Search For Peace Settlements:

The Search for Peace Settlements Brookings Institution. International Studies Group, Redvers Opie, 1951 *In Search of a Peace Settlement* M. Gat, 2012-06-28 This is the first examination of the Israeli and Egyptian peace process between 1967-1973 which highlights the rise and fall of Soviet influence after the Six Day War and explores how the increasing importance of America's political leadership affected the region [The Search for Peace Settlements](#) Redvers Opie, 1931 **International Studies Group** Brookings Institution, 1951 **International Law and Peace Settlements** Marc Weller, Mark Retter, Andrea Varga, 2021-02-04 International Law and Peace Settlements provides a systematic and comprehensive assessment of the relationship between international law and peace settlement practice across core settlement issues e.g. transitional justice, human rights, refugees, self-determination, power sharing and wealth sharing. The contributions address key cross-cutting questions on the legal status of peace agreements, the potential for developing international law and the role of key actors such as non-state armed groups, third state witnesses and guarantors and the UN Security Council in the legalisation and internationalisation of settlement commitments. In recent years, significant scholarly work has examined facets of the relationship between international law and peace settlements through concepts such as jus post bellum and lex pacificatoria. International Law and Peace Settlements drives forward the debate on the legalisation and internationalisation of peace agreements with diverse contributions from leading academics and practitioners in international law and conflict resolution **Negotiating Arab-Israeli Peace** Laura Zittrain Eisenberg, Neil Caplan, 2025-04-22 Fifteen years since the publication of its second edition, this foundational text in the history of Arab-Israeli peacemaking endeavors has been updated to include developments from the past twenty-five years. Thoroughly revised and expanded, the third edition of *Negotiating Arab-Israeli Peace* examines the history of recurrent efforts to resolve the Arab-Israeli conflict since the 1970s and identifies a pattern of negative negotiating behaviors that repeatedly derail peacemaking efforts. In addition to updating all of the book's existing chapters with post-2010 sources and developments, authors Eisenberg and Caplan have added new chapters on the Arab Peace Initiative, the Annapolis Conference, the Kerry mission, and the Abraham Accords, as well as a conclusion that questions several core notions regarding the nature of the conflict, the possibility of its resolution, Arab-Israeli normalization, and the viability of the two-state solution. An epilogue extends the book's framework into present-day crises in the region, specifically Hamas's 7 October 2023 attack on Israel and Israel's war against Hamas in Gaza. A companion website comprises nine appendices, among them 145 primary source documents, expanded notes, links to websites for maps, data, and analysis, peace activities, and additional visual and documentary sources. Also online is a robust instructor's guide offering supplementary resources and ideas for assignments, research, and classroom exercises, all of which draw upon and complement the themes running throughout the text. By measuring contemporary diplomatic episodes against the historical pattern of counterproductive negotiating habits, *Negotiating Arab-Israeli Peace* makes possible a coherent comparison of

some eighty years of Arab Israeli negotiations and offers readers a framework with which to assess the relative strengths and weaknesses of peace making attempts past present and future
