### **Revolution And Chinese Foreign Policy:**

**Revolution and Chinese Foreign Policy** Peter Van Ness,1973 **Chinese Foreign Policy** Thomas W. Robinson, David L. Shambaugh,1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory Revolutionary Diplomacy J. D. Armstrong, 2024-06-21 From the Introduction The principal question that is posed in this study is what has been the influence of Mao s united front doctrine on China s foreign policy A related but secondary question is also considered In what ways if any has China's participation in the international system caused Peking to revise its conception of a united front in world politics Insofar as Mao's thoughts about united fronts are part of the total array of theories and operational principles that make up the Chinese communist ideology this essay considers one aspect of the relationship between ideology and foreign policy Since this guestion has long been the subject of a mostly inconclusive and often circular academic debate Armstrong states his reasons for returning to it here The first is that the problem is no less important because it admits of no easy solution Indeed with the breakdown in the twentieth century of even the limited consensus over norms and values that permitted a great power concert to exist for part of the nineteenth the question is clearly one of major significance in contemporary international relations Since China has become in many ways a symbol of the postwar ideological challenge to the established order in world politics the question is particularly relevant in a study of China's foreign policy Finally by combining a strictly limited focus of enquiry with a systematic approach to the problem it may be possible to overcome some of the analytical difficulties that surround the larger issue of the relation of ideas to social practice This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1977 Chinese Foreign Policy Robert G. Sutter, 2019-03-20 Chinese foreign policy has changed radically since the Cultural Revolution of 1966 1969 This book focuses on turning points in China's policy and looks at the influence of foreign pressures on China It assesses the impact of internal political struggles on the conduct of Chinese foreign affairs

Chinese Foreign Policy Barbara Barnouin, Yu Changgen, 2013-10-28 First published in 1998 In this study what is proposed here is first of all to examine the effect it had on the very functioning of the Chinese Ministry of Foreign Affairs and how the turmoil of the Cultural Revolution of which the country had become a victim spilled over to this highly elitist and prestigious Ministry In summary it focuses on the chaos that engulfed the institution Development of Modern Chinese Foreign Policy Thought Ivica Bakota, Zvonimir Stopić, Mato Njavro, 2024-11-15 This book presents a comprehensive exploration of China s foreign policy evolution from the early twentieth century to the contemporary era The intricate interplay between the People s Republic of China the Chinese Communist Party CCP and the global stage is meticulously

traced offering a nuanced understanding of China's dynamic engagement with the world With a detailed analysis spanning eight chapters the book delves into the contextual factors that influenced CCP s initial foreign policy ideas prior to the establishment of the People's Republic It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China's foreign policy landscape over the past three decades Utilizing primary sources and academic texts the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought making it an invaluable contribution to the study of China s global interactions. The authors uniquely bridge the gap between different stages of China's foreign policy development across a centennial timeframe offering an organic perspective on its growth and their comprehensive analysis of China's foreign policy toolset adds a distinctive dimension to existing knowledge By steering clear of preconceived notions the book delivers a well rounded analysis of China's foreign policy evolution Power and Responsibility in Chinese Foreign Policy Yongjin Zhang, Greg Austin, 2014-01-10 The People's Republic of China is now over fifty years old Long considered an outsider or a club of one in international relations China has recently become more active in international institutions Is China becoming a responsible power in global and regional international relations. How accurate is the traditional perception of China What factors may be motivating the changes in China's approach to international institutions and its perceptions of its own role in the world There is no certainty that China is becoming a more responsible power recent developments may be just another manifestation of realpolitik Power and Responsibility in Chinese Foreign Policy provides a vital insight into these issues analysing the critical issues in China's international relations China's regional and global diplomatic and security problems the changing role of the People's Liberation Army human rights religious and democratic movements and the concept of responsibility Power and Responsibility in Chinese Foreign Policy is an insightful and vital introduction to all sides Revolutionary Diplomacy. The Third

Revolution Elizabeth C. Economy, 2018-04-04 In The Third Revolution eminent China scholar Elizabeth C Economy provides

an incisive look at the transformative changes underway in China today Chinese leader Xi Jinping has unleashed a powerful set of political and economic reforms the centralization of power under Xi himself the expansion of the Communist Party s role in Chinese political social and economic life and the construction of a virtual wall of regulations to control more closely the exchange of ideas and capital between China and the outside world Beyond its borders Beijing has recast itself as a great power seeking to reclaim its past glory and to create a system of international norms that better serves its more ambitious geostrategic objectives In so doing the Chinese leadership is reversing the trends toward greater political and economic opening as well as the low profile foreign policy that had been put in motion by Deng Xiaoping's Second Revolution thirty years earlier Through a wide ranging exploration of Xi Jinping s top political economic and foreign policy priorities fighting corruption managing the Internet reforming the state owned enterprise sector improving the country's innovation capacity enhancing air quality and elevating China's presence on the global stage Economy identifies the tensions shortcomings and successes of Xi s reform efforts over the course of his first five years in office She also assesses their implications for the rest of the world and provides recommendations for how the United States and others should navigate their relationship with this vast nation in the coming years The Ashgate Research Companion to Chinese Foreign Policy Emilian Kavalski, 2016-04-01 The Ashgate Research Companion to Chinese Foreign Policy draws out the full range of topics and issues that characterise China's external affairs The volume is intended to provide an overview of Chinese foreign policy that will be relevant both to experts in the field as well as those that are just starting to grapple with Beijing's international outlook The investigation of Chinese foreign policy offered by the volume is divided into seven parts Part I focuses on the historical evolution of Chinese foreign policy by detailing the specific traditions and the altering paradigms of Beijing's external outlook proffered for the explanation and understanding of Chinese foreign policy Part II discusses the different analytical perspectives proffered for the explanation and understanding of Chinese foreign policy Part III considers the domestic sources of Chinese foreign policy Part IV analyses the international impact of Beijing's outreach Part V of the volume begins the exploration of China's relations with specific international actors Part VI investigates the regional interactions of Chinese foreign policy Part VII of the volume draws attention to several issues impacting both the practice and the understanding of Chinese foreign policy This Companion draws a vivid picture of the full spectrum of topics issues and relationships that define China s international interactions The collection therefore provides a relevant point of departure for anyone interested in learning about Beijing's external affairs Owing to the wide range of themes and ideas this volume is essential reading for students of Chinese foreign China's Ouest John W. Garver, 2015-12-01 From its founding 65 years ago the People's Republic of China has policy evolved from an important yet chaotic and impoverished state whose power was more latent than real into a great power on the cusp of possessing the largest economy in the world Its path from the 1949 revolution to the present has been filled with twists and turns including internal upheavals a dramatic break with the Soviet Union the 1989 revolution wave and various

wars and guasi wars against India the USSR Vietnam and South Korea Throughout it all international pressures have been omnipresent forcing the regime to periodically shift course In short the evolution of the PROC in world politics is an epic story and one of the most important developments in modern world history. Yet to date there has been no authoritative history of China's foreign relations John Garver's monumental China's Quest not only addresses this gap it will almost certainly serve as the definitive work on the topic for years to come Garver one of the world's leading scholars of Chinese foreign policy covers a vast amount of ground and threads a core argument through the entirety of his account domestic political concerns regime survival in particular have been the primary force driving the People's Republic's foreign policy agenda The objective of communist regime survival he argues transcends the more rudimentary pursuit of national interests that realists focus on Indeed from 1949 onward domestic politics has been integral to the PROC s foreign policy choices Over the decades the regime s decisions in the realm of international politics have been dictated concerns about internal stability In the early days of the regime Mao and other part leaders were concerned with surviving in the face of American aggression Later they came to see the post Stalinist Soviet model as a threat to their revolutionary program and initiated a stunning break with Khrushchev regime Finally the collapse of other communist regimes in and after 1989 radically altered their relationships with capitalist powers and again preserving regime stability in a world where communism has been largely abandoned became paramount China's Quest the result of over a decade of research writing and analysis is both sweeping in breadth and encyclopedic in detail Quite simply it will be essential for any student or scholar with a strong interest in China s **Foreign Relations of the PRC** Robert G. Sutter, 2018-07-12 Now in a fully updated edition this cogent but foreign policy comprehensive book examines the international relations of the People's Republic of China since its founding in 1949 Noted scholar Robert G Sutter provides a balanced assessment of the country's recent successes and advances as well as the important legacies and constraints that hamper it especially in nearby Asia long the focus of China's foreign policy attention Sutter demonstrates how Beijing has carefully created an image of a China that follows consistent policies based on morally correct principles but its record shows repeated episodes of sometime surprising change and frequent use of violence intimidation and coercion China's leaders he argues still fail to manage the desire for productive foreign relations with their aspirations to build Chinese security and sovereignty interests Image building efforts condition Chinese public and elite opinion to be extraordinarily sensitive self righteous and often alarmist in dealing with the many disputes China has with its Asian neighbors and the United States Advances that the PRC has made in other parts of the world focus mainly on commercial interests limiting its actual impact on world affairs Sutter shows readers how to use China's rise in nearby Asia as a reliable barometer of how important and effective the country will actually become internationally Revolutionary States, Leaders, and Foreign Relations Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China Cuba and Iran in the first decade of their post revolutionary periods Among a variety of

explanatory variables leadership particularly the type of revolutionary leaders played a significant role in explaining the outcome of the policymaking process in each case Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period Two Track Conflictual and Conciliatory This book is a valuable source for both experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade Making Of Foreign Policy In China A. Doak Barnett, A Doak Barnett, 2019-07-11 Until recently Westerners have not adequately understood the structure of the PRC's policymaking process in the post Mao period Dr Barnett's pathbreaking study provides comprehensive information on how China's foreign policy decisions are made The author draws not only on his past research but also on intensive interviews conducted during 1984 with a wide range of Chinese officials including Premier Zhao Ziyang academics and journalists to describe a major shift in top level decision making from the Politburo and Standing Committee to the Party Secretariat and State Council He analyzes the foreign policy roles of various specialized party and government organizations as well as the roles of key government ministries and the military establishment and discusses not only the institutions and individuals involved in the policy process but also the sources of information and analyses on which their decisions are based including major press organizations research institutions and universities Taking advantage of the new openness of both leaders and working level specialists in the PRC Dr Barnett has written the most detailed and up to date study available One of the most distinguished China experts of our time A Doak Barnett was professor of government at Columbia University and a senior fellow of the Brookings Institution He is now professor of Chinese Studies at the School of Advanced International Studies at The Johns Hopkins University **Revolution and Chinese foreign**

Jash, 2025-07-22 This book analyses China's foreign policy from 1949 to 1976 through a cognitive perceptual lens emphasise Mao Zedong's central role as the primary decision making authority Moving beyond realist frameworks it highlights how Mao sideological worldview shaped by his theory of contradictions revolutionary zeal and use of historical analogies drove China's foreign policy particularly in relation to Vietnam His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China's historical identity guided key strategic decisions. The study underscores the importance of individual leaders beliefs perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches
