Retrospection Political Real:

Retrospective Pledge Voting and Political Accountability Theres Matthieß,2024-08-17 This book examines retrospective pledge voting the phenomenon of whether and under which conditions citizens are likely to withdraw their support for political parties that have failed to turn their pre election pledges into tangible policies once they have joined government It puts forward a new theoretical framework on retrospective pledge voting Whilst one would expect voters to punish government parties that have broken their promises by refusing to vote for them at the next election little research has been done to show whether and under what contexts this is actually the case Adopting a multi methods approach the book demonstrates that citizens do punish government parties that have shown a poor performance in fulfilling their election pledges and that more sceptical citizens with negative pre existing opinions punish pledge breakage more severely Bringing together research on election pledges government performance and voting the book will appeal to all those interested in democratic representation politics public policy and voter party linkages

The October Revolution in Prospect and Retrospect John Marot,2012-06-08 In a series of probing analytical essays John Marot tracks the development of Bolshevism through the prism of pre 1917 intra Russian Social Democratic controversies in politics and philosophy For 1917 the author presents a critique of social historical interpretation of the Russian Revolution Turning to NEP Russia the author applies Robert Brenner s analysis of pre capitalist modes of production and concludes that neither Bukharin nor Trotsky s NEP premised programs of economic transformation and

advance toward socialism were feasible At the same time he rejects the view that Stalinism was pre destined to supplant NEP Instead he hypothesises that the superior alternative to Stalinism was NEP without collectivization and the Five Year Plans a outcome that would have been possible had Bukharin and Trotsky joined forces to stop Stalin

Cuban Memory Wars Michael J. Bustamante,2021-02-10 For many Cubans Fidel Castro s Revolution represented deliverance from a legacy of inequality and national disappointment For others especially those exiled in the United States Cuba s turn to socialism made the prerevolutionary period look like paradise lost Michael J Bustamante unsettles this familiar schism by excavating Cubans contested memories of the Revolution s roots and results over its first twenty years Cubans battles over the past he argues not only defied simple political divisions they also helped shape the course of Cuban history itself As the Revolution unfolded the struggle over

historical memory was triangulated among revolutionary leaders in Havana expatriate organizations in Miami and average Cuban citizens All Cubans leveraged the past in individual ways but personal memories also collided with the Cuban state's efforts to institutionalize a singular version of the Revolution's story Drawing on troves of archival materials including visual media Bustamante tracks the process of what he calls retrospective politics across the Florida Straits In doing so he drives Cuban history beyond the polarized vision seemingly set in stone today and raises the prospect of a more inclusive national narrative

Queer

Retrosexualities Nishant Shahani, 2012-02-01

Queer Retrosexualities The Politics of Reparative Return examines the retrospective logic that informs contemporary queer thinking specifically the narrative return to the 1950s in post 1990s queer and LGBT culture in the United States The term Queer Retrosexuality marks the intersection between retrospective thinking and queerness to illustrate not only how to queer retrospection but also how retrospection in some senses can be thought of as always already queer This book examines the historical possibilities that inform the narrative return to the 1950s in queer cultural and literary productions such as Samuel Delany's *The Motion of Light in Water* Todd Haynes's *Far from Heaven* Sarah Schulman's *Shimmer* and Mark Merlis's *American Studies* all texts that return to a traumatic past marked by shame exile and persecution **Queer Retrosexualities** inquires into what motivates the return in these texts to a historical moment informed by the bruises and wounds of history but more importantly it poses the question of how such a turn backwards could be theorized as reparative or even hopeful This book shows how the framework of queer retrospection offers new ways of understanding history and culture of reformulating disciplines and institutions and of rethinking traditional modes of political activism and knowledge production Even while it seems counterproductive to return to a

historical moment that is marked by the persecution of sexual and racial minorities the book examines how a shared feeling of relationality and community produced by the exile of shame shapes the political value of queer retrosexualities The retrospective return to the 1950s allows queer thinking to move away from the commodification of queer culture in the present that masquerades as progress Thus the book theorizes how traumatic history becomes a valuable resource for the political project of assembling collective memory as the base materials for imagining a different and more queer future
