Revolutionaries in the Theater Christine Olga Kiebuszinska, 1985 **Brecht at the Opera** Joy H. Calico, 2023-09-01

From an award winning author the first thorough examination of the important influence of opera on Brecht's writings Brecht at the Opera looks at the German playwright's lifelong ambivalent engagement with opera An ardent opera lover in his youth Brecht later denounced the genre as decadent and irrelevant to modern society even as he continued to work on opera projects throughout his career He completed three operas and attempted two dozen more with composers such as Kurt Weill Paul Hindemith Hanns Eisler and Paul Dessau Joy H Calico argues that Brecht's simultaneous work on opera and Lehrstück in the 1920s generated the new concept of audience experience that would come to define epic theater and that his revisions to the theory of Gestus in the mid 1930s are reminiscent of nineteenth century opera performance practices of mimesis From an award winning author the first thorough examination of the important influence of opera on Brecht's writings Brecht at the Opera looks at the German playwright's lifelong ambivalent engagement with opera An ardent opera lover in his youth Brecht

Gombrowicz, Polish Modernism, and the Subversion of Form Michael Goddard, 2010 Gombrowicz Polish Modernism and the Subversion of Form provides a new and comprehensive account of the writing and thought of the Polish writer Witold Gombrowicz While Gombrowicz is probably the key Polish modernist writer with a stature in his native Poland equivalent to that of Joyce or Beckett in the English language he remains little known in English As well as providing a commentary on his novels plays and short stories this book sets Gombrowicz's writing in the context of contemporary cultural theory The author performs a detailed examination of Gombrowicz's major literary and theatrical work showing how his conception of form is highly resonant with contemporary postmodern theories of identity This book is the essential companion to one of Eastern Europe's most important literary figures whose work banned by the Nazis and suppressed by Poland's Communist government has only recently become well

known in the West *The Great Tradition and Its Legacy* Michael Cherlin, Halina Filipowicz, Richard L. Peter Lorre: Face Maker Sarah Thomas, 2012-02-01 Peter Lorre described himself as merely a face maker His own negative attitude also characterizes traditional perspectives which position Lorre as a tragic figure within film history the promising European artist reduced to a Hollywood gimmick unable to escape the murderous image of his role in Fritz Lang's *M* This book shows that the life of Peter Lorre cannot be reduced to a series of simplistic oppositions It reveals that despite the limitations of his macabre star image Lorre's screen performances were highly ambitious and the terms of his employment were rarely restrictive Lorre's career was a complex negotiation between transnational identity Hollywood filmmaking practices the ownership of star images and the mechanics of screen performance

Gender and Trauma Fatima Fetić, 2011-11-15 This volume presents eight integrated essays that explore the intersection of the scholarly fields of gender and trauma combining work that can broadly be located in the subject areas of literary studies the humanities and the social sciences The contributors search for a more comprehensive theoretical ground to analyze the overlapping inter agency and also the lines that separate the issues of gender and trauma to establish a more political linking of the materiality of the effects of trauma to the performativity of gender as well as to examine the ways in which the categories of sex sexual difference and sexual identity figure within such a relationship Likewise our discussion is guided by the increasing awareness of the cross cultural delineation dynamics and translatability of these fields the awareness that facilitates the understanding of the instances of their interference in the rhetoric of a dominant culture and in dominant societal structures This specific input which refers to structurally quite comparable identity formations or to their prevention and also to complex terms of symbolic legitimacy and intelligibility is the attainment of a joined intercultural and interdisciplinary work on some of the key concerns we are confronting today
