Ebinger, Constantine Christopher Menges, Edward Luttwak, John F. Lehman, Kenneth A. Myers, Roger Morgan, Sean Kelly, Yoram Shapira, Frank T. J. Bray, 1978 **NATO's Southern Allies** John Chipman, 2004-01-14 This book analyses the internal sources of foreign policy within those NATO states whose primary security concerns lie in the southern area of the Alliance It takes a careful look at foreign and defence policy formulation and assesses the special perspective of each of these countries in turn and the military threats that they face Attention is paid to the role of the military in society especially in the geographically peripheral states as the Alliance seeks to adapt to a possible shift southward of some of its security concerns A full understanding of the politics in each of these states is essential to determine the relative importance of national and Alliance priorities in each country as the tensions between external policies and internal necessities increase The book offers an assessment of evolving security requirements in the southern region and of the capacity of NATO Mediterranean states to deal individually and collectively with the changing situation The Soviet Naval Threat To Europe Bruce W. Watson, Susan M Watson, 2020-01-09 Originally published in 1989 Given the events of 1987 and 1988 the death of Admiral Sergei G Gorshkov who had served as Commander in Chief of the Soviet Navy from 1956 to 1985 and was so influential in the development of the current Soviet Navy the Soviet policy of glasnost the U S Soviet arms negotiations Secretary Mikhail Gorbachev's visit to Washington President Ronald Reagan's visit to Moscow and the treaty concerning intermediate range nuclear weapons a study of the Soviet naval threat to Europe is particularly timely This study begins by examining Soviet military and naval strategy which provides a view of how the Soviets intend to use their forces Then the book explores Soviet naval capabilities and operations because a full understanding of Soviet naval power provides an understanding of the isolation that Europeans often feel In the fourth and fifth sections of the book we examine the threat to northern and southern Europe *Strategy and History* Edward Luttwak, 1985-01-01 *The Mediterranean Region* Giacomo Luciani, 2022-02-14 First published in 1984 The Mediterranean Region considers the broad economic and political problems facing the region from a variety of perspectives The book features the work of international experts on the Mediterranean region It discusses the changing legal environment and covers the Law of the Sea as applied to the Mediterranean and the position of the Arab countries in the region Chapters are also devoted to exploring the different policies of Russia the United States and Europe towards the Mediterranean The Mediterranean Region is a detailed contribution to research and understanding of the area **Choosing War** Douglas Carl Peifer, 2016-06-08 Throughout US history presidents have had vastly different reactions to naval incidents Though some incidents have been resolved diplomatically others have escalated

to outright war What factors influence the outcome of a naval incident especially when calls for retribution mingle with recommendations for restraint Given the rise of long range anti ship and anti air missile systems coupled with tensions in East Asia the Persian Gulf and the Black and Baltic Seas the question is more relevant than ever for US naval diplomacy In *Choosing War* Douglas Carl Peifer compares the ways in which different presidential administrations have responded when American lives were lost at sea He examines in depth three cases the Maine incident 1898 which led to war in the short term the Lusitania crisis 1915 which set the trajectory for intervention and the Panay incident 1937 which was settled diplomatically While evaluating Presidents William McKinley Woodrow Wilson and Franklin Delano Roosevelt s responses to these incidents Peifer lucidly reflects on the options they had available and the policies they ultimately selected The case studies illuminate how leadership memory and shifting domestic policy shape presidential decisions providing significant insights into the connections between naval incidents war and their historical contexts Rich in dramatic narrative and historical perspective *Choosing War* offers an essential tool for confronting future naval crises
