Pereira,2004 CONCERNING THE TITLE Scientific Democracy Invented The title Scientific Democracy Invented needs an explanation Since the 16th century Mathematicians and Sociologists have anticipated a time when politicians would solve human problems the way Scientists solve theirs rather than through fraud corruption violence and warfare There is an analogy between the Human Body and Scientific Democracy Scientific Democracy has an analogy with the working of the Human Body This is shown in Part 15 Sections A B and C Biological theory led to the Organic Theory of the State Both Plato and Aristotle argued that the State was an organism They argued that the cell is to the human body as the individual is to the State Therefore the rights of the State precede the rights of individuals Others who believed in this theory were the philosophers Claude Saint Simon Herbert Spencer and the Communists Sociologists have anticipated a time when politics would become a Science and Laws would be indisputable principles not the Whims of elected Rulers "Fifty-cent Sybils"

Tammy Stone-Gordon,1998 *The Secret Life of Houdini* William Kalush,Larry Sloman,2007-10-02 In this groundbreaking book renowned magic expert Kalush and bestselling writer Sloman team up to expose Harry Houdinis secret life as a spy and the stunning plot to murder the magician and destroy his legacy Photos throughout The Gunning of America Pamela Haag,2016-04-19 Americans have always loved guns This special bond was forged during the American Revolution and sanctified by the Second Amendment It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation Or so we re told In *The Gunning of America* historian Pamela Haag overturns this conventional wisdom American gun culture she argues developed not because the gun was exceptional but precisely because it was not guns proliferated in America because throughout most of the nation s history they were perceived as an unexceptional commodity no different than buttons or typewriters Focusing on the history of the Winchester Repeating Arms Company one of the most iconic arms manufacturers in America Haag challenges many basic assumptions of how and when America became a gun culture Under the leadership of Oliver Winchester and his heirs the company used aggressive

sometimes ingenious sales and marketing techniques to create new markets for their product Guns have never sold themselves rather through advertising and innovative distribution campaigns the gun industry did Through the meticulous examination of gun industry archives Haag challenges the myth of a primal bond between Americans and their firearms Over the course of its 150 year history the Winchester Repeating Arms Company sold over 8 million guns But Oliver Winchester a shirtmaker in his previous career had no apparent qualms about a life spent arming America His daughter in law Sarah Winchester was a different story Legend holds that Sarah was haunted by what she considered a vast blood fortune and became convinced that the ghosts of rifle victims were haunting her She channeled much of her inheritance and her conflicted conscience into a monstrous estate now known as the Winchester Mystery House where she sought refuge from this ever expanding army of phantoms In this provocative and deeply researched work of narrative history Haag fundamentally revises the history of arms in America and in so doing explodes the cliché that have created and sustained our lethal gun culture

Necro Citizenship Russ Castronovo, 2001-09-27 Argues that the category of death was a central part of the concept of citizenship in the nineteenth century U S and that the particular form of that construction functioned to naturalize white males as ideal citizens
