[The Holiday from Hell](#) Carole and David McEntee-Taylor,2011-11-19 The Adventure holiday of A lifetime It had been billed as the holiday of a lifetime A destination with everything a holiday maker could possibly want There were towns and cities where they could shop until they dropped and beaches clubs and nightlife with all kinds of exotic food and drink and anything else they might feel like trying There were desserts that stretched into infinity mountains that scaled incredible heights and seas that could challenge even the most jaded pallet For those of a quieter persuasion there was an abundance of gently rolling countryside in which to relax So just where did it all go wrong Just when was it that their dream holiday turned into the Holiday from Hell For many people on our planet this could be said to be an apt description of their journey through life From the pain of individual relationships to the devastation of natural disasters and wars it s no wonder we sometimes question the reasons we are here The Holiday from Hell describes our spiritual journey from the beginning of our holiday on the earth plane to the end of our time in this physical body It argues that if we change our perceptions of why we are here and begin to understand the origins of some of our political and religious conflicts we can at last begin to enjoy our lives

**Mediality on Trial** Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion

and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other

Religion, Power, and Illusion Patrick J Hurley, 2022-12-07 According to anthropologists religion arose in the Neolithic period a time that began 12 thousand years ago when people abandoned the hunter gatherer lifestyle and started settling down in communities By the time of the ancient Egyptians religion had reached a significant level of development The spirits of the seeds and the weather had evolved into gods In the end the gods numbered more than a thousand every god required a temple and every temple needed a priest or several of them Following the death of Jesus for the Christian god to reach its final form took an additional three hundred years It was accomplished through the work of dozens of bishops who wrestled with the problem of how a god consisting of three persons could really be one entity Religious orthodoxy as we know it today is the result of the countless solutions proposed by priests not the result of divinely inspired texts or teachings with various bishops condemning some proposals as heretical and blessing others as conventional But how were orthodoxy and heresy distinguished Any position that increased the power of the bishops was by definition orthodox and any position that undermined it was heretical Thus the Christian god that we have today is a construct assembled over many years and for two

thousand years it has served to augment and solidify the power of the bishops who created it and who sustain it Religion Power Illusion concludes that priestly power is so firmly rooted in the human condition that religion is not likely to disappear any time soon It also explores the defective logic used by religious promoters and what is necessary for experiences to be non illusory
