*Understanding the Macro-Financial Effects of Household Debt: A Global Perspective* Adrian Alter, Alan Xiaochen Feng, Nico Valckx, 2018-04-06 We confirm the negative relationship between household debt and future GDP growth documented in Mian Sufi and Verner 2017 for a wider set of countries over the period 1950-2016. Three mutually reinforcing mechanisms help explain this relationship: First, debt overhang impairs household consumption when negative shocks hit. Second, increases in household debt heighten the probability of future banking crises which significantly disrupts financial intermediation. Third, crash risk may be systematically neglected due to investors' overoptimistic expectations associated with household debt booms. In addition, several institutional factors such as flexible exchange rates, higher financial development and inclusion are found to mitigate this impact. Finally, the tradeoff between financial inclusion and stability nuances downside risks to growth.

*Understanding Mega Free Trade Agreements* Jean-Baptiste Velut, Louise Dalingwater, Vanessa Boulet, Valérie Peyronel, 2017-08-23 The rise of cross regional trade agreements is a defining trend of the current international trade system as shown by the signing of the Trans Pacific Partnership TPP in 2015 the negotiations for the Transatlantic Trade and Investment Partnership TTIP between the USA and the EU as well as the Regional Comprehensive Economic Partnership RCEP between countries in Asia and Oceania These differ from previous agreements in their economic significance and large geographic scale and the wide scope of trade related issues The current rise of nationalist and isolationist ideologies across Europe and the USA has raised questions on the future of cross regional trade deals and made the need to understand their implications for economic and political governance ever more urgent Two main forms of governance that are central to this volume are the democratic tensions over new generation trade deals on the one hand and their geopolitical ramifications on the other which have come into collision to herald the advent of a highly uncertain period of world politics Many of the questions tackled in this volume surrounding the democratic governance of trade agreements whether long held debates on the inclusion of workers voices controversies on intrusive behind the border provisions undermining national sovereignty and local autonomy or new questions on digital rights are crucial to understand the ebbing popular support for far reaching trade agreements This book will be a useful learning tool for students and

Logvinenko,2021-10-15 Exploring Russia's reentry into global capital markets at the dawn of the twenty first century Global Finance Local Control shows how economic integration became deeply entangled with a bare knuckled struggle for control over the vestiges of the Soviet empire Igor Logvinenko reveals how the post communist Russian economy became a full fledged participant in the international financial sector without significantly improving the local rule of law By the end of Vladimir Putin's second presidential term Russia was more integrated into the global financial system than at any point in the past However the country's longstanding deficiencies including widespread corruption administration of justice and an increasingly overbearing state continued unabated Scrutinizing stock market restrictions on foreign ownership during the first fifteen years of Russia's economic transition Logvinenko concludes that financial internationalization allowed local elites to raise capital from foreign investors while maintaining control over local assets They legitimized their wealth using Western institutions but they did so on their terms Global Finance Local Control delivers a somber lesson about the integration of emerging markets without strong domestic rule of law protections financial internationalization entrenches oligarchic capitalism and strengthens authoritarian regimes      **News as Entertainment** Daya Kishan Thussu,2008-01-09 Thussu
