"Just after twenty years, Marjorie Shostak's *Nisa* is my all-time favorite woman's life story. But I have always wondered what happened to Nisa. How did this great woman live as her hunting and gathering life disappeared in the wake of the transformation sweeping modern Africa? And what was the effect on Nisa of her close association with Shostak, the anthropologist who first told her story for the world to read? *Return to Nisa* gives some compelling and deeply moving answers, as Marjorie Shostak describes with eloquence and wonder the connections and friendship — sometimes tense — between women from such different worlds. Each woman has life and concludes death on different terms, yet both are measured through time, change, and personal loss by their shared survival. A remarkable story, beautifully told."

—KIMBLE BLUMER BARR, *AUTHOR OF WOMAN NATURE*

"Typical, spiritual, wise, *Return to Nisa* completes a circle started decades ago in the encounter between an American writer and a strong free woman of the Kalahari Desert. Part ethnography, part personal odyssey, the book's engrossing narrative is made more poignant by the author's circumstances, for in addition to facing an alien culture and the rigors of the desert, Marjorie Shostak was facing her own mortality in the form of an advancing cancer. Rarely have the personal dimensions of ethnographic fieldwork been so eloquently articulated and confronted. Nisa's complex place in Marjorie's healing journey lies at the heart of the story. As one who have shared both, I cherish this remarkable book."

—KIMBERLY A. GILL, *PROFESSOR OF ANTHROPOLOGY*

"*Return to Nisa* describes a valiant journey, a search for healing on the edge of the Kalahari. This moving journal, now brought to fruition by Marjorie Shostak's friends after her untimely death, shares the author's bonds of friendship. It is an ode to distant love and to hope, to the body and to the spirit, to all that is glorious in life and all we leave behind."

## **Return To Nisa:**

**Return to Nisa** Marjorie Shostak, 2009-06-01 The story of two women one a hunter gatherer in Botswana the other an ailing American anthropologist this powerful book returns the reader to territory that Marjorie Shostak wrote of so poignantly in the now classic *Nisa The Life and Words of a Kung Woman* Here however the ground has perceptibly shifted First published in 1981 *Nisa* served as a stirring introduction to anthropology's most basic question Can there be true understanding between people of profoundly different cultures Diagnosed with breast cancer and troubled by a sense of work yet unfinished Shostak returned to Botswana in 1989 This book tells simply and directly of her rediscovery of the Kung people she had come to know years before the aging blunt demanding *Nisa* her stalwart husband Bo understanding Kxoma fragile Hwantla and Royal translator and guide In Shostak's words we clearly see Kung life the dry grasslands the healing dances the threatening military presence And we see Shostak herself passionately curious reporting the discomforts and confusion of fieldwork along with its fascination By turns amused and frustrated she describes the disappointments and chastening lessons that inevitably follow when anthropologists like her younger self romanticize the Kung Throughout we observe a woman of threatened health but enormous vitality as she pursues the promise she once discovered in the Kung people and above all in *Nisa* At the core of the book is the remarkable relationship between these two women from different worlds They are often caught off guard by the limits of their mutual understanding Still their determination to reach out to each other lingers in the reader's mind long after the story ends providing an eloquent response to questions that *Nisa* so memorably posed It was not that we had become the best of friends or like close family It was simply that she and I had the most straightforward connection I had ever had with anyone before or since It was as if the Kung culture and my talks with *Nisa* touched something beyond reason in me Even though I didn't necessarily like everything *Nisa* said nor everything about her my heart had been captured But how often I wished *Nisa* had been more noble more selfless and more philosophical *Nisa* had to be known well to be appreciated for she was complex and difficult She probably would say much the same about me We both wanted things from each other and neither of us got as much as we hoped for That we both got some of what we wanted well that made our friendship extremely valuable from the Epilogue **Mother's Milk** Bernice L.

Hausman, 2014-02-04 *Mother's Milk* examines why nursing a baby is an ideologically charged experience in contemporary culture Drawing upon medical studies feminist scholarship anthropological literature and an intimate knowledge of breastfeeding itself Bernice Hausman demonstrates what is at stake in mothers' infant feeding choices economically socially and in terms of women's rights Breastfeeding controversies she argues reveal social tensions around the meaning of women's bodies the authority of science and the value of maternity in American culture A provocative and multi-faceted work *Mother's Milk* will be of interest to anyone concerned with the politics of women's embodiment **Brainpark** Anna Sanderson, 2006 A series of essays meditations and true stories this book approaches the big subjects sex faith family art in wonderfully fresh

ways using her own life as a starting point Anna Sanderson's voracious curiosity takes the reader on a candid and oftens startling tour of unlikely places from Wellington churches to New York dungeons to New Age communities Back cover

Demography of the Dobe !Kung Nancy Howell, 2017-11-22 First published in 1979 this is a classic study of the population of the Bushmen of the Kalahari Desert of Botswana Using methods that are simple and fully illustrated the author presents empirical descriptions of the fertility mortality and marriage patterns of the now famous Kung hunter gatherers The King Bushman people of the Kalahari desert in Africa occupy an anomalous position in the world of science They have been selected for intensive study precisely because they are geographically socially and economically removed from modern industrialized society living in a sparsely settled and remote portion of an enormous semidesert The Kung maintain the

language and culture of a fully developed hunting and gathering society with until very recently no dependence on cultivated plants no domesticated animals other than the dog no stratification system based on kinship or occupation no power or authority structure extending further than the local bands composed of a few related families no wage labor no use of money and no settled sites of occupation At the same time the Kung have become well known figures to students both undergraduate and professional of Western social science The faces of Kung informants gaze from the covers and the illustrations of many texts in anthropology and sociology Why has all this attention been developed around the Kung people Part of the answer lies in the people themselves The Kung are a physically attractive people with slender graceful bodies and open small featured faces that are appealing and photogenic Their culture is simple and has its striking features The struggle for subsistence the click language the emphasis on sharing and humility the drama of the curing dances in which individuals go into trance and speak directly to spirits to cure sickness and the pervasive humor teasing and playfulness of the Kung style are all features that are relatively easy to convey and interesting to learn about This work covers areas such as marriage fertility disease mortality history and the projected future of the Kung This book will be of interest to students of demographic studies anthropology and African studies *Ethnic Groups of Africa and the Middle East* John A.

Shoup, 2011-10-17 This encyclopedia is an essential guide to the different ethno linguistic groups in Africa and today's complicated Middle East region *Ethnic Groups of Africa and the Middle East* contains encyclopedic entries arranged alphabetically within ethno linguistic classifications Each entry has four main sections an introduction identifying the language group where they are found and their numbers a brief discussion of their origins and early history a section on cultural life that includes religion literature social organization and art and a final section on political organization and recent history The contents are appropriate for high school and undergraduate students as well as for experts who need a refresher on groups in Africa and the Middle East While certain ethnic groups have been combined into a single entry some such as the Tuareg who are a Berber people are described within their own entries because of their importance in history or cultural domination Meltdown Yoichi Funabashi, 2021-03-02 The human drama and long term lessons of the Fukushima nuclear disaster The Fukushima nuclear disaster in March 2011 presented an enormous challenge even to Japan one of the world's most advanced and organized countries Failures at all levels of both the government and the private sector worsened the human and economic impact of the disaster and ensured that the consequences would continue for many years to come Based on interviews with more than 300 government officials power plant operators and military personnel during the years since the disaster *Meltdown* is a meticulous recounting and analysis of the human stories behind the response to the Fukushima disaster While the people battling to deal with the crisis at the site of the power plant were risking their lives the government at the highest levels in Tokyo was in disarray and the utility company that operated the plants seemed focused more on power struggles with the government than on dealing with the crisis The author one of Japan's most eminent

journalists provides an unrivaled chronological account of the immediate two weeks of human struggle to contain man made technology that was overwhelmed by nature Yoichi Funabashi gives insights into why Japan's decisionmaking process failed almost as dramatically as had the Fukushima nuclear reactors which went into meltdown following a major tsunami Funabashi uses the Fukushima experience to draw lessons on leadership governance disaster resilience and crisis management lessons that have universal application and pertinence for an increasingly technology driven and interconnected global society
