Silk-Screen Printing for Artists and Craftsmen Mathilda V. and James A. Schwalbach, 2012-07-26 Screen printing is simple enough for a child or beginner, but it is also a favorite printing process of experienced artists and craftspeople. It allows for a wide range of creative possibilities. It is less inhibiting than other printing processes. And contrary to most other methods of printing, it does not require the user to make the mental translations of a reversed image. The extreme versatility of the medium has opened completely new possibilities for design and expression in both serigraphy art prints and textile designs. The Schwalbachs' book clearly explains how to employ silk screen printing in both of these areas, producing a serigraph and making a fabric print. It also sets down all of the steps involved in constructing a printing board and frame, keying the screen, preparing inks or dyes, and printing the color runs, plus a list of various problems that might turn up and their solutions. Other facets discussed include the best ways of cleaning up, handling the completed print, and working with different resists, paper, blockout, washout, photo emulsion. There is

even a special print project for the beginner using a cardboard frame and school tempera paint Nearly 200 diagrams and photographs including 19 in full color make a clear text even clearer and offer examples of completed prints The Schwalbachs taught silk screen printing for many years at the University of Wisconsin They know how to communicate the essence of this craft in the best manner possible With their book as a guide anyone can quickly master the techniques of silk screening printing *Celtic Hand Stroke by Stroke* Arthur Baker,1983-04-01 A complete stroke by stroke guide to producing Celtic calligraphy Learn how to create each letter of the alphabet in the age old Celtic manner Crystal clear instructions also cover pens inks work surface paper and lines how to hold the pen and more 38 full page plates plus 8 illustrations *Modern Sculpture Reader* Jon Wood,David Hulks,Alex Potts,2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture s radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture s physical properties and conditions of display both of which have important implications for the viewer s tactile and emotional interaction with sculptural works
