Schools for Statesmen Andrew H. Browning, 2022-06-16 Whatever Principles are imbibed at College will run thro a

Man's whole future Conduct William Livingston signer of the Constitution Schools for Statesmen explores the fifty five individual Framers of the Constitution in close detail and argues that their different educations help explain their divergent positions at the 1787 Constitutional Convention Those educations ranged from outlawed Irish hedge schools to England's venerable Inns of Court from the grammar schools of New England to ambitious new academies springing up on the Carolina frontier The more traditional schools that focused on Greek and Latin classics Oxford Harvard Yale William and Mary were deeply conservative institutions resistant to change But the Scottish colleges and the newer American schools Princeton Philadelphia King's College introduced students to a Scottish Enlightenment curriculum that fostered more radical forward thinking leaders Half of the Framers had no college education and were often self taught or had private tutors most were quiet at the convention although a few stubbornly opposed the new ideas they were hearing Nearly all the delegates who took the lead at the convention had been educated at the newer innovative colleges but of the seven who rejected the new Constitution three had gone to the older traditional schools while three others had not gone to college at all Schools for Statesmen is an unprecedented analysis of the sharply divergent educations of the Framers of the Constitution It reveals the ways in which the Constitutional Convention rather than being a counterrevolution by conservative elites was dominated by forward thinking innovators who had benefited from the educational revolution beginning in the mid eighteenth century Andrew Browning offers a new and persuasive explanation of key disagreements among the Framers and the process by which they were able to break through the impasse that threatened the convention he provides a fresh understanding of the importance of education in what has been called the Critical Period of US history Schools for Statesmen takes a deep dive into the diverse educational world of the eighteenth century and sheds new light on the origins of the US Constitution

Mao Cult Daniel Leese,2011-10-31 Although many books have explored Mao s posthumous legacy none has scrutinized the massive worship that was fostered around him during the Cultural Revolution This book is the first to do so By analyzing secret archival documents Daniel Leese traces the history of the cult within the Communist Party and at the grassroots level The party leadership s original intention was to develop a prominent brand symbol which would compete with the nationalists elevation

of Chiang Kai shek However they did not anticipate that Mao would use this symbolic power to mobilize Chinese youth to rebel against party bureaucracy itself The result was anarchy and when the army was called in it relied on mandatory rituals of worship such as daily reading of the Little Red Book to restore order Such fascinating detail sheds light not only on the personality cult of Mao but also on hero worship in other traditions Of Colleges and Kings Peter Sammartino,1985
