Suffering and Salvation Aloysius Rego, 2006 Suffering especially that of the innocent and those unjustly treated is a universal experience which has perplexed and agonised humanity This reality is especially a challenge to believers in an all powerful good and loving God Within the Christian tradition in particular because of the centrality of the cross and the crucified and risen One there has been a tradition which has hallowed suffering In this perspective suffering per se whatever its origin is mystified as a necessary prelude to salvation Is suffering salvific Are all experiences of suffering saving What is God s attitude and involvement with suffering In this work these questions are explored through the lens of Edward Schillebeeckx s later theology which is primarily concerned with the development of a contemporary soteriology

Resonances: Neurobiology, Evolution and Theology Markus Mühling, 2014-09-17 Markus Mühling presents an epistemological theory of revelation as perception and a relational narrative theological ontology based on the concept of dramatic coherence in which the triune life is understood not as an anomaly within ontology but rather as the decisive condition of its possibility Mühling further demonstrates that potential for resolving certain theological problems arises if new insights from the natural sciences such as the theory of the ecological brain in the neurosciences and the theory of niche construction in evolutionary theory are taken into account Similarly he also proposes that neuroscience and evolutionary biology can procure advantages from a dialogue with theology

The Entangled Trinity Ernest L. Simmons, 2014 The Doctrine of the Trinity is an exercise in wonder It is drawn from the wonder of our own existence and the diverse experiences of the divine encountered by the early Christian community From the earliest days of Christianity theologians of the church have drawn upon the most sophisticated language and understandings of their time in an attempt to clarify and express that faith In this volume Ernest Simmons asks what the current scientific understanding of the natural world might contribute to our reflection upon the relationship of God and the world in a Trinitarian fashion

Christopraxis Andrew Root, 2014 Since the late 1970s practical theology has had a significant voice and influence in the academy While many have seen great hope and potential in this work not everyone has agreed Some for instance have examined the conversation and found by focusing on the concrete and lived experiences of humanity by and large practical theology has not had the theological vision to present frameworks for understanding concrete and lived experience with divine action So argues Andrew Root who in Christopraxis seeks to reset the entire edifice of practical theology on a new foundation While not minimizing practical theology's commitment to the lived and concrete Root argues that practical theology has neglected deeper theological underpinnings and seeks to create a practical theology that seeks to be fully post modern post Aristotelian and that in seeking to attend to doctrines such as divine action and justification is properly and fully theological

Elasticized Ecclesiology Ulrich Schmiedel, 2017-01-17 This study confronts the current crisis of churches In critical and creative conversation with the German theologian Ernst Troeltsch 1865-1923 Ulrich Schmiedel argues that churches need to be elasticized in order to engage the other Examining contested concepts of religiosity community and identity Schmiedel explores how the closure of church against the sociological other corresponds to the closure of church against the theological other Taking trust as a central category he advocates for a turn in the interpretation of Christianity from propositional possession to performative project so that the identity of Christianity is done rather than described Through explorations of classical and contemporary scholarship in philosophy sociology and theology Schmiedel retrieves Troeltsch's interdisciplinary thinking for use in relation to the controversies that encircle the construction of community today The study opens up innovative and instructive approaches to the investigation of the practices of Christianity past and present Eventually church emerges as a work in movement continually constituted through encounters with the sociological and the theological other

Suffering and the Vulnerable Rule of God Kathleen McManus, OP, 2022-04-25 How is the reign of God revealed through the suffering experience of women and the marginalized That is the question Kathleen McManus seeks to answer She employs the Lukan image of the bent over woman standing up straight as the paradigm for all who are marginalized because of gender sexual orientation or race Her viewpoint arises from encounters with individuals and communities who suffer exclusion negation

diminishment and violence in relation to a patriarchal church in a still patriarchal world Engaging Edward Schillebeeckx's method of negative contrast experience McManus explores what may be known in the space of encounter between the institutional church and these suffering others and draws out latent possibilities for mutual conversion and transformation She reflects on the meaning of Schillebeeckx's insight into the superior power of God's defenseless vulnerability in creation and on the cross and asks what it might mean for the church to embody the vulnerable rule of God in its own structures doctrines symbols and rituals

Staying Alive Jason K. Swedene, 2009-09-09 *Staying Alive* explores the desire to live forever which manifests itself in many forms and forums Many throughout history have measured their self worth by the metric of how they will stay alive one wants fame another needs children One wants to leave behind a personalized legacy another wants to leave behind the world and enjoy the bliss of heaven The author's self expressed aim has been simply to write a readable book that will afford the reader an increased sensitivity to the many ways the desire for immortality has shaped history philosophy art and literature The thought that this analysis of human longing and culture provokes transcends any one way of approaching these disciplines It searches for and connects deeply personal pursuits with greater collective trends

Engraved Upon the Heart Hwarang Moon, 2015-07-17 How does liturgy impact the formation of faith The Protestant Church has traditionally emphasized human reason and doctrinal knowledge But there is another method with great formative power participation in liturgy Human beings gain important knowledge not only through traditional cognitively focused learning but also through practice and participation And because knowledge is wholistic an inability to express an idea in language does not necessarily signify an absence of knowledge This book shows how liturgy transmits knowledge that transcends human reason We repeat the liturgy in weekly public worship and its contents are inscribed on our minds and bodies Contrary to common belief this is also true for children and cognitively challenged individuals They may be unable to verbally express the contents of their faith in a way that satisfies normal adult expectations but these two groups of people are capable of rich religious experiences This book explores how welcoming them into experience and practice of worship and sacrament can benefit children cognitively challenged church members their families and the church community as a whole and makes us all a more inclusive community in Christ
