonialism

EMotion Bortolotto, Susanna, Cheli, Federico, 2021-01-21 The aim of the EMotion project is to combine both technological aspects and respect for the territory and its history The main axis considered in this project is the Asmara Massawa road The challenges of a new mobility in this part of Eritrea could be met and overcome by preserving the pre existing historic infrastructure an extraordinary and vulnerable cultural heritage consisting of a unique road and a railway crossing natural and cultural landscapes and connecting archaeological historical artistic and architectural sites the road itself is a summation of artefacts and monuments to be protected and enhanced A multidisciplinary team including archaeologists architects geologists and engineers has contributed to the research The vision of the project represents an ideal and real bridge to enhance the transferring of goods ideas knowledge and values and promote the connection of people

Languages and Cultures of Eastern Christianity: Ethiopian Alessandro Bausi, 2017-05-15 This volume brings together a set of contributions many appearing in English for the first time together with a new introduction covering the history of the Ethiopian Christian civilization in its formative period 300 1500 AD Rooted in the late antique kingdom of Aksum present day Northern Ethiopia and Eritrea and lying between Byzantium Africa and the Near East this civilization is presented in a series of case studies At a time when philological and linguistic investigations are being challenged by new approaches in Ethiopian studies this volume emphasizes the necessity of basic research while avoiding the reduction of cultural questions to matters of fact and detail

is a unique intangible cultural heritage One wonders however what its future will be in the context of the modern educational methods and social attitudes that have evolved in Ethiopia over the last half century

The Great Mosque of Damascus Finbarr Flood, 2021-07-26 The celebrated Great Mosque of Damascus was built in the early eighth century by the Umayyad caliph al Wal d b Abd al Malik This book provides a detailed study of this Mosque Using textual visual and archaeological evidence the author attempts to reconstruct some of the basic formal and decorative features of the Umayyad mosque to locate it within its broader urban context and to consider its role within al Wal d s unprecedented programme of architectural patronage The work explores the intracultural and intercultural functions of religious architecture within an official visual discourse intended to project a distinctive Muslim identity in a manner determined by Umayyad political aspirations It will be of particular interest to those concerned with the relationship between the Umayyad caliphate and Byzantium
