hot methods in the opening paragraphs and under the Terminology section There are many old books from medieval manuscripts to un translated documentation so this book is very welcomed There has been a long gap in the market for gilded glass but now the art of glass decoration is enjoying such a revival and with so many new and varied designs this couldn t really be better timed The book moves from techniques ancient to modern day to origins and the development of glass decoration throughout the world Fabulous examples of historic and important pieces are illustrated each with a brief description of techniques and materials used Some of these examples show a real diversity in design and methods used The step by step approach for the entire gilding process is also explained and shown in great detail covering initial design process for geometric and free hand patterns the process of laying the leaf engraving and colouring Recipes materials intricate order sensitive processes are thoroughly explained Anyone practicing today has to get many things right if they expect their work to last really long term that is why this book is so very important William Gudenrath Resident Advisor at The Studio of The Corning Museum of Glass NY USA Book Review 3 I started reading your book and I think that it is great it contains amazing amounts of information and yet it doesn t beat about the bush Nina Binnington mirror specialist Germany Book Review 4 Have now read four times ever more slowly and with increasing understanding of the variables Your experience and comments about what can be laid on top of what have in particular been very handy indeed for working out some potential snags I do so agree about repeating basic instructions in each separate context from the reader s point of view this is a blessing Not to have to dash back and forth to re establish an idea from a previous chapter keeping a thumb in the page is genuinely sensible I have put pencil marks all over the pages to remind me of small important details in the text For me that is clear proof that this is a book genuinely useful workaday to learn from and work with not just to gawp at Richard Byrne UK Book Review 5 It s a work of gilded art This book will encourage and teach students for years to come David Smith ornamental glass artist UK Book Review 6 I want to say how much I am enjoying the book Its such a fantastic resource and so inspiring a real gift to the glass world Lucy Batt glass artist UK Book Review 7 after so much time research and careful thought it is truly an inspiration I am very keen to explore this use of gold and colour in what I hope eventually will be my own personal expression Christopher Ainslie glass engraver UK Book Review 8 I just got the book in the post It s lovely Really well done so easy to follow and beautifully illustrated Lynne Rutter decorative artist San Francisco USA Book Review 9 Such a handsome book and so filled with fascinating photos and text It is beautifully organized and will provide many worthwhile hours for readers of all levels Congratulations and thank you from all of us in the gilding community Ina and Allen Marx conservators and decorative artists USA [Conservation and Restoration of Glass](#) Sandra Davison,R.G.
