structure and how it conditions the individual The emphasis in his talks and writings is on the psychological barriers that prevent clarity of perception Because his subject is all embracing the Collected Works which are in 18 Volumes are of compelling interest Within his talks in any one year Krishnamurti was not able to cover the whole range of his vision but broad amplifications of particular themes are found throughout these volumes In them he lays the foundations of many of the concepts he used in later years The Collected Works contain Krishnamurti s previously published talks discussions answers to specific questions and writings for the years 1933 through 1967 They are an authentic record of his teachings taken from transcripts of verbatim shorthand reports and tape recordings Jiddu Krishnamurti was born in 1895 of Brahmin Parents in South India At the age of fourteen he was proclaimed the coming World Teacher by Annie Besant then President of the Theosophical Society an international organization that emphasized the unity of world religions Mrs Besant adopted the boy and took him to England where he was educated and prepared for his coming role In 1911 a new worldwide organization was formed with Krishnamurti as its head solely to prepare its members for his advent as World Teacher In 1929 after many years of questioning himself and the destiny imposed upon him Krishnamurti disbanded this organization saying Truth is a pathless land and you cannot approach it by any path whatsoever by any religion by any sect Truth being limitless unconditioned unapproachable by any path whatsoever cannot be organized nor should any organization be formed to lead or to coerce people along any particular path My only concern is to set men absolutely unconditionally free Until the end of his life at the age of ninety Krishnamurti traveled the world speaking as a private person The rejection of all spiritual and psychological authority including his own is a fundamental theme A major concern is the social structure and how it conditions the individual The emphasis in his talks and writings is on the psychological barriers that prevent clarity of perception In the mirror of relationship each of us can come to understand the content of his own consciousness which is common to all humanity We can do this not analytically but directly in a manner Krishnamurti describes at length In observing this content we discover within ourselves the division of the observer and what is observed He points out that this division which prevents direct perception is the root of human conflict His central vision did not waver after 1929 but Krishnamurti strove for the rest of his life to make his language even more simple and clear There is a development in his exposition From year to year he used new terms and new approaches to his subject with different nuances Because his subject is all embracing the Collected Works are of compelling interest Within his talks in any one year Krishnamurti was not able to cover the whole range of his vision but broad amplifications of particular themes are found throughout these volumes In them he lays the foundations of many of the concepts he used in later years The Collected Works contain Krishnamurti s previously published talks discussions answers to specific questions and writings for the years 1933 through 1967 They are an authentic record of his teachings taken from transcripts of verbatim shorthand reports and tape recordings *Tautological Oxymorons* John D. Brey, 2002-06-25 Following in the footsteps of Heidegger and Nietzsche Jacques Derrida set out to complete the process

of deconstructing Western metaphysics But something remarkable happened on the way to dismantling the Forum As if by grand design Derrida s deconstruction of Western metaphysics morphed into the ultimate justification for the apophatic negative theology that undergirds Western metaphysics In reaction to this inadvertent justification of negative theology Derrida embarked on a decade long confrontation with negative theology Most objective observers of the confrontation would be hard pressed not to feel that rather than deconstruction deconstructing apophatic theology instead and quite irreverently apophatic theology appears to have absorbed and incorporated the vocabulary of Derrida s deconstruction into the very language it uses to justify its presuppositions Having more than staved off the attack by Derrida s deconstruction it may now be time to turn the sword in the opposite direction If deconstruction is easily absorbed into the apophatic behemoth supporting Western metaphysics what would happen if Western metaphysics applied deconstruction to the modern scientific materialism which acts as the cornerstone of the worldview setting itself in opposition to Western metaphysics Tautological Oxymorons is an attempt to deconstruct the language and logic used to present scientific materialism as though it were a viable alternative to pre Enlightenment theology philosophy and mythology By examining modern scientific materialism in the light of language and proper language use we can see that much that s taken for granted as obvious and a mere given within the context of scientific materialism is rather when carefully examined in the context of precise language usage nothing more than sheer unadulterated absurdity
