Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review [Cultural Memories of Nonviolent Struggles](#) A. A. Smith,2014-01-09 The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding **Books Are Weapons** Siobahn Doucette,2018-03-07 Much attention has been given to the role of intellectual dissidents labor and religion in the historic overthrow of communism in Poland during the 1980s *Books Are Weapons* presents the first English language study of that which connected them the press Siobhan Doucette provides a comprehensive examination of the Polish opposition s independent often underground press and its crucial role in the events leading to the historic Round Table and popular elections of 1989 While other studies have emphasized the role that the Solidarity movement played in bringing about civil society in 1980 1981 Doucette instead argues that the independent press was the essential binding element in the establishment of a true civil society during the mid to late 1980s Based on a thorough investigation of underground publications and interviews with important activists of the period from 1976 to 1989 Doucette shows how the independent press rooted in the long Polish tradition of well organized resistance to foreign occupation reshaped this tradition to embrace nonviolent civil resistance while creating a network that evolved from a small group of dissidents into a broad opposition movement with cross national ties and millions of sympathizers It was the galvanizing force in the resistance to communism and the rebuilding of Poland s democratic society *Contemporary Perspectives in Critical and Social Philosophy* J. Rundell,et al,2005-01-01 This volume is also published as

Saving Nature Under Socialism Julia E. Ault,2021-09-09 When East Germany collapsed in 1989 1990 outside observers were shocked to learn the extent of environmental devastation that existed there The communist dictatorship however had sought to confront environmental issues since at least the 1960s Through an analysis of official and oppositional sources Saving Nature Under Socialism complicates attitudes toward the environment in East Germany by tracing both domestic and transnational engagement with nature and pollution The communist dictatorship limited opportunities for protest so officials and activists looked abroad to countries such as Poland and West Germany for inspiration and support Julia Ault outlines the evolution of environmental policy and protest in East Germany and shows how East Germans responded to local degradation as well as to an international moment of environmental reckoning in the 1970s and 1980s The example of East Germany thus challenges and broadens our understanding of the greening of post war Europe and illuminates a larger central European understanding of connection across the Iron Curtain
