Neo-Gothic Narratives Sarah E. Maier, Brenda Ayres, 2020-03-31 Neo Gothic Narratives defines and theorises what exactly qualifies as such a text what mobilises the employment of the Gothic to speak to our own times whether nostalgia plays a role and whether there is room for humour besides the sobriety and horror in these narratives across various media What attracts us to the Gothic that makes us want to resurrect reinvent echo it Why do we let the Gothic redefine us Why do we let it haunt us Does it speak to us through intertextuality self reflectivity metafiction immersion affect Are we reclaiming the history of women and other subalterns in the Gothic that had been denied in other forms of history Are we revisiting the trauma of English colonisation and seeking national identity Or are we simply tourists who enjoy cruising through the otherworld The essays in this volume investigate both the readerly experience of Neo Gothic narratives as well as their writerly pastiche **Encyclopedia of Television Shows, 1925 through 2010, 2d ed.** Vincent Terrace, 2014-01-10 This fully updated and expanded edition covers over 10 200 programs making it the most comprehensive documentation of television programs ever published In addition to covering the standard network and cable entertainment genres the book also covers programs generally not covered elsewhere in print or even online including Internet series aired and unaired pilot films erotic series gay and lesbian series risqué cartoons and experimental programs from 1925 through 1945 [The Second Jurassic Dinosaur Rush](#) Paul D. Brinkman, 2024-05-31 The so called Bone Wars of the 1880s which pitted Edward Drinker Cope against Othniel Charles Marsh in a frenzy of fossil collection and discovery may have marked the introduction of dinosaurs to the American public but the second Jurassic dinosaur rush which took place around the turn of the twentieth century brought the prehistoric beasts back to life These later expeditions which involved new competitors hailing from leading natural history museums in New York Chicago and Pittsburgh yielded specimens that would be reconstructed into the colossal skeletons that thrill visitors today in museum halls across the country Reconsidering the fossil speculation the museum displays and the media frenzy that ushered dinosaurs into the American public consciousness Paul Brinkman takes us back to the birth of dinomania the modern obsession with all things Jurassic Featuring engaging and colorful personalities and motivations both altruistic and ignoble [The Second Jurassic Dinosaur Rush](#) shows that these later expeditions were just as foundational if not more so to the establishment of paleontology and the budding collections of museums than the more famous Cope and Marsh treks With adventure intrigue and rivalry this is science at its most swashbuckling **The Complete Dinosaur** James Orville Farlow, M. K. Brett-Surman, 1997 A highly illustrated celebration of dinosaurs for general readers presenting a thorough survey from the earliest discoveries to contemporary controversies over extinction Chapters are written by experts in fields including functional morphology paleobiology and biogeography with sections on the discovery of dinosaurs the study of dinosaurs groups of dinosaurs their biology and dinosaur evolution Highlights include discussion of new information on the warm blooded cold blooded debate new insights into the possibility of isolating dinosaur

Lake Park hidden from human eyes and malicious human interference when the out of control wildfire flushes them from their safe haven and they end up in Crater Lake Of course they can't remain there They'd be seen discovered Exploited or hunted to extinction because people still feared and loathed dinosaurs because of how many humans they'd slaughtered during their bloody reign But aside from Henry's love of Oscar the Oscars survival is crucial if the aliens ever return so Henry and his paleontologist son in law Justin must lead the horde away from the lake to a new safe home in another isolated section of the park They must protect the Oscars But one infant dinosaur has been left behind and in saving that little dinosaur returning it to Oscar and its family Henry almost pays the ultimate price but Henry would do anything for Oscar After all Oscar would and had many times saved Henry's life he saved the planet as well So Henry and Earth are undeniably and forever indebted to the small dinosaur
