Revolution Plus Love Liu Jianmei, 2003-09-30 In the aftermath of the May Fourth movement a growing expectation of revolution raised important intellectual issues about the position of the individual within a society in turmoil and the shifting boundaries of political and sexual identities The theme of revolution plus love a literary response to the widespread insurrections and upheaval was first popularized in the late 1920s In her examination of this popular but understudied literary formula Liu Jianmei argues that revolution and love are culturally variable entities their interplay a complex and constantly changing literary practice that is socially and historically determined Liu looks at the formulary writing of revolution plus love from the 1930s to the 1970s as a case study of literary politics Favored by leftist writers during the early period of revolutionary literature it continued to influence mainstream Chinese literature up to the 1970s By drawing a historical picture of the articulation and rearticulation of this theme Liu shows how changes in revolutionary discourse force unpredictable representations of gender rules and power relations and how women s bodies reveal the complex interactions between political representation and gender roles *Revolution Plus Love* is a nuanced and carefully considered work on gender and modernity in China unmatched in its broad use of literary resources It will be of considerable interest to scholars and students of modern Chinese literature women s studies cultural studies and comparative literature Revolution and the Christian Faith Vernon C. Grounds, 2007-05-01 In this stirring book Grounds has ably sketched the background against which the theology of revolution has emerged Grounds puts it this way I have sought to let the critics of the Establishment Christian and secular alike present in their own words the case for revolutionary change I have also sought to let the revolutionary theologians set forth their interpretation of Christianity in detail Quite literally I have allowed them to speak for themselves I have sought further to let Christian scholars who dissent from this new theology engage its proponents in

debate Very heavily I have drawn upon the work of Jacques Ellul the towering French sociologist who is rapidly gaining in the United States the attention and respect which his rare fusion of professional distinction intellectual power and biblical commitment deserves I shall feel amply regarded if through these pages he wins a wider readership among American evangelicals An additional purpose has been to confront my own ecclesiastical tradition that of Protestant orthodoxy with the inexpressibly pressing need of permitting the anguish of our world to drive theological conservatism back to a New Testament discipleship which is nothing less than revolutionary

Tough Love Cynthia Burack,2014-02-01 Exposes how ex gay and postabortion ministries operate on a shared system of thought and analyzes their social implications A staple of the culture wars the struggle between Christian conservatives and progressives over sexuality and reproductive rights continues Focusing on ex gay ministries geared to helping same sex attracted people resist their sexuality and postabortion ministries dedicated to leading women who have had an abortion to repent that decision Cynthia Burack argues that both are motivated and characterized by a strain of compassion that is particular to Christian conservatism rather than a bias and hatred toward sexual minorities and sexually active women This compassion reproduces the sexual ideology of the Christian right and absolves Christian conservatives from responsibility for stigma and other forms of harm to postabortive and same sex attracted people Using the democratic theory of Hannah Arendt the popular fiction of Ayn Rand and the psychoanalytic thought of Melanie Klein Burack studies the social and political effects of Christian conservative compassion
