## **Revolution Unending Afghanistan 1979 To Present:**

**Revolution unending : Afghanistan: 1979 to the present** Gilles Dorronsoro,2005      **Revolution Unending** Gilles Dorronsoro,2005-03-02 Having traveled and researched in Afghanistan since 1988 Gilles Dorronsoro has developed a rich and nuanced understanding of the country s history and people In *Revolution Unending* he draws on his extensive firsthand experience to consider the political historical economic and ethnic factors that will influence Afghanistan s future He argues that U S optimism about Afghanistan following Western intervention and recent elections fails to appreciate the divisions that continue to define the country While not underestimating the oft cited ethnic factor in Afghan politics especially Pashtun dominance Dorronsoro argues that class and the competition for employment and education are key factors in explaining the country s recent past The 1990s saw the triumph of religious authorities the ulema and the marginalization of the traditional elites With coalition intervention in 2001 and the subsequent deposition of the ulema dominated Taliban the educated elites are back in power However as Dorronsoro argues patching up the country by means of short term ethnic alliances and a new division of the spoils will only perpetuate the schisms in society The Afghan civil war Dorronsoro suggests is set to continue and perhaps worsen over time

**Institutional Supports for the International Rule of Law** Charles Sampford,Ramesh Thakur,2014-08-27 The rule of law is widely seen as the cornerstone of any effective polity and increasingly a vital component of the international political system If the international rule of law were to be strengthened it would greatly contribute to trade security human rights and global cooperation in a range of fields Yet in many areas the rule of law seems almost absent in international affairs This book explores the institutions that support the effectiveness of the rule of law domestically It focuses on the extent to which similar institutions already exist at international level and analyses the possibility of their further development The authors speculate on how the international rule of law might be advanced in the future thereby suggesting potential strategies for strengthening the international rule of law Adopting an interdisciplinary approach and combining the fields of international relations politics and law this book covers a range institutions including UN Security Council International Court of Justice Human rights machinery Regional human rights International Criminal Court World Trade Organization International Tribunal for the Law of the Sea UN Department of

**Storming the World Stage** Stephen Tankel, 2014-01-16 Lashkar e Taiba is among the most powerful militants groups in South Asia and increasingly viewed as a global terrorist threat on par with al Qaeda Considered Pakistan's most powerful proxy against India the group gained public prominence after its deadly ten person suicide assault on Mumbai in November 2008 By the time the last Lashkar terrorist was dead after nearly 60 hours it appeared the world was facing a new menace Boasting transnational networks stretching across several continents there has been serious debate since 9 11 of whether Lashkar is an al Qaeda affiliate The deliberate targeting of Westerners and Jews during the Mumbai attacks raised questions about whether Lashkar was moving deeper into al Qaeda's orbit and perhaps on a trajectory to displace Osama bin Laden's network as the next major global jihadi threat Lashkar's expansion has serious security implications for India Pakistan Europe and the United States and its activities threaten to damage US Pakistan relations Despite growing calls for action Pakistan is yet to take any serious steps toward dismantling Lashkar for fear of drawing it further into the insurgency raging there and because of its continued utility against India More than a militant outfit Lashkar also controls a vast infrastructure that delivers necessary social services to the Pakistani populace making it all the more difficult to dismantle Storming the World Stage traces the evolution of Lashkar e Taiba over more than two decades to illustrate how the group grew so powerful and to assess the threat it poses to India the West and to Pakistan itself The first English language book ever written about Lashkar it draws on in depth field research including interviews with senior Lashkar leaders rank and file members and officials of the Pakistani security services some of who have helped nurture the group over the years

The Elgar Companion to Post-Conflict Transition Hans-Joachim Giessmann, Roger Mac Ginty, Beatrix Austin, Christine Seifert, 2018-08-31 What are the main drivers of political transition and regime change And to what extent do these apparently seismic political changes result in real change These questions are the focus of this comparative study written by a mix of scholars and practitioners This state of the art volume identifies patterns in political transitions but is largely unconvinced that these transitions bring about real change to the underlying structures of society Patriarchy land tenure and economic systems often remain immune to change despite the headlines

[Alliance Formation in Civil Wars](#) Fotini Christia,2012-11-12 Some of the most brutal and long lasting civil wars of our time involve the rapid formation and disintegration of alliances among warring groups as well as fractionalization within them It would be natural to suppose that warring groups form alliances based on shared identity considerations such as Christian groups allying with Christian

groups but this is not what we see Two groups that identify themselves as bitter foes one day on the basis of some identity narrative might be allies the next day and vice versa Nor is any group however homogeneous safe from internal fractionalization Rather looking closely at the civil wars in Afghanistan and Bosnia and testing against the broader universe of fifty three cases of multiparty civil wars Fotini Christia finds that the relative power distribution between and within various warring groups is the primary driving force behind alliance formation alliance changes group splits and internal group takeovers

*Afghanistan* Niamatullah Ibrahimi, William Maley, 2019-11-28 This book offers an overview of the formation of the Afghan state and of the political economic challenges and international relations of contemporary Afghanistan It opens with an account of some of the key features that make Afghanistan unique and proceeds to discuss how the Afghan state acquired a distinctive character as a rentier state In addition the authors outline a complex range of domestic and external factors that led to the breakdown of the state and how that breakdown gave rise to a set of challenges with which Afghan political and social actors have been struggling to deal since the 2001 international intervention that overthrew the anti modernist Taliban regime It then presents the different types of politics that Afghanistan has witnessed over the last two decades examines some of the most important features of the Afghan economy and demonstrates how Afghanistan's geopolitical location and international relations more broadly have complicated the task of promoting stability in the post 2001 period It concludes with some reflections on the factors that are likely to shape Afghanistan's future trajectory and notes that if there are hopes for a better future they largely rest on the shoulders of a globalised generation of younger Afghans This book will be of interest to students and scholars in the fields of Middle East and Central Asian studies international relations politics development studies and history

Gender, Governance and Islam Deniz Kandiyoti, 2019-08-05 Following a period of rapid political change both globally and in relation to the Middle East and South Asia this collection sets new terms of reference for an analysis of the intersections between global state non state and popular actors and their contradictory effects on the politics of gender The volume charts the shifts in academic discourse and global development practice that shape our understanding of gender both as an object of policy and as a terrain for activism Nine individual case studies systematically explore how struggles for political control and legitimacy determine both the ways in which dominant gender orders are safeguarded and the diverse forms of resistance against them
