Hegemonic Transformation Elaine Sio-ieng Hui, 2017-10-31 This book contends that the Chinese economic reform inaugurated since 1978 has been a top down passive revolution in Gramsci's term and that after three decades of reform the role of the Chinese state has been changing from steering the passive revolution through coercive tactics to establishing capitalist hegemony It illustrates that the labour law system is a crucial vehicle through which the Chinese party state seeks to secure the working class's consent to the capitalist class's ethno political leadership The labour law system has exercised a double hegemonic effect with regards to the capital labour relations and state labour relations through four major mechanisms However these effects have influenced the Chinese migrant workers in an uneven manner The affirmative workers have granted active consent to the ruling class leadership the indifferent ambiguous and critical workers have only rendered passive consent while the radical workers have refused to give any consent at all

**Social Class in Applied Linguistics** David Block, 2013-12-04 In this ground breaking new book David Block proposes a new working definition of social class in applied linguistics Traditionally research on language and identity has focused on aspects such as race ethnicity nationality gender religion and sexuality Political economy and social class as an identity inscription have been undervalued This book argues that increasing socioeconomic inequality which has come with the consolidation of neoliberal policies and practices worldwide requires changes in how we think about identity and proposes that social class should be brought to the fore as a key construct Social Class in Applied Linguistics begins with an in depth theoretical discussion of

social class before considering the extent to which social class has been a key construct in three general areas of applied linguistics sociolinguistics bi multilingualism and second language acquisition and learning research Throughout the book Block suggests ways in which social class might be incorporated into future applied linguistics research A critical read for postgraduate students and researchers in the areas of applied linguistics language education and TESOL **Populism and Its Limits** ,2021-12-30 Populism and Its Limits is a response to the evaluative and celebratory approaches to populism in social sciences and humanities It seeks to study the phenomenon of populism thoroughly consider its limits and if possible proposes ways out to other kinds of commitment in life living and politics It aims to formulate responses that take on the spurious and non dialectical dissociation between thought and action intellect and emotion the people and the elite

***Rethinking Class*** Wai-chee Dimock,Michael T. Gilmore,1994 In recent years as the centrality of race and gender has been established in literary studies class has often been seen as a crude and reductionist concept For this volume the editors have commissioned essays arguing for the continuing vitality as well as the energizing problematics of the category of class

**Hegemony and Education** Deb J. Hill,2007-01-01 Hegemony and Education explores how the educational insights implicit in Antonio Gramsci s historical materialist outlook have been reconciled to the post Marxist theory of radical democracy The author argues that there is an urgent need to redefine the dynamics of hegemony as a theory centering on the problem of cognitive and moral relational and valuational submissiveness that is a problem indicative of the pathologies of capitalism with respect to democratic theorizing **Social Class and Marxism** Neville Kirk,2017-07-05 In recent years historians and other social scientists have widely questioned the continued relevance of social class as historical relationship as sociological category as philosophical concept and in terms of its enduring political significance The success of the British Conservative Party since 1979 combined with the weaknesses and failures of the Labour movement have led historians and social scientists to reconsider the general nature of connections between the social and the political and the specific relations between the working class and socialist and Labour politics This collection of essays is a multi disciplinary critique of the new revisionism which demonstrates the continued vitality and promise of non reductionist and non determinist modes of class analysis

dilemmas the contributors to this collection adopt an array of theoretical frameworks that are all striking departures from traditional and more functional perspectives on diversity The volume also employs a variety of theoretical perspectives including intergroup relations theory critical theory Jungian psychology feminism post colonial theory cultural history postmodernism realism institutional theory and class analysis Further the authors examine a multitude of organizational situations in which the complications of diversity surface many of which cross race gender ethnic and other socially constructed boundaries Managing the Organizational Melting Pot draws examples not only from the United States but also looks at situations from Canada Britain and the Middle East Students scholars and managers who want to prepare themselves to deal with the challenges presented by a multicultural workforce will find this beneficial reading In addition researchers interested in conducting research in diversity management will find this an up to date thought provoking resource

Domination and Emancipation Daniel Benson, 2021-11-01 A melancholy defeatism has become a hallmark of critical thought and leftist politics A consequence of this has been an exaggerated focus on domination among critical theorists leaving emancipation along with questions of political organization and strategy undertheorized at best or disregarded as delusional at worst If emancipation still plays a role in critical reflection it is most often in a domesticated form made into a bedfellow of centrist liberalism Recent events necessitate a different outlook especially since the financial collapse of 2008 and the myriad movements emancipatory as much as reactionary it has spawned throughout the world Through a series of dialogues and reflections by leading thinkers scholars and activists *Domination and Emancipation Remaking Critique* seeks to rebuild the emancipatory pole of critique and bring forward theoretical work that is in step with the struggles and aspirations of the moment

Materialist Feminism Rosemary Hennessy, Chrys Ingraham, 1997

During the 1980s capitalism triumphantly secured its global reach anti communist ideologies hammered home socialism s inherent failure the New Left increasingly moved into the professional middle class and many of feminism s earlier priorities were marginalized Identity politics often formulated in terms of social reconstructionism or multiculturalism has increasingly suppressed materialist feminism s systematic perspective replacing it with discourse analysis or cultural politics Materialist Feminism A Reader argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning making practices in highly industrialized social sectors the exploitation of women s labor and the appropriation of women s bodies that continues to undergird the scramble for profits and state power in multinational capitalism

**The Limits of Labour** David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary s reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of

Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s Class Struggle and Identity Politics Marc James Léger, 2024-06-03 Contemporary bipartisan politics undermines socialist solidarity by ignoring class issues and pitting advocates of social justice against ethno national chauvinists This guide to the recent wave of woke culture wars provides a radical class analysis and critique of the most popular academic trends around diversity and inclusion radical democracy intersectionality privilege theory critical race theory and decoloniality The book further explains the complexity of today's cultural conflicts by examining how these issues are viewed across the political spectrum including populist and postmodern perspectives Exploring historical cultural political and economic developments since the postwar era this follow up to Identity Trumps Socialism provides the reader with everything you wanted to know but were afraid to ask about the campus wars that have gone mainstream E.P.
