historian Klug before his untimely death in 2000 and now available for the first time The New Liberalism Peter Weiler, 2016-07-15 This title first published in 1982 explores the new Liberalism the great change in Liberalism as an ideology and a political practice that characterised the years before the First World War and examines the idea that the new Liberals successfully overcame the need they saw in the 1890 s to make Liberalism more socially reformist This title will be of interest to students of social and political history *The Hesitant Hand* Steven G. Levy, 2009-12-21 Attempts to explain the shift from egalitarian Classical economic thought to the difference and hierarchy of post Classical economic thinking Austrian Economics in America Karen I. Vaughn, 1998-01-28 This book examines the development of the ideas of the new Austrian school from its beginnings in Vienna in the 1870s to the present It focuses primarily on showing how the coherent theme that emerges from the thought of Carl Menger Ludwig von Mises Friedrich Hayek Ludwig Lachmann Israel Kirzner and a variety of new younger Austrians is an examination of the implications of time and ignorance or processes and knowledge for economic theory Austrian Economics: Tensions and New Directions Bruce J. Caldwell, Stephan Böhm, 2012-12-06 When we first invited the group of distinguished scholars represented here to contribute to a new volume on Austrian economics four themes were stressed tensions new directions selectivity and criticism In this brief introduction we will explain why those themes were emphasized and thereby shed light on our intentions and aspirations for the volume The subtitle Tensions and New Directions indicates clearly the intent of the volume desired If we take the 1871 publication of Carl Menger s *Principles of Economics Grundsätze der Volkswirtschaftslehre* as marking its birth the Austrian tradition is now well over one hundred years old The origins of the so called Austrian Revival are more difficult to pinpoint precisely but many would accept two decades as a reasonable estimate of its lifespan In any case since the mid 1970s several collections of articles written by Austrians have been published The intent of these collections appeared to be to educate persuade and inspire various audiences Uninformed readers needed to be told about the specifics of the Austrian position to be shown how it differed from and improved upon its rivals The initiated needed to be reassured that their commitment to a novel program was justified As such much of the recent Austrian literature has consisted either of exegetical accounts of the views of past figures or of critical assessments of the positions of alternative research programs in economics from an Austrian perspective *The Evolutionist Economics of Leon Walras* Albert Jolink, 2005-08-18 This study offers a new perspective of Walras pure applied and social economics Through archival research at the University of Lausanne Jolink considers Walras ideas on philosophy and philosophy of science based on a newly constructed taxonomy Walras work is placed in a broader context by stressing the nineteenth century cultural and historical background in which he lived This further gives an insight into the

relationship between the romanticism of the early nineteenth century and logical positivism of the twentieth century
