Recarving Rushmore Ivan Eland, 2014-10-01 Who were the best and worst U S presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in Recarving Rushmore Ivan Eland profiles each U S president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents

*The Rhetoric of Heroic Expectations* Justin S. Vaughn, Jennifer Mercieca, 2014-02-15 Campaign rhetoric helps candidates to get elected but its effects last well beyond the counting of the ballots this was perhaps never truer than in Barack Obama's 2008 campaign Did Obama create such high expectations that they actually hindered his ability to enact his agenda Should we judge his performance by the scale of the expectations his rhetoric generated or against some other standard *The Rhetoric of Heroic Expectations* Establishing the Obama Presidency grapples with these and other important questions Barack Obama's election seemed to many to fulfill Martin Luther King Jr's vision of the long arc of the moral universe bending toward justice And after the terrorism war and economic downturn of the previous decade candidate Obama's rhetoric cast broad visions of a change in the direction of American life In these and other ways the election of 2008 presented an especially strong example of creating expectations that would shape the public's views of the incoming administration The public's high expectations in turn become a part of any president's burden upon assuming office The interdisciplinary scholars who have contributed to this volume focus their analysis upon three kinds of presidential burdens institutional burdens specific to the office of the presidency contextual burdens specific to the historical moment within

which the president assumes office and personal burdens specific to the individual who becomes president      *Wiley CPA Exam Review 2012* O. Ray Whittington, Patrick R. **New Directions in American Politics** Raymond J. La Raja, 2013 New Directions in American Politics introduces students not just to how the American political system works but also to how political science works La Raja brings together top scholars to write original essays across the standard curriculum of American government and politics capturing emerging research in the discipline in a way that is accessible for undergraduates Each chapter combines substantive knowledge with the kind of skill building and analytical inquiry that is being touted in higher education everywhere Contributors to New Directions highlight why the questions they seek to answer are critical for understanding American politics and situate them in the broader context of controversies in research The teaching of American politics follows a well worn path Textbooks for introductory courses hew to a traditional set of chapters that describe the Founding American institutions the ways citizens participate in politics and sometimes public policy The material rarely engages students in the kind of questions that animate scholarship on politics One hurdle for instructors is finding material that reflects quality scholarship and thus teaches students about why not just what and yet is accessible for undergraduates Articles in scholarly journals are typically unsuited for undergraduate courses particularly introductory courses What is needed is a book that conveys exciting trends in scholarship across vital topics in American politics and illustrates analytical thinking New Directions in American Politics is that book and will be an ideal companion to standard textbooks that focus mostly on nuts and bolts of politics The book features Contributions from a top notch cast of active scholars and a highly regarded editor A focus on analytical thinking that addresses questions of causality Full coverage of the American politics curriculum Short interviews with each contributor on a companion website to help the research come alive and prompt critical thinking questions for students Work that draws on the highest quality research in political science but is written specifically for first year undergraduate students There is simply no book like this available to the growing number of faculty who want their introductory American politics course to be a reflection of the political science discipline and not just the nuts and bolt facts of the American political system
