**Saints** Françoise Meltzer,Jas Elsner,2024-05-31 While the modern world has largely dismissed the figure of the saint as a throwback we remain fascinated by excess marginality transgression and porous subjectivity categories that define the saint In this collection Fran oise Meltzer and Jas Elsner bring together top scholars from across the humanities to reconsider our denial of saintliness and examine how modernity returns to the lure of saintly grace energy and charisma Addressing such problems as how saints are made the use of saints by political and secular orders and how holiness is personified Saints takes us on a photo tour of Graceland and the cult of Elvis and explores the changing political takes on Joan of Arc in France It shows us the self fashioning of culture through the reevaluation of saints in late antique Judaism and Counter Reformation Rome and it questions the political intent of underlying claims to spiritual attainment of a Muslim sheikh in Morocco and of Sephardism in Israel Populated with the likes of Francis of Assisi Teresa of Avila and Padre Pio this book is a fascinating inquiry into the status of saints in the modern world

**American Apocalypse** Rena Steinzor,2024-07-09 A thorough analysis of the right wing interests contributing to the downfall of American democracy The war on American democracy is at a fever pitch Such a corrosive state of affairs did not arise spontaneously up from the people but instead was pushed top down by six private sector special interest groups big business the House Freedom Caucus the Federalist Society Fox News white evangelicals and armed militias In American Apocalypse

Rena Steinzor argues that these groups are nothing more than well financed armies fighting a battle of attrition against the national government with power money and fame as their central motivations The book begins at the end of Lyndon Johnson s presidency when the modern regulatory state was born Agencies like the Environmental Protection Agency and the Food and Drug Administration ensured that everything from our air to our medicine was safe But efforts to thwart this big government agenda began swiftly albeit in the shadows Business leaders built a multi billion dollar presence in the Capitol and the rest of the six interest groups soon followed While the groups do not coordinate their attacks and sometimes their short term goals even conflict their priorities fall within a surprisingly tight bullseye the size and power of the administrative state In the near term their campaigns will bring the crucial functions of government to a halt which will lead to immediate suffering by the working classes and a rapid deterioration of race relations Over the long term as the prevalence of global pandemics and climate crises increase an incapacitated national government will usher in unimaginable harm This book is the first to conceptualize these groups together as one deconstructive and awe inspiring force Steinzor delves into each of their histories mapping the strategies tactics and characteristics that make them so powerful She offers the most comprehensive story available about the downfall of American democracy reminding us that only by recognizing what we are up against can we hope to bring about change

**Love, Violence, and the Cross** Gregory Anderson Love,2010-08-01 Does God use violence to redeem us What is the relationship between divine love and violence in regard to the saving significance of the cross of Christ In Love Violence and the Cross Gregory Love dialogues with two responses to this question while presenting a third alternative in which Jesus s death is simultaneously a crime and an element of God s saving actions Through familiar stories in history literature and film Love presents five constructive models that cumulatively affirm God s saving act in the person and work of Christ while letting go the myth of redemptive violence They affirm redemption but one with a different shape Instead of exacting the absolute punishment God redeems by making good God s promise to humanity to secure human life Love argues that God is nonviolent while retaining the core idea presented in the New Testament witnesses that reconciliation occurs in the work of Christ and that the cross plays a role in that divine work
