Return Of The Quetzal:

Return of the Quetzal Margaret Gill,2003-01-01 Return of the Quetzal Margaret Gill,2003-01-13 Return of the Quetzal is a ripping good yarn a wonderfully dramatic story based on the theme of faiths religious faith false faith faith in one s self in other people and in one s roots The teenage heroine Meg uprooted from her smug little middle class life in England struggles to find her place in the multi cultural broil of a small Central American country She stands alone in both her doubts about the strangely compelling and mysterious new teacher and in her search for her missing brother until she meets Tony her first friend in a strange country and her first love The quest for her brother in the heart of the Costa Rican Rain Forest is beautifully realized as is the terrific final climax to the book Bette Paul Children s Author and Winner of the Carnegie Medal

Guatemalans in the Aftermath of Violence Kristi Anne Stølen,2007-06-13 In this study of Guatemalan peasants rebuilding their lives after years in the crossfire anthropologist Kristi Anne St len examines the dynamics of violence survival strategies in situations of extreme violence and social reconstruction in its aftermath Journeys of Fear Liisa North,Alan Burtham Simmons,1999 Understanding democracy human rights and development in the conflict ridden societies of the third world is at the heart of Journeys of Fear a stimulating collection of papers prepared by Canadian and Guatemalan scholars Edited and with contributions by Liisa North and Alan Simmons this collection explores the participation of the oppressed and marginalised Guatemalan refugees most of them indigenous Mayas who fled from the army s razed earth campaign of the early 1980s in government negotiations regarding the conditions for return The essays adopt the refugees language concerning return defining it as a self organized and participatory collective act that is very different from repatriation a passive process often organized by others with the objective of reintegration into the status quo Contributors examine the extent to which the organized returnees and other social organizations with similar objectives have been successful in transforming Guatemalan society creating greater respect for political social and economic rights They also consider the obstacles to democratization in a country just emerging from a history of oppressive dictatorships and a thirty six year long civil war Liisa L North is professor of political science and a fellow of the Centre for Research on Latin America and the Caribbean at York University Alan B Simmons is associate professor of sociology and a fellow of the Centre for Research on Latin America and the Caribbean at York University **Reports of Overseas Private Investment Corporation**

returns us to the magical landscape of Southern Mexico and the further spiritual adventures of Daniel Bancroft the protagonist hero of *The Ledge of Quetzal* After witnessing the Great Economic Meltdown of September 2008 and the shattering of a collective confidence in the future Daniel once again finds himself flying to Mexico on a sacred journey this time to the great playing field that lies at the entrance to Kukulcan the Mayan temple at Chichen Itza where a ballgame to determine the fate of life on earth is to be played out before sunrise on 12 21 2012 An intimate journey of personal transformation and spiritual awakening this book is also a wake up call in fable form we can reverse the destructive course of humanity but only if we are courageous enough to dismantle the illusion of our differences and embrace our connection as one human family *Return of the Jaguar* , *Foreign Relations of the United States* United States. Department of State,1979 **Quetzals** Sandra Donovan,2002-01-01 An introduction to the habitat physical characteristics behavior and life cycle of quetzals beautiful birds that live in the rain forests of Central America and South America *History of the New World Called America: book I. LeCount,Jason Yaeger,2010-09-15 Most treatments of large Classic Maya sites such as Caracol and Tikal regard Maya political organization as highly centralized Because investigations have focused on civic buildings and elite palaces however a critical part of the picture of Classic Maya political organization has been missing The contributors to this volume chart the rise and fall of the Classic Maya center of Xunantunich paying special attention to its changing relationships with the communities that comprised its hinterlands They examine how the changing relationships between Xunantunich and the larger kingdom of Naranjo affected the local population the location of their farms and houses and the range of economic and subsistence activities in which both elites and commoners engaged They also examine the ways common people seized opportunities and met challenges offered by a changing political landscape The rich archaeological data in this book show that incorporating subject communities and people and keeping them incorporated was an on going challenge to ancient Maya rulers Until now archaeologists have lacked integrated regional data and a fine grained chronology in which to document short term shifts in site occupations subsistence strategies and other important practices of the daily life of the Maya This book provides a revised picture of Maya politics one of different ways of governing and alliance formation among dominant centers provincial polities and hinterland communities

 Hygiene and Physical Education William Walter Hastings,1909 Hygiene and Physical Education ,1909 The Chicken and the Quetzal Paul Kockelman,2015-12-30 In *The Chicken and the Quetzal* Paul Kockelman theorizes the creation measurement and capture of value by recounting the cultural history of a village in Guatemala s highland cloud forests and its relation to conservation movements and ecotourism In 1990 a group of German ecologists founded an NGO to help preserve the habitat of the resplendent quetzal the strikingly beautiful national bird of Guatemala near the village of Chicacnab The ecotourism project they established in Chicacnab was meant to provide new sources of income for its residents so they would abandon farming methods that destroyed quetzal habitat The pressure on villagers to change their practices created new values and forced negotiations between indigenous worldviews and the conservationists goals Kockelman uses this story to offer a sweeping theoretical framework for understanding the entanglement of values as they are interpreted and travel across different and often incommensurate ontological worlds His theorizations apply widely to studies of the production of value the changing ways people make value portable and value s relationship to ontology affect and selfhood
