What's Public about Public Higher Ed? Stephen M. Gavazzi, E. Gordon Gee, 2021-10-19 Exploring the current state of relationships between public universities government leaders and the citizens who elect them this book offers insight into how to repair the growing rift between higher education and its public Higher education gets a bad rap these days The public perception is that there is a growing rift between public universities and the elected officials who support them In What s Public about Public Higher Ed Stephen M Gavazzi and E Gordon Gee explore the reality of that supposed divide offering qualitative and quantitative evidence of why it s happened and what can be done about it Critical problems Gavazzi and Gee argue have arisen because higher education leaders often assumed that what was good for universities was good for the

public at large For example many public institutions have placed more emphasis on research at the expense of teaching learning and outreach This university centric viewpoint has contributed significantly to the disconnect between our nation s public universities and the representatives of the people they are supposed to be serving But this gulf can only be bridged the authors insist if people at the universities take the time to really listen to what the citizens of their states are asking of them Gavazzi and Gee draw on never before gathered survey data on public sentiment regarding higher education Collected from citizens residing in the four most populous states California Florida New York and Texas plus Ohio and West Virginia the authors home states this data reflects critical issues including how universities spend taxpayer money the pursuit of national rankings student financial aid and the interplay of international activities versus efforts to create closer to home impact An unflinching no holds barred exploration of what citizens really think about their public universities What s Public about Public Higher Ed also places special emphasis on the events of 2020 including the COVID 19 pandemic and the worst racial unrest seen in half a century as major inflection points for understanding the implications of the survey s findings **Our**

these essays engage in a future oriented remembrance of Shariati's life and praxis with the practical attempt to clarify expand and apply his liberational Islamic thought to modern conditions Making use of Shariati's writings on Shi'a Islam and western philosophy this text is especially important for those who want to understand the role that intellectuals both religious and secular can have in the liberation of mankind Contributors are Mahdi Ahouie Bader Mousa al Saif Sophia Rose Arjana M K rad Atalar Dustin J Byrd Eric Goodfield Teo Lee Ken Georg Leube Seyed Javad Miri Carimo Mohamed Chandra Muzaffar Khosrow Bagheri Noaparast Fatemeh Shayan and Esmaeil Zeiny *Intellectual Discourse and the Politics of Modernization* Ali Mirsepassi, 2000-10-12 In this thought provoking study Ali Mirsepassi explores the concept of modernity exposing the Eurocentric prejudices and hostility to non Western culture that have characterized its development Focusing on the Iranian experience of modernity he charts its political and intellectual history and develops a new interpretation of Islamic Fundamentalism through the detailed analysis of the ideas of key Islamic intellectuals The author argues that the Iranian Revolution was not a simple clash between modernity and tradition but an attempt to accommodate modernity within a sense of authentic Islamic identity culture and historical experience He concludes by assessing the future of secularism and democracy in the Middle East in general and in Iran in particular A significant contribution to the literature on modernity social change and Islamic Studies this book will be essential reading for scholars and students of social theory and change Middle Eastern Studies Cultural Studies and many related areas Engaging in Social Partnerships Novella Zett Keith, 2015-02-11 Engaging in Social Partnerships helps practitioners advance democratic engagement by creating spaces where institutions of higher education community groups and other organizations can come together This important book prepares higher education professionals to become reflective practitioners while working in collaborations that span not only the boundaries of organizations but also borders created by the social divides of class race ethnicity culture professional expertise and power Through illustrative cases Keith explores effective models of democratic engagement for university community partnerships as well as approaches to overcoming obstacles and assessing process and outcome Current and future professionals in higher education will find this a valuable resource as they explore the power of engaging in collaborations that cross social divides while enacting practices that are more equitable and democratic **Returning the Gift** Rebecca Colesworthy, 2018-10-15 From debates about reparations to the rise of the welfare state the decades following World War I saw a widespread turn across disciplines to questions about the nature and role of gifts What is a gift What do gifts mean and do Which individuals and institutions have the authority to give Marshalling wide ranging interdisciplinary research *Returning the Gift* argues that these questions centrally shaped literary modernism The book begins by revisiting the locus classicus of twentieth century gift theory the French sociologist Marcel Mauss's 1925 essay *The Gift The Form and Reason for Exchange in Archaic Societies* His title notwithstanding the gift Mauss envisions is not primitive or pre capitalist but rather a distinctively modern phenomenon Subsequent chapters offer sustained nuanced readings of novels and

nonfiction by Virginia Woolf Jean Rhys Gertrude Stein and H D from the 1920s to 1940s underscoring the ways their writing is illuminated by contemporaneous developments in the social sciences economics and politics while also making a case for their unique contributions to broader debates about gifts Not only do these writers insist that literature is a special kind of gift but they also pose challenges to the gift s feminization in the work of both their Victorian forebears and contemporary male theorists Each of these writers uses tropes and narratives of giving of hospitality sympathy reciprocity charity genius and kinship to imagine more egalitarian social possibilities under the conditions of the capitalist present The language of the gift is not as we might expect a mark of hostility to the market so much as a means of giving form to the society in market society of representing everyday experiences of exchange that the myth of the free market works even now to render unthinkable
