Reviewing Fascism:

Forum and Column Review, 1926 The Review of Reviews William Thomas Stead, 1928 **Fascist Hybridities**

Rosetta Giuliani Caponetto, 2016-02-05 Under Italian Fascism African Italian mulattoes and white Italians living in Egypt posed a particular threat to the pursuit of a homogenous national identity This book examines novels and films of the period showing that their attempts at stigmatization were self undermining forcing audiences to reassess their collective identity

The Search for Neofascism A. James Gregor, 2006-03-27 Publisher description The Holocaust, Fascism and Memory

D. Stone, 2013-02-22 From interpretations of the Holocaust to fascist thought and anti fascists responses this book tackles topics which are rarely studied in conjunction This is a unique collection of essays on a wide variety of subjects which contributes to understanding the roots and consequences of mid twentieth century Europe s great catastrophe *Facing Fear* Michael Laffan, Max Weiss, 2012-10-14 Fear is ubiquitous but slippery It has been defined as a purely biological reality derided as an excuse for cowardice attacked as a force for social control and even denigrated as an unnatural condition that has no place in the disenchanted world of enlightened modernity In these times of institutionalized insecurity and global terror Facing Fear sheds light on the meaning diversity and dynamism of fear in multiple world historical contexts and demonstrates how fear universally binds us to particular presents but also to a broad spectrum of memories stories and states in the past From the eighteenth century Peruvian highlands and the California borderlands to the urban cityscapes of contemporary Russia and India this book collectively explores the wide range of causes experiences and explanations of this protean emotion The volume contributes to the thriving literature on the history of emotions and destabilizes narratives that have often understood fear in very specific linguistic cultural and geographical settings Rather by using a comparative multidisciplinary framework the book situates fear in more global terms breaks new ground in the historical and cultural analysis of emotions and sets out a new agenda for further research In addition to the editors the contributors are Alexander Etkind Lisbeth Haas Andreas Killen David Lederer Melani McAlister Ronald Schechter Marla Stone Ravi Sundaram and Charles Walker **Fascism's Return** Richard Joseph Golsan, 1998-01-01 The past fifteen years have witnessed the renewed presence of fascism in European political and cultural life In addition there have been scandals surrounding the fascist pasts of numerous renowned intellectuals including Martin Heidegger Paul de Man and Maurice Blanchot In Fascism s Return eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the 1980s of Central American dictatorships As editor Richard J Golsan notes

the essays in this volume illustrate a multitude of ways in which fascism continues to make its presence felt in western democratic societies erupting with disturbing frequency as a return of the repressed in judicial and artistic scandals as well as in historical critical and political debates Antifascism Paul Gottfried,2021-10-15 No doubt Gottfried s book will rank among the most scholarly and convincing responses to the delirium of the present l ments A conservative take on the antifascist movement Antifascism argues that current self described antifascists are not struggling against a reappearance of interwar fascism and that the Left that claims to be opposing fascism has little in common with any earlier Left except for some overlap with critical theorists of the Frankfurt School Paul Gottfried looks at antifascism from its roots in early twentieth century Europe to its American manifestation in the present The pivotal development for defining the present political spectrum he suggests has been the replacement of a recognizably Marxist Left by an intersectional one Political and ideological struggles have been configured around this new Left which has become a dominant force throughout the Western world Gottfried discusses the major changes undergone by antifascist ideology since the 1960s fascist and antifascist models of the state and assumptions about human nature nationalism versus globalism the antifascism of the American conservative establishment and Antifa in the United States Also included is an excursus on the theory of knowledge presented by Thomas Hobbes in Leviathan In Antifascism Gottfried concludes that promoting a fear of fascism today serves the interests of the powerful in particular those in positions of political journalistic and educational power who want to bully and isolate political opponents He points out the generous support given to the intersectional Left by multinational capitalists and examines the movement of the white working class in Europe including former members of Communist parties toward the populist Right suggesting this shows a political dynamic that is different from the older dialectic between Marxists and anti Marxists

Leavitt IV,2020-05-26 Neorealism emerged as a cultural exchange and a field of discourse that served to shift the confines of creativity and revise the terms of artistic expression not only in Italy but worldwide If neorealism was thus a global phenomenon it is because of its revolutionary portrayal of a transformative moment in the local regional and national histories of Italy At once guiding and guided by that transformative moment neorealist texts took up reflected and performed the contentious conditions of their creation not just at the level of narrative content but also in their form language and structure Italian Neorealism A Cultural History demonstrates how they did so through a series of representative case studies Recounting the history of a generation of artists this study offers fundamental insights into one of the most innovative and influential cultural moments of the twentieth century The Saturday Review of Politics, Literature, Science and Art ,1924 American Monthly Review of Reviews Albert Shaw,1929
