Beyond 2012: Catastrophe or Awakening? Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies, calendars, and theories that indicate the year 2012 is a threshold of great change for humanity. Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012. Sifts through the catastrophic theories to show what we might really expect in 2012. In December of 2012, the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures, including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe, to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research, as well as anomalous phenomena such as near-death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date.

John E. Fetzer and the Quest for the New Age Brian C. Wilson, 2018-08-06 John E. Fetzer and the Quest for the New Age is the remarkable story of the spiritual search of one of Michigan's most successful entrepreneurs, a search that culminated in the Fetzer Institute, whose ambitious mission is nothing less than the spiritual transformation of the world. John E. Fetzer and the Quest for the New Age follows the spiritual sojourn of John E. Fetzer, a Michigan business tycoon. Born in 1901 and living most of his life in Kalamazoo, Fetzer parlayed his first radio station into extensive holdings in broadcasting and other enterprises, leading to his sole ownership of the Detroit Tigers in 1961. By the time he died in 1991, Fetzer had been listed in *Forbes* magazine as one of the four hundred wealthiest people in America. And yet, business success was never enough for Fetzer; his deep spiritual yearnings led him from the Christianity of his youth to a restless exploration of metaphysical religions and movements ranging from Spiritualism, Theosophy, Freemasonry, UFOology, and parapsychology all the way to the New Age as it blossomed in the 1980s. Author Brian C. Wilson demonstrates how Fetzer's quest mirrored those of thousands of Americans who sought new ways of thinking and being in the ever-changing spiritual movements of the twentieth century. Over his lifetime, Fetzer's worldview continuously

evolved combining and recombining elements from dozens of traditions in a process he called freedom of the spirit Unlike most others who engaged in a similar process Fetzer's synthesis can be documented step by step using extensive archival materials providing readers with a remarkably rich and detailed roadmap through metaphysical America The book also documents how Fetzer's wealth allowed him to institutionalize his spiritual vision into a thriving foundation the Fetzer Institute which was designed to carry his insights into the future in hopes that it would help catalyze a global spiritual transformation John E Fetzer and the Quest for the New Age offers a window into the rich and complex history of metaphysical religions in the Midwest and the United States at large It will be read with interest by those wishing to learn more about this enigmatic Michigan figure as well as those looking for an engaging introduction into America's rapidly shifting spiritual landscape

Edition 3* , **The Quest Of The Overself** P Brunton,Paul Brunton,2011-10-31 By far the safest and most rational exposition of Eastern metaphysics and the practice of mental discipline that I have read Spectator The Quest of the Overself shows Western readers how to achieve serenity of mind control of thought and desire and the power to use higher forces by means of simple exercises These include breathing and visualisation as well as mental control through meditation These ideas which the author gained by extensive travel in India are as relevant to us today as they were when first published in 1937 Paul Brunton was a British philosopher mystic and traveler He left a successful journalistic career to live among yogis and holy men and studied a wide variety of Eastern and Western esoteric spiritual traditions As he explains in the still fresh and fascinating The Quest of the Overself meditation and the quest for inner peace are by no means exclusively for monks and hermits but also support those living everyday active lives in the West **Visioning New and Minority Religions** Eugene Gallagher,2016-11-25 Offering an assesment of the state of the field of the study of NRMs this book considers the analytical tools for the study of new or minority religions and draws on the perspectives of diverse academic disciplines Its essays focus on individual groups in a variety of geographical settings and review the past of particular groups in order to extrapolate future developments They cover new religions that have persisted well past the first generation such as the Mormon Church the Christian Scientists and the Jehovah's Witnesses and groups with comparatively shorter histories such as various forms of contemporary Paganism Soka Gakkai and the Diamond Way Buddhist group **Shemsu-Hor** Edouard Ponist,2021-11-22 Shemsu Hor the Followers of Horus is a journey taking us in Ancient Egypt and the Hopi Nation Two cultures separated by thousands of miles yet both have similar connections from the deep past regarding spiritual burial practices and reeds Reeds are central connecting both cultures reeds which were used to construct the first temple in Ancient Egypt and the reed depicted in the emergence story of the Hopi from the third to the fourth world The first mound of

the Ancient Egyptian temple and the sand ridge of Hopi ceremonial practice in their Kivas is explored and more including DNA The journey then takes us to the here and now how the Shemsu Hor have planted clues in stone for us to decipher regarding events unfolding today Perhaps we are not alone as well on our journey as human beings *Atlantis* Emmet John Sweeney,2010 Historian Emmet Sweeney persuasively intertwines history and literary references with hard science from archaeology and anthropology to genetics and geology to prove the existence of an ancient trans Atlantic link between the Old World and the New Sweeney examines The geological certainty of a sunken island in the Azores The Human Genome Project s startling revelation that 3% of Native American DNA is characteristic of people of south west Europe and the Atlas Mountains whose inhabitants as late as Roman times called themselves Atlanteans Archaeological and cultural proof of a relationship between the Stone Age and Early Bronze Age civilizations of North America and South West Europe The occurrence of cocaine and tobacco two American narcotics in many Egyptian mummies Piece by piece Sweeney constructs a compelling case for not just the probability but the necessity of an Atlantic stepping stone the missing link that transmitted both the culture and biology of Europe to America millennia before Columbus Atlantis The Evidence of Science argues as never before that Atlantis should rise to take its place in history not myth **Sufism and Zen in the West** Saeko

Yazaki,Michael Conway,2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities

Mystics and Messiahs Philip Jenkins,2000-04-06 In *Mystics and Messiahs* the first full account of cults and anti cult scares in American history Philip Jenkins shows that contrary to popular belief cults were by no means an invention of the 1960s In fact most of the frightening images and stereotypes surrounding fringe religious movements are traceable to the mid nineteenth century when Mormons Freemasons and even Catholics were denounced for supposed ritualistic violence fraud and sexual depravity But America has also been the home of an often hysterical anti cult backlash Jenkins offers an insightful new analysis of why cults arouse such fear and hatred both in the secular world and in mainstream churches many of which were themselves originally regarded as cults He argues that an accurate historical perspective is urgently needed if we are to avoid the kind of catastrophic confrontation that occurred in Waco or the ruinous prosecution of imagined Satanic cults that swept the country in the 1980s Without ignoring genuine instances of aberrant behavior *Mystics and Messiahs* goes beyond the vast edifice of myth distortion and hype to reveal the true characteristics of

religious fringe movements and why they inspire such fierce antagonism
