Revisualizing Boundaries A Plurilingual:

Revisualizing Boundaries Lachman M Khubchandani, 1997-02-14 This book probes the contours of plurality in studies of language. The author's innovative approach places the boundaries between languages in a fluid transactional state. Basing his study on the South Asian region, Lachman M Khubchandani provides a rich understanding of the composite plural ethos evolved among the heterogeneous peoples who inhabit the region. Revisualizing Boundaries Lachman Mulchand Khubchandani, 1997-01-01 Lucidly Written This Book Will Be Of Interest To All Those Involved With Sociolinguistics Linguistic Theory Cultural Studies And Communications In A Plural Setting **The Routledge Handbook of Plurilingual Language Education** Enrica Piccardo, Aline Germain-Rutherford, Geoff Lawrence, 2021-09-21 The Routledge Handbook of Plurilingual Language Education is the first comprehensive publication on plurilingualism offering a multidimensional reflection on the nature, scope and potential of plurilingualism in language education and society. Authored by a range of internationally recognized experts, the Handbook provides an overview of key perspectives on plurilingualism in a complementary range of fields. After a comprehensive introduction to the concept itself, 24 chapters are organized in six parts, each examining plurilingualism through a different lens. The Handbook spans historical, philosophical and sociological dimensions, examines cognitive and neuroscientific implications and the limitations of boundaries before moving to a pragmatic perspective. How is plurilingual language education developing in different contexts around the world? How can it contribute to language revitalization? How can it be expected to develop in education, digital spaces and society as a whole? Written for an international audience, this handbook is an indispensable reference tool for scholars in education and applied linguistics, educators, graduate and post graduate students and policy makers. **Heteroglossia as Practice and Pedagogy** Adrian Blackledge, Angela Creese, 2013-12-17 This volume presents evidence about how we understand communication in changing times and proposes that such understandings may contribute to the development of pedagogy for teaching and learning. It expands current debates on multilingualism, asking which signs are in use and in action and what are their social, political and historical implications. The volume's starting point is Bakhtin's heteroglossia, a key concept in understanding the tensions, conflicts and multiple voices within and among and between those signs. The chapters provide illuminating accounts of language practices as they bring into play both in practice and in pedagogy voices which index students' localities, social histories, circumstances and identities. The book documents the performance of linguistic repertoires in an era of profound social change caused by the shifting nature of nation states, increased movement of people across territories and growing digital communication. Our thinking on language and multilingualism is expanding rapidly. Up until recently we have tended to regard languages as bounded entities and multilingualism has been understood as knowing more than one language. Working with the concept of heteroglossia, researchers are developing alternative perspectives that treat languages as sets of resources for expressing meaning that can be drawn on by speakers in communicatively productive ways in different contexts.

These perspectives raise fundamental questions about the myriad of ways of knowing and using language s This collection brings together the contributions of many of the key researchers in the field It will provide an authoritative reference point for contemporary interpretations of heteroglossia and valuable accounts of how translanguaging can be explored and exploited in the fields of education and cultural studies Professor Constant Leung King s College London UK From rap and hip hop to taxi cabs and from classrooms to interactive online learning environments each of the chapters in this volume written by well known and up and coming scholars provide fascinating accounts drawing on a wide diversity of rich descriptive data collected in heteroglossic contexts around the globe Creese and Blackledge have brought together a compelling collection that builds upon and expands Bakhtin s construct of heteroglossia These scholars help to move the field away from the view of languages as separate bounded system by providing detailed examples and expert analyses of the ways bilinguals and multilinguals draw upon their linguistic repertoires for effective and meaningful communication Wayne E Wright University of Texas at San Antonio USA

Suresh Canagarajah,2005-01-15

This volume inserts the place of the local in theorizing about language policies and practices in applied linguistics While the effects of globalization around the world are being discussed in such diverse circles as corporations law firms and education and while the spread of English has come to largely benefit those in positions of power relatively little has been said about the impact of globalization at the local level directly or indirectly *Reclaiming the Local in Language Policy and Practice* is unique in focusing specifically on the outcomes of globalization in and among the communities affected by these changes The authors make a case for why it is important for local social practices communicative conventions linguistic realities and knowledge paradigms to actively inform language policies and practices for classrooms and communities in specific contexts and to critically inform those pertaining to other communities Engaging with the dominant paradigms in the discipline of applied linguistics the chapters include research relating to second language acquisition sociolinguistics literacy and language planning The majority of chapters are case studies of specific contexts and communities focused on situations of language teaching Beyond their local contexts these studies are important for initiating discussion of their relevance for other different communities and contexts Taken together the chapters in this book approach the task of reclaiming and making space for the local by means of negotiating with the present and the global They illuminate the paradox that the local contains complex values of diversity multilingualism and plurality that can help to reconceive the multilingual society and education for postmodern times **Bilingual Education** Jim Cummins,P. Racing Translingualism provides both theoretical and pedagogical reconsiderations of the translingual approach to language diversity by addressing the intersections of race and translingualism This collection extends the disciplinary conversations about translingualism by foregrounding the role race and racism play in the construction and maintenance of language differences In doing so the contributors examine the co naturalization of race and language in order to theorize a race conscious translingual praxis The book begins by offering generative critiques of translingualism centering on the ways in which the approach s democratic orientation to language avoids issues of race language and power and appeals to colorblind racist tropes of equal opportunity Following these critiques contributors demonstrate the important intersections of race and translingualism by drawing upon voices typically marginalized by monolingual language ideologies and pedagogies Finally

Racing Translingualism concludes by attending to the pedagogical implications of a race conscious translingual praxis in writing and literacy education Making the case for race conscious rather than colorblind theories and pedagogies Racing Translingualism offers a unique take on how translingualism is theorized and practiced and moves the field forward through its direct consideration of the links between language race and racism Contributors Lindsey Albracht Steven Alvarez Bethany Davila Tom Do Jaclyn Hilberg Bruce Horner Aja Martinez Esther Milu Stephanie Mosher Yasmine Romero Karen Rowan Rachael Shapiro Shawanda Stewart Brian Stone Victor Villanueva Missy Watson *Village And Its Discontents, The: Meaning And Criticism In Late Modernity* Antonio Leopold Rappa, 2016-07-14 The Village and Its Discontents Meaning and Criticism in Late Modernity is a hopeful collection of essays about villages in Southeast Asia and across the world The village is an idea a construct and a way of organising society Villages constitute the basic unit of analyses in the arts humanities and the social sciences and these issues are presented through the collection of essays featured in this book The contributors hope to generate interest in studying villages to understand the meanings that attach themselves to the concept of the village and to gain greater insights into multidisciplinary knowledge and analyses in today s highly developed global society
