Revolution At The Gates Selected Writings Of Lenin From 1917:

Revolution at the Gates V.I. Lenin, 2014-05-20 The idea of a Lenin renaissance might well provoke an outburst of sarcastic laughter Marx is OK but Lenin Doesn't he stand for the big catastrophe which left its mark on the entire twentieth century Lenin however deserves wider consideration than this and his writings of 1917 are testament to a formidable political figure They reveal his ability to grasp the significance of an extraordinary moment in history Everything is here from Lenin the ingenious revolutionary strategist to Lenin of the enacted utopia To use Kierkegaard's phrase what we can glimpse in these writings is Lenin in becoming not yet Lenin the Soviet institution but Lenin thrown into an open contingent situation In *Revolution at the Gates* Slavoj Žižek locates the 1917 writings in their historical context while his afterword tackles the key question of whether Lenin can be reinvented in our era of cultural capitalism Žižek is convinced that whatever the discussion the forthcoming crisis of capitalism the possibility of a redemptive violence the falsity of liberal tolerance Lenin's time has come again

Lenin Paul Le Blanc, 2023-09-20 A welcome gift Highlighting Lenin's flexibility and cultivation of collective leadership Le Blanc brings out the practical activism and revolutionary patience crucial to organizing the oppressed on a rapidly overheating planet Jodi Dean author of *Comrade Crackling* with intellectual life Lars T Lih author of *Lenin Rediscovered* A wonderful sketch of Lenin's life and times Perhaps the best introduction available in English Michael D Yates author of *Can the Working Class Change the World* Vladimir Lenin lies in a tomb in Moscow's Red Square History has not been kind to this Russian leader his teachings reviled by modern mainstream politics But in today's capitalist society riven by class inequality and imperialist wars perhaps it is worth returning to this communist icon's demand for Peace Land and Bread and his radical understanding of democracy Lenin was wrestling with the question of what is to be done when facing the catastrophes of his own time Against the odds the Bolshevik party succeeded in rejecting both the corrupt and decaying Romanov dynasty as well as the capitalist economic system which had started to take root in Russia To understand how this happened and what we can learn from him today Paul Le Blanc takes us through Lenin's dynamic

revolutionary thought how he worked as part of a larger collective and how he centered the labor movement in Russia and beyond uncovering a powerful form of democracy that could transform our activism today Paul Le Blanc is an activist and acclaimed American historian teaching at La Roche University Pennsylvania He is the author of many books **Revolt, Revolution, Critique** Bulent Diken,2012-03-15 In contemporary society the idea of revolution seems to have become obsolete What is more untimely than the idea of revolution today At the same time however the idea of radical change no longer refers to exceptional circumstances but has become normalized as part of daily life Ours is a culture of permanent revolution in which constant systemic disembedding demands a meta stable subjectivity in continuous transformation In this sense the idea of revolution is painfully timely This paradoxical coincidence the simultaneous absence and presence of the desire for radical change in contemporary society is the point of departure for the symptomatic reading this book offers The book addresses the social political and cultural significance of revolt and revolution in three dimensions First it analyzes revolt and revolution as events which are of history but not reducible to it Second it elaborates on theories that grant revolt and revolution a central place in their structure Thirdly it discusses revolutionary or emancipatory theories that seek to participate in radical change Further since both revolt and revolution involve the critique of what exists of actual reality the implications of the intimate relationship between revolt revolution and critique are explicated Science Fiction and the Historical Novel Ian P. MacDonald,Kate Polak,2024-09-16 If you woke to realize that you could rewrite your yesterday without knowing the kind of tomorrow it would grant you would you do it Are the authors of our destiny working with an outline or spit balling confusing plotlines Since the past changes possible futures to what alighting butterfly should we pay the most heed This book explores the liminal space between speculative fiction and the historical novel Staged as a transnational multicultural conversation it takes up a call originally made by Fredric Jameson in *Archaeologies of the Future* wherein he describes that flashpoint between speculative and historical genres as the symptom of a mutation in our relationship to historical time itself Drawing together postcolonial feminist cultural Indigenous and cognitive approaches *Science Fiction and the Historical Novel* asks what the past can offer a future oriented world and how the future can be imagined in relation to a past that seeks narratives of inevitability rather than possibility Engaged with the idea of the past as a model for the future authors in this volume probe the extent to which historical scripts delimit possibilities and how authors engaged with the practice of alternative pasts rewrite potentialities in the present *The Politics of the Wretched* Zahi Zalloua,2024-09-05 *The Politics of the Wretched* argues for ressentiment s generative negativity prompting a shift from ressentiment as a personal expression of frustration to ressentiment as a collective No Inspired by Kant and Nietzsche s philosophy Zalloua identifies two modes of deploying ressentiment private and public use by substituting ressentiment for reason This reinterpretation argues for a public use of ressentiment for the wretched to universalize their grievances to see their antagonism as cutting across societies and to turn personal trauma into a common cause A public use of ressentiment

rails against the ideology of identity and victimhood and insists on resentment's generative negativity its own rationality prompting a shift from resentment as a personal expression of frustration to resentment as a collective No Reframing resentment as a tool to oppose the evils of capitalism anti Blackness and neocolonialism it both alarms the liberal gatekeepers of the status quo and promises to energize the anti racist Left in its ongoing struggles for universal justice and emancipation

Critical design in Japan Ory Bartal, 2020-04-17 This book tells the story of critical avant garde design in Japan which emerged during the 1960s and continues to inspire designers today The practice communicates a form of visual and material protest drawing on the ideologies and critical theories of the 1960s and 1970s notably feminism body politics the politics of identity and ecological anti consumerist and anti institutional critiques as well as the concept of otherness It also presents an encounter between two seemingly contradictory concepts luxury and the avant garde The book challenges the definition of design as the production of unnecessary decorative and conceptual objects and the characterisation of Japanese design in particular as beautiful sublime or a product of Japanese culture In doing so it reveals the ways in which material and visual culture serve to voice protest and formulate a social critique

Žižek on Race Zahi Zalloua, 2020-02-20 Slavoj Žižek's prolific comments on anti-Semitism Islamophobia scapegoating popular nationalism the refugee crisis Eurocentrism the War on Terror neocolonialism global justice and rioting comprise a dizzying array of thinking But what can we pull out of his various writings and commentaries on race in the contemporary world Is there anything approaching a Žižekian philosophy of race Zahi Zalloua argues here that there is and that the often polemical style of Žižek's pronouncements shouldn't undermine the importance and urgency of his work in this area Zalloua not only examines Žižek's philosophy of race but addresses the misconceptions that have arisen and some of the perceived shortcomings in his work to date Žižek on Race also puts Žižek in dialogue with critical race and anti colonial studies dwelling on the sparks struck up by this dialogue and the differences gaps and absences it points up Engaging Žižek's singular contribution to the analysis of race and racism Žižek on Race both patiently interrogates and critically extends his direct comments on the topic developing more fully the potential of his thought In a response to the book Žižek boldly reaffirms his theoretical stance clarifying further his often difficult to work out positions on some of his more controversial pronouncements

Thinking Freedom in Africa Michael Neocosmos, 2016-12-01 Thinking Freedom in Africa conceives an emancipatory politics beginning from the axiom that people think Previous ways of conceiving the universal emancipation of humanity have in practice ended in failure Marxism anti colonial nationalism and neo liberalism all understand the achievement of universal emancipation through a form of state politics Marxism which had encapsulated the idea of freedom for most of the twentieth century was found wanting when it came to thinking emancipation because social interests and identities were understood as simply reflected in political subjectivity which could only lead to statist authoritarianism Neo liberalism and anti colonial nationalism have also both assumed that freedom is realizable through the state and have been equally authoritarian in their relations to those they have

excluded on the African continent and elsewhere Thinking Freedom in Africa then conceives emancipatory politics beginning from the axiom that people think In other words the idea that anyone is capable of engaging in a collective thought practice which exceeds social place interests and identities and which thus begins to think a politics of universal humanity Using the work of thinkers such as Alain Badiou Jacques Ranci re Sylvain Lazarus Frantz Fanon and many others along with the inventive thought of people themselves in their experiences of struggle the author proceeds to analyse how Africans themselves with agency of their own have thought emancipation during various historical political sequences and to show how emancipation may be thought today in a manner appropriate to twenty first century conditions and concerns

The Rise of Lifestyle Activism Nikos Sotirakopoulos,2016-10-13 This book explores changes in the values and ideas of a large part of the political Left in recent decades The author identifies that a questioning of the merits of economic growth an ideal of environmental sustainability overriding the old radical visions of material abundance a critique of instrumental reason a suspiciousness towards universalist claims and an attachment to subjective and pluralistic identities have been dominant in the narratives of the Leftist milieu and of social movements Yet the author suggests that such changes known as lifestyle activism could be understood in a different way one characterised by suspiciousness towards the belief that human action guided by reason can lead society towards a future that will be better and more affluent Using a range of case studies from the 1960 s to the present day anti austerity movement Sotirakopoulos argues that the New Left and its ideological heirs could be understood not so much as a continuation but as an inversion from the Old Left and most importantly from humanistic visions of modernity The book will therefore be ideal reading for students and researchers of political sociology radical politics modern political ideologies contentious politics and political theory and to scholars of new social movements and the New Left

Deleuze and World Politics Peter Lenco,2013-07-03 The central argument of this book is that the univocal ontology and corresponding immanent metaphysics of the French philosopher Gilles Deleuze 1925 1995 can provide a theoretical perspective capable of accounting for the complex nature of world politics Drawing on a wide variety of Deleuze s writings it develops a thorough investigation of his ontology and metaphysics as they pertain to core questions of world politics such as power identity hierarchy space time territory and the state The book explores the dynamics of contemporary world politics and issues by focusing on the anti or alter globalization movement AGM It analyses several approaches to social and political theory which deal explicitly with the AGM including global governance theory international relations social movement theory Marxism and post Marxism These are contrasted with a larger Deleuzian theory which can be of use when addressing the diffuse and often paradoxical aspects of world politics Deleuze s work poses a major challenge to traditional understanding of global politics and this book will be of considerable interest to those with an interest in social and political theory critical international relations and globalization studies

The Crisis of Capitalism in the Contemporary Novel Andrew Rowcroft,2024-02-16 This book explores the role of radical ideas in contemporary fiction by nine critically

acclaimed authors Jonathan Lethem Dana Spiotta China Mieville Thomas Pynchon Rachel Kushner Teddy Wayne Colson Whitehead Jacqueline Woodson and Kim Stanley Robinson All of them share interests in the politics of the left the problems of protracted economic crisis and the potentiality of post capitalist ideas Novels by these authors this book argues are defined by an imperative to confront current anxieties in left thought while at the same time evincing a nuanced degree of self consciousness about the legacy of political radicalisms the costs they accrue and where they have led

Theory Across Disciplines Jeffrey R. Di Leo, 2025-08-07 Surveying the extraordinary scope of contemporary theory Jeffrey R Di Leo brings together contributors from around the world to speak to the ways in which theoretical concerns from a variety of disciplines operate within their respective fields of concern Contemporary theory is a multi and inter disciplinary endeavour that operates within and among the humanities the social sciences and many of the professions In addition to its now somewhat more standard fare work in these areas it has also made substantial inroads into the natural sciences and the formal sciences To be sure more disciplines from across the academy have integrated theory into their practice than at any other time in history Di Leo and his fellow contributors survey the workings of contemporary theory within and among the humanities sciences and professions including contributions on literary studies film studies gender studies visual art law biology and geology They bring together distinguished theorists whose work spans the academy to speak to the ways in which theoretical concerns from a variety of disciplines work within their respective fields of concern

Teaching Against Global Capitalism and the New Imperialism Peter McLaren, Ramin Farahmandpur, 2005 This book will address a number of urgent themes in education today that include multiculturalism the politics of whiteness the globalization of capital neoliberalism postmodernism imperialism and current debates in Marxist social theory The above themes will be linked to critical educational praxis particularly to teaching activities within urban schools Finally the book will develop the basis for a wider political project directed at resisting and transforming economic exploitation cultural homogenization political repression and gender inequality Recent and widespread scholarly attention has been given to the unabated mercilessness of global capitalism Little opposition exists as capital runs amok unhampered and undisturbed by the tectonic upheaval that is occurring in the geopolitical landscape that has recently witnessed the collapse of the Soviet Union and the regimes of the Eastern Bloc As we examine education policies within the context of economic globalization we attempt to address the extent to which the pedagogy and politics of everyday life has fallen under the sway of what we identify as cultural and economic imperialism Finally the book raises a number of urgent questions What are the current limitations to educational reform efforts among the educational left What are some of the problems associated with certain developments within postmodern education How can a return to Marxist theory and revolutionary politics revitalize the educational left at a time when capitalism appears to be unstoppable What actions need to be taken in both local and global arenas to overcome the exploitation that the globalization of capital has wreaked upon the world

William Gibson and the Future of

Contemporary Culture Mitch R. Murray, Mathias Nilges, 2021-03-15 William Gibson is frequently described as one of the most influential writers of the past few decades yet his body of work has only been studied partially and without full recognition of its implications for literature and culture beyond science fiction It is high time for a book that explores the significance and wide ranging impact of Gibson's fiction In the 1970s and 80s Gibson the Godfather of Cyberpunk rejuvenated science fiction In groundbreaking works such as *Neuromancer* which changed science fiction as we knew it Gibson provided us with a language and imaginary through which it became possible to make sense of the newly emerging world of globalization and the digital and media age Ever since Gibson's reformulation of science fiction has provided us not just with radically innovative visions of the future but indeed with trenchant analyses of our historical present and of the emergence and exhaustion of possible futures Contributors Maria Alberto Andrew M Butler Amy J Elias Christian Haines Kylie Korsnack Mathias Nilges Malka Older Aron Pease Lisa Swanstrom Takayuki Tatsumi Sherryl Vint Phillip E Wegner Roger Whitson Charles Yu

Solidarity and the Palestinian Cause Zahi Zalloua, 2023-01-12 Zahi Zalloua provides the first examination of Palestinian identity from the perspective of Indigeneity and Critical Black Studies Examining the Palestinian question through the lens of settler colonialism and Indigeneity this timely book warns against the liberal approach to Palestinian Indigeneity which reinforces cultural domination and urgently argues for the universal nature of the Palestinian struggle Foregrounding Palestinian Indigeneity reframes the Palestinian Israeli conflict as a problem of wrongful dispossession a historical harm that continues to be inflicted on the population under the brutal Occupation of the West Bank and Gaza At the same time in a global context marked by liberal democratic ideology such an approach leads either to liberal tolerance the minority is permitted to exist so long as their culture can be contained within the majority order or racial separatism that is appeals for national independence typically embodied in the two state solution *Solidarity and the Palestinian Cause* not only insists that any analysis of Indigeneity's purchase must keep this problem of translation in mind but also that we must recast the Palestinian struggle as a universal one As demonstrated by the Palestinian support for such movements as Black Lives Matter and the reciprocal support Palestinians receive from BLM activists the Palestinian cause fosters a solidarity of the excluded This solidarity underscores the interlocking global struggles for emancipation from racial domination and economic exploitation Drawing on key Palestinian voices including Edward Said and Larissa Sansour as well as a wide range of influential philosophers such as Slavoj Žižek Frantz Fanon and Achille Mbembe Zalloua brings together the Palestinian question Indigeneity and Critical Black Studies to develop a transformative anti racist vision of the world

Subject Lessons Russell Sbriglia, Slavoj Žižek, 2020-02-15 Responding to the ongoing objectal turn in contemporary humanities and social sciences the essays in *Subject Lessons* present a sustained case for the continued importance indeed the indispensability of the category of the subject for the future of materialist thought Approaching matters through the frame of Hegel and Lacan the contributors to this volume including the editors as well as Andrew Cole Mladen Dolar Nathan

Gorelick Adrian Johnston Todd McGowan Bornha Radnik Molly Anne Rothenberg Kathryn Van Wert and Alenka Zupan i many of whom stand at the forefront of contemporary Hegel and Lacan scholarship agree with neovitalist thinkers that material reality is ontologically incomplete in a state of perpetual becoming yet they maintain that this is the case not in spite of but rather because of the subject Incorporating elements of philosophy psychoanalysis and literary and cultural studies Subject Lessons contests the movement to dismiss the subject arguing that there can be no truly robust materialism without accounting for the little piece of the Real that is the subject

A New German Idealism Adrian Johnston, 2018-05-01 In 2012 philosopher and public intellectual Slavoj i ek published what arguably is his magnum opus the one thousand page tome *Less Than Nothing* Hegel and the Shadow of Dialectical Materialism A sizable sequel appeared in 2014 *Absolute Recoil* Towards a New Foundation of Dialectical Materialism In these two books i ek returns to the German idealist G W F Hegel in order to forge a new materialism for the twenty first century i ek s reinvention of Hegelian dialectics explores perennial and contemporary concerns humanity s relations with nature the place of human freedom the limits of rationality the roles of spirituality and religion and the prospects for radical sociopolitical change In *A New German Idealism* Adrian Johnston offers a first of its kind sustained critical response to *Less Than Nothing* and *Absolute Recoil* Johnston a leading authority on and interlocutor of i ek assesses the recent return to Hegel against the backdrop of Kantian and post Kantian German idealism He also presents alternate reconstructions of Hegel s positions that differ in important respects from i ek s version of dialectical materialism In particular Johnston criticizes i ek s deviations from the secular naturalism and Enlightenment optimism of his chosen sources of inspiration not only Hegel but Karl Marx and Sigmund Freud too In response Johnston develops what he calls transcendental materialism an antireductive and leftist materialism capable of preserving and advancing the core legacies of the Hegelian Marxian and Freudian traditions central to i ek
